

Standards Board

DATA AND CODE DEFINITION GROUP

Berne, 10-11 December 2002

Code Allocation and Maintenance Group (CAM) - Report

1 The CAM consists of members from the UPU-IB, IPC and TPG Post (Netherlands). Its purpose is to allocate codes and maintain code lists pursuant to SB standards.

2 Since the last DCG meeting, the CAM has made the following decisions concerning code allocations:

- Allocation of IMPC codes and changes to existing codes: attached as annex 1 are the September and October 2002 updates for the DCG members' review.
- Allocation of EMS sub-class code: EMS - Guaranteed (EG) was allocated and noted in the last CAM report. Since then, the EMS Co-Operative Board has also endorsed it. In addition, the EMS Board observed that since the code will only be used for documents, this should appear in a note to the code. Accordingly, the code will be included on the UPU web site under sub-class codes with the description "documents only".
- On 5 November 2002, the DCG was notified of a request from Belgium for a IMPC code in Brussels (BEBRUK). Since the request was for an eighth code in that area, the CAM was required to refer the request to the DCG. No objections were voiced and the code was allocated.
- On 22 October 2002, the DCG was notified of requests from USPS for IMPC codes in Seattle (USSEAE and USSEAF). Since the USPS already has five codes in that area, the CAM was required to refer the request to the DCG. An objection was voiced but it was agreed that the codes could be allocated if the topic of "segregation of mail flows" was placed on the DCG agenda. Please see agenda item 7.

3 The DCG is asked to take note of the CAM report.

Code	Description	Function	Valid from	Valid to	Mail Flow	Mail Category	Mail Class	Restrictions
New IMPCs, Finland Post Corporation								
FIHEL	HELSENKI HUB TRANSIT	B	01.09.2002		I, T	A, B, C, D	U, C	DENMARK ONLY
