Bahrain

**Postcode**  
3 or 4 digits to the right of the locality name.

**Coding method**

| 3 | 1 | 7 |

- Region or municipality

**Address format**

In four-digit postcodes, the first two digits identify the region. Valid postcodes range from 1XX to 12XX.

The order of the lines is as follows:
1. addressee’s name;
2. number of house, building, shop or any other establishment;
3. street name or number;
4. name of municipality, rural locality, followed by the postcode;
5. name of country.
