

Guinea

Postcode

Postcode type and position

3 digits and P.O. Box number to the left of locality name.

Coding method

List of postal regions

- 0: Conakry
- 1: Basse-Guinée
- 2: Moyenne-Guinée
- 3: Haute-Guinée
- 4: Guinée forestière

Address format

The postcode consists of two separate parts: the radical and the suffix:

- the radical is the group of digits that identifies the destination of the item (routeing indicator);
- the suffix is the group of digits that indicates the specific address of the addressee (delivery indicator).

The radical code (postcode) is composed of three digits, making adaptation possible as the service gradually develops. The suffix is composed of P.O. Box numbers.

001 BP 457: 001 = radical and BP 457 = suffix.
