

# Mauritius

## Postcode

## Postcode type and position

8 alphanumeric characters (3 digits, 2 letters, 3 digits) above the locality name.

## Coding method

The use of postcodes has been introduced on a trial basis in a single delivery office. This trial, limited for the moment to the Curepipe office, has not yet been extended to other delivery offices owing to numerous difficulties, such as the lack of street names, house numbers, etc.

## Examples

MAGASIN BIG  
ARCADE SALAFFA  
742CU001  
CUREPIPE  
MAURITIUS
