

# Armenia

## Postcode

## Postcode type and position

4 digits to the left of the locality name.

## Coding method

0 0 0 2

**Position of the address on the envelope** Bottom right-hand corner

**Alignment of address lines**

Left-aligned

**Address format** CJSC «Haypost» recommendations:

- address lines should be ordered from the specific to the general (from top to bottom);
- addressee's name and function should be placed before company name;
- address should be written only in English, French or Russian;
- only Arabic numerals should be used;
- each line should contain a maximum of 40 characters;
- the following symbols should be avoided: full stop (.), dash (-), comma (,);
- address lines should be aligned on the left;
- locality names and country name should be written in upper case characters.
