

# Senegal

## Postcode

### Postcode type and position

5 digits to the left of delivery office name

### Coding method

1 2 5 0 0

## Address format

Advice on correct formatting of Senegalese addresses:

- The address starts with the most specific information (name or company name) and ends with the most general (country of destination).
- A maximum of six lines (seven for international mail). No blank lines to be included.
- A maximum of 38 characters or spaces per line. There should be one space between words.
- There should be no punctuation from the line with the street number and name onwards.
- Capital letters are recommended for the last 3 lines (4 with the country name) of the address.
- The address field should be left-aligned and without italics.

## Examples
