Code Allocation and Maintenance Group (CAM) – Report

Agenda item 6

Document by International Bureau

CAM members and objectives

1 The CAM consists of members from the UPU-IB, IPC, Great Britain, and Portugal. Its purpose is to allocate codes and maintain code lists, pursuant to SB standards.

Period of this report

2 This report covers the period from mid-February 2008 to May 2008.

Requests for S31 or S35 Issuer codes

3 There were no changes to code lists 109 and 118. This is partly due to the POC decision to suspend the allocation of IMPC codes to private companies – see extract (§ 3) of CONGRÈS–Doc 18 which follows:

“During the 2007 POC Plenary, the discussion (POC 2007–Doc 11) centred on ETOE mail operations and the need to clarify the situation for private companies registered as international mail processing centres or IMPCs, and their use of UPU forms. In instructing the International Bureau to continue its study, the POC decided to suspend allocation of IMPC codes to private companies until the issues were clarified.”

4 In addition the subject of S35 code allocation was brought to the attention of the 2008.2 SB. Following is an extract of the SB report:

“UPU–CAM – Registration of IMPC codes

IPC reported that the CA ruling suspending the allocation of codes to ‘private operators’ has, since April 2007, prevented the allocation of an IMPC code to MoldExpresPosta.

The IB regarded MoldExpresPosta as “licensed by the Moldovan Ministry but not as a designated operator in the sense of Article 2 of the Convention”.

MoldExpresPosta had resorted to sending despatches, inter-alia to Spain Post and Portugal Post, using unallocated IMPC code MDKIVE.

CAM had become aware only after an enquiry from Portugal Post was made.

IPC requested that the CAM be advised of all cases in which an application for an IMPC code had been refused by the IB. The IB agreed to examine this request. (AP 0055:IB)”

5 The IB informed the CAM that the matter was examined and that the decision was that this is an internal IB matter. Therefore, the IB will not be providing CAM with the details requested. It can only provide the related Congress documents and circulars.

IMPC code changes

6 The modifications in annex 1 were made. It should be noted that the CAM does not review or approve attribute changes for existing IMPCs – only new IMPCs. Changes in attributes are handled by the IB Secretariat. Changes to code list 108 (IMPCs) are detailed in annex 1.
