Member countries that have not sent in their vote within a period of 45 days shall be considered to have abstained. The aforementioned periods shall be reckoned from the dates of the International Bureau circulars.

1 Subject to the provisions of paragraphs 2 to 6, the annual expenditure relating to the activities of bodies of the Union may not exceed 37,235,000 Swiss francs for the years 2017 to 2020. In the event that the Congress planned for 2020 is postponed, the same ceilings shall also apply to the post-2020 period.

2 The expenditure relating to the convening of the next Congress (travelling expenses of the secretariat, transport charges, cost of installing simultaneous interpretation equipment, cost of reproducing documents during the Congress, etc.) shall not exceed the limit of 2,900,000 Swiss francs.

3 The Council of Administration shall be authorized to exceed the limits laid down in paragraphs 1 and 2 to take account of increases in salary scales, pension contributions or allowances, including post adjustments, approved by the United Nations for application to its staff working in Geneva.

4 The Council of Administration shall also be authorized to adjust, each year, the amount of expenditure other than that relating to staff on the basis of the Swiss consumer price index.
5 Notwithstanding paragraph 1, the Council of Administration, or in case of extreme urgency, the Director General, may authorize the prescribed limits to be exceeded to meet the cost of major and unforeseen repairs to the International Bureau building, provided however that the amount of the increase does not exceed 125,000 Swiss francs per annum.

6 If the credits authorized in paragraphs 1 and 2 prove inadequate to ensure the smooth running of the Union, these limits may only be exceeded with the approval of the majority of the member countries of the Union. Any consultation shall include a complete description of the facts justifying such a request.

Article XIII
(Art. 146 amended)
Regulation of member countries’ contributions

1 Countries which accede to the Union or are admitted to the status of members of the Union as well as those which leave the Union shall pay their contributions for the whole of the year during which their admission or withdrawal becomes effective.

2 Member countries shall pay their contributions to the Union’s annual expenditure in advance on the basis of the budget laid down by the Council of Administration. These contributions shall be paid not later than the first day of the financial year to which the budget refers. After that date, the sums due shall be chargeable with interest in favour of the Union at the rate of 6% per annum from the fourth month.

3 Where the arrears of mandatory contributions, not including interest, owed to the Union by a member country are equal to or more than the amount of the contributions of that member country for the preceding two financial years, such member country may irrevocably assign to the Union all or part of the credits owed it by other member countries, in accordance with the arrangements laid down by the Council of Administration. The conditions of this assignment of credit shall be determined by agreement reached between the member country, its debtors/creditors and the Union.

4 A member country which, for legal or other reasons, cannot make such an assignment must undertake to conclude a schedule for the amortization of its arrears.

5 Other than in exceptional circumstances, recovery of arrears of mandatory contributions owed to the Union may not extend over more than ten years.

6 In exceptional circumstances, the Council of Administration may release a member country from all or part of the interest owed if that country has paid the full capital amount of its debts in arrears.

7 A member country may also be released, within the framework of an amortization schedule approved by the Council of Administration for its accounts in arrears, from all or part of the interest accumulated or to accrue; such release shall, however, be subject to the full and punctual execution of the amortization schedule within an agreed period of ten years at most.

8 The provisions under paragraphs 3 to 7 apply by analogy to the translation costs billed by the International Bureau to member countries belonging to the language groups.

9 The International Bureau shall send bills to member countries at least three months before their due date. The original bills shall be sent to the correct address provided by the member country concerned. Electronic copies of the bills shall be sent via e-mail as pre-advice or alerts.

10 Furthermore, the International Bureau shall provide member countries with clear information each time it charges them interest on overdue payment of particular bills, so that member countries can easily verify to which bills the interest corresponds.
Article XIV
(Art. 149 amended)

Automatic sanctions

1 Any member country unable to make the assignment provided for in article 146.3 and which does not agree to submit to an amortization schedule proposed by the International Bureau in accordance with article 146.4, or which does not comply with such a schedule shall automatically lose its right to vote at Congress and at meetings of the Council of Administration and the Postal Operations Council and shall no longer be eligible for membership of these two Councils.

2 Automatic sanctions shall be lifted as a matter of course and with immediate effect as soon as the member country concerned has paid its arrears of mandatory contributions owed to the Union, in capital and interest, or has agreed with the Union to submit to a schedule for the amortization of the arrears.

Article XV

1 This Additional Protocol shall come into force on 1 January 2018 and shall remain in force for an indefinite period.

In witness whereof the plenipotentiaries of the governments of the member countries have drawn up this Additional Protocol, which shall have the same force and the same validity as if its provisions were inserted in the text of the General Regulations itself, and they have signed it in a single original which shall be deposited with the Director General of the International Bureau. A copy thereof shall be delivered to each party by the International Bureau of the Universal Postal Union.

1 The International Bureau shall be at all times at the disposal of the Council of Administration, the Postal Operations Council and member countries and their designated operators for the purpose of supplying them with any necessary information on questions relating to the service.
In particular it shall collect, collate, publish and distribute all kinds of information of interest to the international postal service, give an opinion, at the request of the parties involved, on questions in dispute, act on requests for explanation and amendment of the Acts of the Union and, in general, carry out such studies and editorial or documentary work as are assigned to it by those Acts or as may be referred to it in the interest of the Union.

It shall also conduct inquiries requested by member countries and their designated operators to obtain the views of other member countries and designated operators on a particular question. The result of an inquiry shall not have the status of a vote and shall not be formally binding.

It may act as a clearing house in the settlement of accounts of all kinds relating to the postal service.

The International Bureau shall ensure the confidentiality and security of commercial data provided by member countries and/or their designated operators for the performance of its duties arising from the Acts or decisions of the Union.

Article 133
Technical cooperation (Const. 1)

The International Bureau shall develop postal technical assistance in all its forms within the framework of international technical cooperation.

Article 134
Forms supplied by the International Bureau (Const. 20)

The International Bureau shall be responsible for arranging the manufacture of international reply coupons and for supplying them, at cost, to member countries or their designated operators ordering them.

Article 135
Acts of Restricted Unions and Special Agreements (Const. 8)

Two copies of the Acts of Restricted Unions and of Special Agreements concluded under article 8 of the Constitution shall be sent to the International Bureau by the offices of such Unions, or failing that, by one of the contracting parties.

The International Bureau shall see that the Acts of Restricted Unions and Special Agreements do not include conditions less favourable to the public than those which are provided for in the Acts of the Union. It shall notify the Council of Administration of any irregularity discovered through applying this provision.

The International Bureau shall inform member countries and their designated operators of the existence of the Restricted Unions and the Special Agreements mentioned above.

Article 136
Union periodical

The International Bureau shall publish, with the aid of the documents made available to it, a periodical in Arabic, Chinese, English, French, German, Russian and Spanish.
Article 137

1 The International Bureau shall make an annual report on the work of the Union, which shall be sent, after approval by the Management Committee of the Council of Administration, to member countries and/or designated operators, the Restricted Unions and the United Nations.

Chapter III
Submission, consideration of proposals, notification of decisions adopted and entry into force of the Regulations and other decisions adopted

Article 138
Procedure for submitting proposals to Congress (Const. 29)

1 Subject to the exceptions provided for in paragraphs 2 and 5, the following procedure shall govern the submission of proposals of all kinds to Congress by member countries:

1.1 proposals which reach the International Bureau at least six months before the date fixed for Congress shall be accepted;
1.2 no drafting proposal shall be accepted during the period of six months preceding the date fixed for Congress;
1.3 proposals of substance which reach the International Bureau in the interval between six and four months before the date fixed for Congress shall not be accepted unless they are supported by at least two member countries;
1.4 proposals of substance which reach the International Bureau in the interval between four and two months preceding the date fixed for Congress shall not be accepted unless they are supported by at least eight member countries; proposals which arrive after that time shall no longer be accepted;
1.5 declarations of support must reach the International Bureau within the same period of time as the proposals to which they refer.

2 Proposals concerning the Constitution or the General Regulations shall reach the International Bureau not later than six months before the opening of Congress; any received after that date but before the opening of Congress shall not be considered unless Congress so decides by a majority of two thirds of the member countries represented at Congress and unless the conditions laid down in paragraph 1 are fulfilled.

3 Every proposal must, as a rule, have only one aim and contain only the changes justified by that aim. Similarly, each proposal liable to lead to significant costs for the Union shall be accompanied by an indication of its financial impact, prepared by the member country submitting the proposal, in consultation with the International Bureau, so that the financial resources needed for its implementation can be determined.

4 Drafting proposals shall be headed "Drafting proposal" by the member countries which submit them and shall be published by the International Bureau under a number followed by the letter R. Proposals which do not bear this indication but which, in the opinion of the International Bureau, deal only with drafting points shall be published with an appropriate annotation; the International Bureau shall draw up a list of these proposals for Congress.

5 The procedure prescribed in paragraphs 1 and 4 shall not apply to proposals concerning the Rules of Procedure of Congresses.
Article 138bis
Procedure for amending proposals submitted in accordance with article 138

1 Amendments to proposals already made, excluding those submitted by the Council of Administration or the Postal Operations Council, may continue to be presented to the International Bureau in accordance with the provisions of the Rules of Procedure of Congresses.

2 Amendments to proposals submitted by the Council of Administration or the Postal Operations Council shall be received by the International Bureau at least two months before the opening of Congress. Beyond this point, member countries may present their amendments at Congress sessions.

Article 139
Procedure for submitting proposals amending the Convention or the Agreements between Congresses

1 To be eligible for consideration, every proposal concerning the Convention or the Agreements submitted by a member country between Congresses shall be supported by at least two other member countries. Such proposals shall lapse if the International Bureau does not receive, at the same time, the necessary number of declarations of support.

2 These proposals shall be sent to other member countries through the intermediary of the International Bureau.

Article 140
Consideration of proposals amending the Convention or the Agreements between Congresses

1 Every proposal concerning the Convention, the Agreements and their Final Protocols shall be subject to the following procedure: where a member country has sent a proposal to the International Bureau, the latter shall forward it to all member countries for examination. They shall be allowed a period of 45 days in which to examine the proposal and forward any observations to the International Bureau. Amendments shall not be admissible. Once these 45 days have elapsed, the International Bureau shall forward to member countries all the observations it has received and invite each member country to vote for or against the proposal. Member countries that have not sent in their vote within a period of 45 days shall be considered to have abstained. The aforementioned periods shall be reckoned from the dates of the International Bureau circulars.

2 If the proposal relates to an Agreement or its Final Protocol, only the member countries which are parties to that Agreement may take part in the procedure described in paragraph 1.

Article 141
Procedure for submitting proposals to the Postal Operations Council concerning the preparation of new Regulations in the light of decisions taken by Congress

1 The Regulations of the Universal Postal Convention and the Postal Payment Services Agreement shall be drawn up by the Postal Operations Council in the light of the decisions taken by Congress.

2 Proposals that are consequential on proposed amendments to the Convention or Postal Payment Services Agreement should be submitted to the International Bureau simultaneously with the Congress proposals to which they relate. They may be submitted by a single member country without the support of other member countries. Such proposals shall be distributed to all member countries no later than one month prior to Congress.
3 Other proposals concerning the Regulations for consideration by the Postal Operations Council in its preparation of the new Regulations within the six months following Congress shall be submitted to the International Bureau at least two months before Congress.

4 Proposals concerning changes to the Regulations required as a result of Congress decisions that are submitted by member countries must reach the International Bureau no later than two months before the opening of the Postal Operations Council. Such proposals shall be distributed to all member countries and their designated operators no later than one month prior to the opening of the Postal Operations Council.

Article 142
Amendment of the Regulations by the Postal Operations Council

1 Proposals for amending the Regulations shall be dealt with by the Postal Operations Council.

2 The support of at least one member country shall be required for submitting any proposal to amend the Regulations.

3 (Deleted.)

Article 143
Notification of decisions adopted between Congresses (Const. 29; Gen. Regs 139, 140, 142)

1 Amendments made to the Convention, the Agreements and the Final Protocols to those Acts shall be sanctioned by notification thereof to the Governments of member countries by the Director General of the International Bureau.

2 Amendments made to the Regulations and their Final Protocols by the Postal Operations Council shall be communicated to member countries and their designated operators by the International Bureau. The same shall apply to the interpretations referred to in article 38.3.2 of the Convention and in the corresponding provisions of the Agreements.

Article 144
Entry into force of the Regulations and of the other decisions adopted between Congresses

1 The Regulations shall come into force on the same date and shall have the same duration as the Acts laid down by Congress.

2 Subject to the provisions of paragraph 1, decisions on amending the Acts of the Union which are adopted between Congresses shall not take effect until at least three months after their notification.

Chapter IV
Finance

Article 145
Fixing of the expenditure of the Union (Const. 21)

1 Subject to the provisions of paragraphs 2 to 6, the annual expenditure relating to the activities of bodies of the Union may not exceed 37,235,000 Swiss francs for the years 2017 to 2020. In the event that the Congress planned for 2020 is postponed, the same ceilings shall also apply to the post-2020 period.
2 The expenditure relating to the convening of the next Congress (travelling expenses of the secretariat, transport charges, cost of installing simultaneous interpretation equipment, cost of reproducing documents during the Congress, etc.) shall not exceed the limit of 2,900,000 Swiss francs.

3 The Council of Administration shall be authorized to exceed the limits laid down in paragraphs 1 and 2 to take account of increases in salary scales, pension contributions or allowances, including post adjustments, approved by the United Nations for application to its staff working in Geneva.

4 The Council of Administration shall also be authorized to adjust, each year, the amount of expenditure other than that relating to staff on the basis of the Swiss consumer price index.

5 Notwithstanding paragraph 1, the Council of Administration, or in case of extreme urgency, the Director General, may authorize the prescribed limits to be exceeded to meet the cost of major and unforeseen repairs to the International Bureau building, provided however that the amount of the increase does not exceed 125,000 Swiss francs per annum.

6 If the credits authorized in paragraphs 1 and 2 prove inadequate to ensure the smooth running of the Union, these limits may only be exceeded with the approval of the majority of the member countries of the Union. Any consultation shall include a complete description of the facts justifying such a request.

Article 146
Regulation of member countries' contributions

1 Countries which accede to the Union or are admitted to the status of members of the Union as well as those which leave the Union shall pay their contributions for the whole of the year during which their admission or withdrawal becomes effective.

2 Member countries shall pay their contributions to the Union's annual expenditure in advance on the basis of the budget laid down by the Council of Administration. These contributions shall be paid not later than the first day of the financial year to which the budget refers. After that date, the sums due shall be chargeable with interest in favour of the Union at the rate of 6% per annum from the fourth month.

3 Where the arrears of mandatory contributions, not including interest, owed to the Union by a member country are equal to or more than the amount of the contributions of that member country for the preceding two financial years, such member country may irrevocably assign to the Union all or part of the credits owed it by other member countries, in accordance with the arrangements laid down by the Council of Administration. The conditions of this assignment of credit shall be determined by agreement reached between the member country, its debtors/creditors and the Union.

4 A member country which, for legal or other reasons, cannot make such an assignment must undertake to conclude a schedule for the amortization of its arrears.

5 Other than in exceptional circumstances, recovery of arrears of mandatory contributions owed to the Union may not extend over more than ten years.

6 In exceptional circumstances, the Council of Administration may release a member country from all or part of the interest owed if that country has paid the full capital amount of its debts in arrears.

7 A member country may also be released, within the framework of an amortization schedule approved by the Council of Administration for its accounts in arrears, from all or part of the interest accumulated or to accrue; such release shall, however, be subject to the full and punctual execution of the amortization schedule within an agreed period of ten years at most.

8 The provisions under paragraphs 3 to 7 apply by analogy to the translation costs billed by the International Bureau to member countries belonging to the language groups.
9 The International Bureau shall send bills to member countries at least three months before their due date. The original bills shall be sent to the correct address provided by the member country concerned. Electronic copies of the bills shall be sent via e-mail as pre-advice or alerts.

10 Furthermore, the International Bureau shall provide member countries with clear information each time it charges them interest on overdue payment of particular bills, so that member countries can easily verify to which bills the interest corresponds.

Article 147
Shortfalls in financing

1 A Reserve Fund shall be established with the Union to cover shortfalls in financing. Its amount shall be fixed by the Council of Administration. The Fund shall be maintained primarily from budget surpluses, and may also be used to balance the budget or reduce the amount of member countries’ contributions.

2 In case of temporary shortfalls in Union financing, the Government of the Swiss Confederation shall make the necessary short-term advances to the Union, on conditions fixed by mutual agreement.

Article 148
Supervision of book-keeping and accounting

1 The Government of the Swiss Confederation shall supervise, without charge, the book-keeping and accounting of the International Bureau within the limits of the credits fixed by Congress.

Article 149
Automatic sanctions

1 Any member country unable to make the assignment provided for in article 146.3 and which does not agree to submit to an amortization schedule proposed by the International Bureau in accordance with article 146.4, or which does not comply with such a schedule shall automatically lose its right to vote at Congress and at meetings of the Council of Administration and the Postal Operations Council and shall no longer be eligible for membership of these two Councils.

2 Automatic sanctions shall be lifted as a matter of course and with immediate effect as soon as the member country concerned has paid its arrears of mandatory contributions owed to the Union, in capital and interest, or has agreed with the Union to submit to a schedule for the amortization of the arrears.

Article 150
Contribution classes (Const. 21; Gen. Regs 131, 145, 146, 147 and 148)

1 Member countries shall contribute to defraying Union expenses according to the contribution class to which they belong. These classes shall be the following:
   – class of 50 units;
   – class of 45 units;
   – class of 40 units;
   – class of 35 units;
   – class of 30 units;
   – class of 25 units;
   – class of 20 units;
– class of 15 units;
– class of 10 units;
– class of 5 units;
– class of 3 units;
– class of 1 unit;
– class of 0.5 units, reserved for the least advanced countries as listed by the United Nations and for other countries designated by the Council of Administration.

2 Notwithstanding the contribution classes listed in paragraph 1, any member country may elect to contribute a higher number of units than that corresponding to the contribution class to which it belongs, for a minimum term equivalent to the period between Congresses. The announcement of a change shall be made at the latest at Congress. At the end of the period between Congresses, the member country shall return automatically to its original number of contribution units unless it decides to maintain its contribution of a higher number of units. The payment of additional contributions will increase the expenditure accordingly.

3 Member countries shall be included in one of the above-mentioned contribution classes upon their admission or accession to the Union, in accordance with the procedure laid down in article 21.4 of the Constitution.

4 Member countries may subsequently be placed in a lower contribution class, on condition that the request for this change is sent the International Bureau at least two months before the opening of Congress. Congress shall give a non-binding opinion on these requests for a change in contribution class. The member country shall be free to decide whether to follow the opinion of Congress. The final decision of the member country shall be transmitted to the International Bureau Secretariat before the end of Congress. This change request shall take effect on the date of the entry into force of the financial provisions drawn up by Congress. Member countries that have not made known their wish to change contribution class within the required time shall remain in the class to which they belonged up to that time.

5 Member countries may not insist on being lowered more than one class at a time.

6 Nevertheless, in exceptional circumstances such as natural disasters necessitating international aid programmes, the Council of Administration may authorize a temporary reduction in contribution class once between two Congresses when so requested by a member country if the said member establishes that it can no longer maintain its contribution at the class originally chosen. In the same circumstances, the Council of Administration may also authorize a temporary reduction for the non-least developed countries already in the class of 1 unit by placing them in the class of 0.5 unit.

7 The temporary reduction in contribution class in application of paragraph 6 may be authorized by the Council of Administration for a maximum period of two years or up to the next Congress, whichever is earlier. On expiry of the specified period, the country concerned shall automatically revert to its original contribution class.

8 Notwithstanding paragraphs 4 and 5, changes to a higher class shall not be subject to any restriction.

Article 151
Payment for supplies from the International Bureau (Gen. Regs 134)

1 Supplies provided by the International Bureau to member countries and their designated operators against payment shall be paid for in the shortest possible time and at the latest within six months from the first day of the month following that in which the account is sent by the Bureau. After that period the sums due shall be chargeable with interest in favour of the Union at the rate of 5% per annum reckoned from the date of expiry of that period.
Article 152
Organization of user-funded subsidiary bodies

1 Subject to the approval of the Council of Administration, the POC may establish a number of user-funded subsidiary bodies, funded by voluntary means, in order to organize operational, commercial, technical and economic activities which fall within its competence under article 18 of the Constitution, but which may not be financed by the regular budget.

2 Upon the creation of such a body under the POC, the POC shall decide on the basic framework of the statutes of the body, taking due consideration of the fundamental rules and principles of the UPU as an intergovernmental organization, and shall submit it to the CA for approval. The basic framework shall include the following elements:
   2.1 the mandate;
   2.2 the constituency, including the categories of members participating;
   2.3 decision-making rules, including its internal structure and its relationship with other UPU bodies;
   2.4 voting and representation principles;
   2.5 financing (subscription, usage fees, etc.);
   2.6 composition of secretariat and management structure.

3 Each user-funded subsidiary body shall organize its activities in an autonomous manner within the basic framework decided by the POC and approved by the CA, and shall prepare an annual report on its activities for approval by the POC.

4 The Council of Administration shall establish the rules concerning support costs that user-funded subsidiary bodies should contribute to the regular budget, and shall publish them in the UPU Financial Regulations.

5 The Director General of the International Bureau shall administer the secretariat of the user-funded subsidiary bodies in accordance with the Staff Rules and Regulations, approved by the CA, applicable to the staff recruited for the user-funded subsidiary bodies. The secretariat of the subsidiary bodies shall be an integral part of the International Bureau.

6 Information concerning user-funded subsidiary bodies established in accordance with this article shall be reported to Congress following their establishment.

Chapter V
Arbitration

Article 153
Arbitration procedure (Const. 32)

1 If a dispute has to be settled by arbitration between member countries, each member country must advise the other party in writing of the subject of the dispute and inform it, by means of a notice to initiate arbitration, that it wishes to initiate arbitration.

2 If the dispute concerns questions of an operational or technical nature, each member country may ask its designated operator to act in accordance with the procedure provided for in the following paragraphs and delegate such power to its operator. The member country concerned shall be informed of the progress of the proceedings and of the result. The respective member countries or designated operators shall hereafter be referred to as "parties to the arbitration".

3 The parties to the arbitration shall appoint either one or three arbitrators.
4 Where the parties to the arbitration choose to appoint three arbitrators, each party shall, in accordance with paragraph 2, select a member country or designated operator not directly involved in the dispute, to act as an arbitrator. When several member countries and/or designated operators make common cause, they shall count only as a single party for the purposes of these provisions.

5 Where the parties agree to the appointment of three arbitrators, the third arbitrator shall be jointly agreed upon by the parties and shall not need to be from a member country or designated operator.

6 If the dispute concerns one of the Agreements, the arbitrators may be appointed only from among the member countries that are parties to that Agreement.

7 The parties to the arbitration may jointly agree to appoint a single arbitrator, who shall not need to be from a member country or designated operator.

8 If one or both parties to the arbitration do not, within a period of three months from the date of the notice to initiate arbitration, appoint an arbitrator or arbitrators the International Bureau shall, if so requested, itself call upon the defaulting member country to appoint an arbitrator, or shall itself appoint one automatically. The International Bureau will not be involved in the deliberations unless otherwise mutually requested by the parties.

9 The parties to the arbitration may mutually agree to reconcile the dispute at any time before a ruling is delivered by the arbitrator or arbitrators. Notice of any withdrawal must be submitted in writing to the International Bureau within 10 days of the parties reaching such agreement. Where the parties agree to withdraw from the arbitration process, the arbitrator or arbitrators shall lose their authority to decide the matter.

10 The arbitrator or arbitrators shall be required to make a decision on the dispute based on the facts and evidence before them. All information regarding the dispute must be notified to both parties and the arbitrator or arbitrators.

11 The decision of the arbitrator or arbitrators shall be taken by a majority of votes, and notified to the International Bureau and the parties within six months of the date of the notice to initiate arbitration.

12 The arbitration proceedings shall be confidential, and only a brief description of the dispute and the decision shall be advised in writing to the International Bureau within 10 days of the decision being delivered to the parties.

13 The decision of the arbitrator or arbitrators shall be final and binding on the parties and not subject to appeal.

14 The parties to the arbitration shall implement the decision of the arbitrator or arbitrators without delay. Where a designated operator is delegated power by its member country to initiate and adhere to the arbitration procedure, the member country shall be responsible for ensuring that the designated operator implements the decision of the arbitrator or arbitrators.

Chapter VI
Use of languages within the Union

Article 154
Working languages of the International Bureau

1 The working languages of the International Bureau shall be French and English.
Article 155
Languages used for documentation, for debates and for official correspondence

1 In the documentation published by the Union, the French, English, Arabic and Spanish languages shall be used. The Chinese, German, Portuguese and Russian languages shall also be used, provided that only the most important basic documentation is produced in these languages. Other languages may also be used on condition that the member countries which have made the request bear all of the costs involved.

2 The member country or countries which have requested the use of a language other than the official language constitute a language group.

3 Documentation shall be published by the International Bureau in the official language and in the languages of the other duly constituted language groups, either directly or through the intermediary of the regional offices of those groups in conformity with the procedures agreed with the International Bureau. Publication in the different languages shall be effected in accordance with a common standard.

4 Documentation published directly by the International Bureau shall, as far as possible, be distributed simultaneously in the different languages requested.

5 Correspondence between the member countries or their designated operators of member countries and the International Bureau and between the latter and outside entities may be exchanged in any language for which the International Bureau has available a translation service.

6 The costs of translation into any language, including those resulting from the application of paragraph 5, shall be borne by the language group which has asked for that language. The member countries using the official language shall pay, in respect of the translation of non-official documents, a lump-sum contribution, the amount of which per contribution unit shall be the same as that borne by the member countries using the other International Bureau working language. All other costs involved in the supply of documents shall be borne by the Union. The ceiling of the costs to be borne by the Union for the production of documents in Chinese, German, Portuguese and Russian shall be fixed by a Congress resolution.

7 The costs to be borne by a language group shall be divided among the members of that group in proportion to their contributions to the expenses of the Union. These costs may be divided among the members of the language group according to another system, provided that the member countries concerned agree to it and inform the International Bureau through the intermediary of the spokesman of the group.

8 The International Bureau shall give effect to any change in the choice of language requested by a member country after a period which shall not exceed two years.

9 For the discussions at meetings of the Union's bodies, the French, English, Spanish, Russian and Arabic languages shall be admissible, by means of a system of interpretation – with or without electronic equipment – the choice being left to the judgment of the organizers of the meeting after consultation with the Director General of the International Bureau and the member countries concerned.

10 Other languages shall likewise be admissible for the discussions and meetings mentioned in paragraph 9.

11 Delegations using other languages shall arrange for simultaneous interpretation into one of the languages mentioned in paragraph 9, either by the system indicated in the same paragraph, when the necessary technical modifications can be made, or by individual interpreters.

12 The costs of the interpretation services shall be shared among the member countries using the same language in proportion to their contributions to the expenses of the Union. However, the costs of installing and maintaining the technical equipment shall be borne by the Union.

13 Member countries and/or their designated operators may come to an understanding about the language to be used for official correspondence in their relations with one another. In the absence of such an understanding, the language to be used shall be French.
Chapter VII
Final provisions

Article 156
Conditions for approval of proposals concerning the General Regulations

1 To become effective, proposals submitted to Congress relating to these General Regulations shall be approved by a majority of the member countries represented at Congress and having the right to vote. At least two thirds of the member countries of the Union having the right to vote shall be present at the time of voting.

Article 157
Proposals concerning the Agreements with the United Nations (Const 9)

1 The conditions of approval referred to in article 156 shall apply equally to proposals designed to amend the Agreements concluded between the Universal Postal Union and the United Nations, in so far as those Agreements do not lay down conditions for the amendment of the provisions they contain.

Article 158
Amendment, entry into force and duration of the General Regulations

1 Amendments adopted by a Congress shall form the subject of an additional protocol and, unless that Congress decides otherwise, shall enter into force at the same time as the Acts renewed in the course of the same Congress.

2 These General Regulations shall come into force on 1 January 2014 and shall remain in force for an indefinite period.

In witness whereof the plenipotentiaries of the Governments of the member countries have signed these General Regulations in a single original which shall be deposited with the Director General of the International Bureau. A copy thereof shall be delivered to each party by the International Bureau of the Universal Postal Union.

Declarations made on signature of the Acts

I

On behalf of the Socialist Republic of Viet Nam

The delegation of the Socialist Republic of Viet Nam declares that:

– Viet Nam reserves its right to take any action or measures, if necessary, to safeguard national rights and interests should any other UPU member countries in any way fail to comply with the provisions of the UPU Congress Acts or should declarations or reservations by other UPU member countries jeopardize the sovereignty, rights, interests and postal services of the Socialist Republic of Viet Nam.

– Viet Nam reserves the right to make reservations, if necessary, upon ratification/approval of the UPU Congress Acts.

(Congress–Doc 34.Add 1)

II

On behalf of the Republic of Turkey

The delegation of the Republic of Turkey makes the following statement in connection with the participation of the delegation of the Greek Cypriot Administration of Southern Cyprus in the 26th Congress of the Universal Postal Union purportedly on behalf of "the Republic of Cyprus".

There is no single authority, in law or in fact, that is competent to represent jointly the Turkish Cypriots and the Greek Cypriots and, consequently, Cyprus as a whole. Turkey regards the Greek Cypriot authorities as exercising authority, control and jurisdiction only in the territory south of the buffer zone, as is currently the case, and as not representing the Turkish Cypriot people, and will treat the acts performed by them accordingly.

In view of the above, Turkey declares that its presence and participation in the work of the Universal Postal Union, its signature of the Final Acts, and its approval of the Istanbul Postal Strategy does not amount to any form of recognition of the Greek Cypriot Administration’s pretention to represent the so-called "Republic of Cyprus", nor does it imply any obligations on the part of Turkey to enter into any dealing with the so-called "Republic of Cyprus" within the framework of Universal Postal Union activities.

(Congress–Doc 34.Add 2)
On behalf of Georgia

At the 26th Universal Postal Congress (Istanbul, Turkey, 2016) the delegation of Georgia makes the following statement:

Abkhazia, Georgia, and Tskhinvali Region (South Ossetia), Georgia, are Georgian regions and represent inseparable parts of Georgian territory. The territorial integrity of Georgia has been supported and acknowledged by the resolutions of the UN Security Council. Any action for any reason in these Georgian regions in the postal sector can be carried out only in accordance with the Constitution and legislation of Georgia, the Acts of the Universal Postal Union and international law. All other cases represent illegal action and infringement of the sovereignty and territorial integrity of Georgia.

Georgia reserves its right, for protection of the sovereignty and territorial integrity of the state, to take any legal action considered appropriate in case any member country of the Universal Postal Union does not comply with the obligations derived from the Acts of the Universal Postal Union, and by its statements and actions directly or indirectly endangers the normal functioning of the postal sector on the whole territory of Georgia and undermines its national interests and sovereignty.

Georgia reserves the right in case of necessity to make additional statements regarding the Acts adopted at this Congress of the Universal Postal Union if any provision will directly or indirectly contravene international law, as well as the Constitution and the laws of Georgia.

(Congress–Doc 34.Add 3)

On behalf of the Republic of Cyprus

The delegation of the Republic of Cyprus to the 26th Congress of the Universal Postal Union reiterates the declaration it made at previous UPU Congresses, and rejects unreservedly the declaration and reservation made by the Republic of Turkey on 20 September 2016 (Congress–Doc 34.Add 2) at the 26th Congress in Istanbul in connection with the participation, rights and status of the Republic of Cyprus as a member of the UPU.

The Turkish positions are totally inconsistent with the relevant provisions of international law and the specific provisions of the mandatory UN Security Council resolutions on Cyprus. It should be noted that, in its resolutions 541(1983) and 550(1984), inter alia, the UN Security Council condemned the purported secession of part of the Republic of Cyprus, regarded its "unilateral declaration of independence" as "legally invalid" and called for its withdrawal. It also called on all states not to recognize any Cypriot state other than the Republic of Cyprus and "not to facilitate or in any way assist the aforesaid secessionist entity". Lastly, it called on all states to respect the sovereignty, independence, territorial integrity and unity of the Republic of Cyprus.

The Republic of Cyprus has been a member state of the United Nations since its independence in 1960, and a member state of the European Union from 1 May 2004. It has also been a member of the Universal Postal Union since November 1961 and, in this capacity, participates in all of the organization's activities. The Government of the Republic of Cyprus is the internationally recognized government in Cyprus, with the competence and authority to represent the state, notwithstanding the de facto division of the island as a result of the 1974 Turkish invasion.

Since 1 May 2004, the Republic of Cyprus has been a full member of the European Union, underscoring the fact that there is only one state in Cyprus. In recognizing the problems caused by the occupation of part of its territory in implementing Community laws, Protocol 10 to the Act of Accession of the Republic of Cyprus to the European Union provides that implementation of the acquis communautaire shall be suspended in the area of the Republic of Cyprus over which its government exercises no effective control.
In view of the above, the declaration and reservation made by the Republic of Turkey contravene both the letter and spirit of the UPU Constitution, Convention and Agreements. The delegation of the Republic of Cyprus therefore considers any such declaration or reservation to be illegal and null and void, and reserves its rights accordingly.

(Congress–Doc 34.Add 4)

V

On behalf of New Zealand

New Zealand will apply the Acts and other decisions adopted by this Congress only insofar as they are consistent with its other international rights and obligations and, in particular, with the General Agreement on Trade in Services.

(Congress–Doc 34.Add 5)

VI

On behalf of the Argentine Republic

The Argentine Republic recalls the reservation it made upon ratifying the Constitution of the Universal Postal Union signed in Vienna, Austria, on 10 July 1964, and reaffirms its sovereignty over the Malvinas Islands, South Georgia and the South Sandwich Islands, and the surrounding maritime areas, as well as over the Argentine Antarctica sector.

It also recalls that, with regard to the question of the Malvinas Islands, the United Nations General Assembly has adopted resolutions 2065 (XX), 3160 (XXVIII), 31/49, 37/9, 38/12, 39/6, 40/21, 41/40, 42/19 and 43/25, recognizing the existence of a sovereignty dispute and calling upon the Governments of the Argentine Republic and the United Kingdom of Great Britain and Northern Ireland to resume negotiations in order to resolve this dispute.

The Argentine Republic emphasizes also that the United Nations Special Committee on Decolonization has repeatedly passed resolutions to the same effect, most recently through the resolution adopted on 23 June 2016, and that the General Assembly of the Organization of American States adopted a new resolution on the issue in similar terms on 15 June 2016.

The delegations of the Republic of Iceland, the Principality of Liechtenstein and the Kingdom of Norway declare that their countries will apply the Acts adopted by this Congress in accordance with obligations pursuant to the agreement establishing the European Economic Area and the General Agreement on Trade in Services (GATS) of the World Trade Organization.

(Congress–Doc 34.Add 7)
VIII

On behalf of the Republic of Indonesia

Indonesia consents to be bound by the Acts of the Union signed at the 26th UPU Congress (Istanbul, 2016) and:

– reserves the right for its Government to take any action and preservation measures it deems necessary to safeguard its national interests should any provision of the Convention, Final Protocol, or Postal Payment Services Agreement, as well as any decision of the 26th Congress of the UPU (Istanbul, 2016), directly or indirectly affect its sovereignty or be in contravention to the Constitution, laws and regulations of the Republic of Indonesia, as well as the existing rights acquired by the Republic of Indonesia as a party to other treaties and conventions, and any principles of international law;

– further reserves the right for its Government to take any action and preservation measures it deems necessary to safeguard its national interests should any member countries in any way fail to comply with the provisions of the Acts of the Union (Istanbul, 2016), or should the consequences of reservations by any member countries jeopardize its postal services or result in an unacceptable increase of its contributory share towards defraying expenses of the Union.

(Congress–Doc 34.Add 8)

IX

On behalf of Australia

Australia will apply the Acts and other decisions adopted by this Congress only insofar as they are consistent with its other international rights and obligations and, in particular, with the World Trade Organization’s General Agreement on Trade in Services.

(Congress–Doc 34.Add 9)

X

On behalf of the Oriental Republic of Uruguay

On the occasion of the signing of the Final Acts of the 26th Universal Postal Congress (Istanbul, 2016), the delegation of the Oriental Republic of Uruguay declares that its Government reserves the right to:

– adopt the measures it deems necessary in order to protect its interests in cases in which other members of the Universal Postal Union fail to comply with the Final Acts, its annexes and its Protocols, or should the reservations made by other members jeopardize the proper functioning of its postal services or the fulfilment of its sovereign rights;

– formulate additional reservations to the Final Acts of the 26th Universal Postal Congress (Istanbul, 2016), in accordance with the 1969 Vienna Convention on the Law of Treaties, as necessary between the date of signature of the Final Acts and the ratification dates.

(Congress–Doc 34.Add 10)
XI

On behalf of the Republic of Austria, the Kingdom of Belgium, the Republic of Bulgaria, the Czech Republic, the Republic of Croatia, the Republic of Cyprus, the Kingdom of Denmark, the Republic of Estonia, the Republic of Finland, the French Republic, the Federal Republic of Germany, the Hellenic Republic, Hungary, the Republic of Ireland, the Italian Republic, the Republic of Latvia, the Grand Duchy of Luxembourg, the Kingdom of the Netherlands, the Republic of Poland, the Portuguese Republic, Romania, the Slovak Republic, the Republic of Slovenia, the Kingdom of Spain, the Kingdom of Sweden and the United Kingdom of Great Britain and Northern Ireland

"The delegations of the member countries of the European Union hereby declare that their countries will apply the Acts adopted by this Congress in accordance with their obligations pursuant to the Treaty on European Union, the Treaty on the functioning of the European Union and the General Agreement on Trade in Services (GATS) of the World Trade Organization".

(Congress–Doc 34.Add 11)

XII

On behalf of Canada

(Congress–Doc 34.Add 12)

XIII

On behalf of the Republic of Azerbaijan

The Republic of Azerbaijan is one of the fully authorized members of the Universal Postal Union and is entitled to deliver postal services on the internationally recognized territory of the country pursuant to the Universal Postal Convention and other international legal documents. However, 20 percent of the internationally recognized territory of Azerbaijan, including the Nagorno-Karabakh region and seven surrounding administrative regions, is under the occupation of Armenia and therefore facing obstacles with respect to the delivery of postal services.

Resolutions Nos 822 (30 April 1993), 853 (29 June 1993), 874 (14 October 1993) and 884 (12 November 1993) of the Security Council of the United Nations, as well as decisions and resolutions of other international organizations on the immediate, full and unconditional release of the occupied territories of Azerbaijan from Armenian invaders, have remained unfulfilled.

The occupation has resulted in extensive damage to the country's economy, including the postal sector. The working group established in order to assess the losses and damages incurred by the Republic of Azerbaijan is carrying out the evaluations.

It is impossible to comply with article 6 of the Universal Postal Convention concerning the circulation of postage stamps on the territories of the Republic of Azerbaijan occupied by the Republic of Armenia. The issue of postage stamps and illegal postal operations are still carried out on the territory of the so-called "Nagorno Karabakh Republic" by the illegal regime, in contravention of article 23 of the Constitution of the Universal Postal Union.

Considering the above, the Republic of Azerbaijan declares once again that, according to the relevant rules of the Universal Postal Union, the Government of the Republic of Azerbaijan is the only legitimate structure
entitled to issue and put into circulation postage stamps, as well as implement postal operations, on all territories of Azerbaijan recognized at international level, including on the occupied territories. No postal operations can be carried out on the occupied territories without the authorization of the Government of the Republic of Azerbaijan. These operations have no legal force and contravene the national legislation of the Azerbaijan Republic, as well as the international legal norms that exist in this field.

We regret to inform that it will be impossible to comply with the provisions of the Universal Postal Convention and its Final Protocol until the territories occupied by the Republic of Armenia are released and the consequences of the occupation are eliminated.

The Republic of Azerbaijan reserves the right not to apply the rights and obligations arising from the Universal Postal Convention and its Final Protocol in regard to the Republic of Armenia.

(Congress–Doc 34.Add 13)

XIV

On behalf of the Republic of South Africa

The delegation of the Republic of South Africa declares that South Africa will apply the Acts adopted by the 26th Congress of the Universal Postal Union in accordance with the Constitution and national legislation of the Republic of South Africa and pursuant to its obligations under other treaties, conventions and the principles of international law, subject to ratification of the Final Acts. South Africa reserves the right to make additional declarations, if necessary, upon ratification of the Acts of the Union.

The delegation of the Republic of South Africa reserves the right of its Government to take any action or measures it deems necessary to safeguard its national interests should any member in any way fail to comply with the Constitution, Convention or Acts of the Universal Postal Union, or should the consequences of reservations by any member negatively impact upon its postal services.

(Congress–Doc 34.Add 14)

XV

On behalf of Malaysia

The delegation of Malaysia declares that Malaysia will apply the Acts adopted by the 26th Congress of the Universal Postal Union in accordance with the Constitution and national legislation of Malaysia and pursuant to its obligations under other treaties, conventions and the principles of international law, subject to ratification of the Final Acts. Malaysia also reserves the right of its Government to make reservations, if necessary, upon ratification of the UPU Congress Acts.

The delegation of Malaysia reserves the right of its Government to take any action or measures it deems necessary to safeguard its national interests should any member in any way fail to comply with the Constitution, Convention or Acts of the Universal Postal Union, or should the consequences of reservations by any member negatively impact upon its postal services.

(Congress–Doc 34.Add 15)
XVI

On behalf of the Republic of Cuba

On the signing of the Final Acts of the Universal Postal Congress (Istanbul, 2016), the delegation of the Republic of Cuba declares that its Government reserves the right to adopt whatever measures or actions it deems necessary in accordance with its national legislation and international law, to protect or safeguard national interests if other members of the Universal Postal Union fail in any way to respect the Final Acts and its Regulations, or if the declarations or reservations made by other members compromise its sovereignty, security, rights or interests or the proper functioning of its national postal services.

(Congress–Doc 34.Add 16)

XVII

On behalf of the People’s Democratic Republic of Algeria

The delegation of the People’s Democratic Republic of Algeria declares that it reserves the right of its government to apply the Acts adopted by this Congress insofar as they are consistent with Algeria’s national legislation and regulations and with its foreign policy.

It also declares that the signature of said Acts shall not be considered a waiver by Algeria of any right that it holds or that it could hold by virtue of the conventions and treaties of which it is part.

The Algerian delegation also reserves the right of its government to make, where necessary, additional declarations regarding the ratification of the Acts of Congress of the UPU.

(Congress–Doc 34.Add 17)

XVIII

On behalf of the Republic of Armenia

Recently the international community has witnessed a significant upsurge of false propaganda and anti-Armenian campaigns conducted by the Azerbaijani authorities, presenting a distorted picture of the reasons and motives behind the Nagorno-Karabakh conflict and of the situation that has developed as a result on this territory. Armenia considers that such behaviour is unacceptable and hinders the international community’s efforts to promote mutual cooperation.

As the Universal Postal Congress is not the appropriate forum for discussing issues connected with the resolution of conflicts, the delegation of Armenia will limit itself to the following statement:

On 10 December 1991, the population of Nagorno-Karabakh declared the independence of the Nagorno-Karabakh Republic following a referendum, in full accordance with international law, as well as the letter and spirit of the laws of the Soviet Union at the time. Thus, Nagorno-Karabakh is a sovereign republic, in accordance with article RL 116 of the Letter Post Regulations.

Arbitrary interpretation of the UN Security Council resolutions and groundless accusations against the Republic of Armenia are common practice for the authorities of Azerbaijan, with the objective of covering up their serious crimes in the past. The authorities of Azerbaijan use every international forum to pursue their destructive policy instead of participating in the peaceful efforts of the international community. Unfortunately, the Universal Postal Congress was no exception.
The statements delivered on behalf of the Republic of Azerbaijan contain gross distortions and are purely for propaganda purposes, in addition to serving as a distraction from the work programme of the 26th UPU Congress.

Such statements are clear evidence of Azerbaijan's decades-long policy aimed at depriving the population of Nagorno-Karabakh of their fundamental human rights, including the right to communicate, which is the means for the realization of all other rights. As we know, the main international human rights instruments define many aspects of the right to communicate; this right is directly linked to freedom of expression, which is enshrined in all the major international instruments for the protection of human rights, such as the Universal Declaration of Human Rights, the International Covenant on Civil and Political Rights and many others.

Nagorno-Karabakh has never been part of independent Azerbaijan. Azerbaijan's references to article 23 of the Constitution and the attempts to present Nagorno-Karabakh as "an integral part of the territory of the Republic of Azerbaijan" are neither legally justified nor lawful.

The future status of Nagorno-Karabakh must be determined through peaceful negotiations in the framework of the Organization for Security and Cooperation in Europe (OSCE) Minsk Process, and on the basis of the fundamental principles of the OSCE. The fact that the Republic of Nagorno-Karabakh has still not been officially recognized by the international community cannot prevent its population from communicating freely, including through the postal service.

Azerbaijan's declaration runs contrary to the basic provisions of the Constitution and does not support the fundamental principles of the UPU.

As a member of the Universal Postal Union, Armenia bindingly declares that the postal operator of the Republic of Armenia serves as intermediary to the postal operator of the Republic of Nagorno-Karabakh pursuant to articles 3 and 4 of the UPU Convention and continues to fulfil its obligations arising from the above-mentioned articles.

Article 1
General provisions

1 The present Rules of Procedure (hereinafter referred to as "the Rules") have been drawn up pursuant to the Acts of the Union and are subordinate to them. In the event of a discrepancy between one of their provisions and a provision of the Acts, the latter shall prevail.

Article 2
Delegations

1 The term "delegation" shall denote the person or body of persons designated by a member country to take part in a Congress. The delegation shall consist of a Head of delegation and, if appropriate, his deputy, one or more delegates and, possibly, one or more attached officials (including experts, secretaries, etc.).

2 Heads of delegation, their deputies, and delegates shall be representatives of member countries within the meaning of article 14.2 of the Constitution if in possession of credentials which comply with the conditions laid down in article 3 of these Rules.

3 Attached officials shall be admitted to meetings, and shall have the right to participate in the proceedings, but they shall not normally have the right to vote. However, they may be authorized by the Head of their delegation to vote on behalf of their country at Committee meetings. Such authorizations shall be handed, in writing, to the Chairman of the Committee concerned, before the beginning of the meeting.

Article 3
Delegates’ credentials

1 Delegates’ credentials shall be signed by the Head of State, the Head of Government or the Minister for Foreign Affairs of the country concerned. They shall be drawn up in due and proper form. The credentials of delegates entitled to sign the Acts (plenipotentiaries) shall specify the scope of such signature (signature subject to ratification or approval, signature ad referendum, definitive signature). In the absence of such specific information, the signature shall be regarded as being subject to ratification or approval. Credentials authorizing the holder to sign the Acts shall implicitly include the right to speak and to vote. Delegates on whom the relevant authorities have conferred full powers without specifying their scope shall be authorized to speak, to vote and to sign the Acts unless the wording of the credentials is explicitly to the contrary. Credentials authorizing the holder to participate on behalf of the country concerned or represent the latter shall implicitly include the right to speak and to vote only.

2 Credentials shall be deposited at the opening of Congress with the authority designated for that purpose.

3 Delegates who are not in possession of credentials or who have not deposited their credentials may, provided their names have been communicated by their Government to the International Bureau, take part in the debates and vote from the moment they participate in the work of Congress. The same shall apply to those whose credentials are found to be not in order. Such delegates shall cease to be empowered to
vote from the time Congress approves the last report of the Credentials Committee establishing that their credentials have not been received or are not in order until such time as the position is regularized. The last report shall be approved by Congress before any elections other than that of the Chairman of Congress and before approval of the draft Acts.

4 The credentials of a member country which arranges for the delegation of another member country to represent it at Congress (proxy) shall be in the same form as those mentioned in paragraph 1.

5 Credentials and proxies sent by telegram shall not be admissible. However, telegrams sent in reply to requests for information relating to credentials shall be accepted.

6 A delegation which, after it has deposited its credentials, is prevented from attending one or more meetings, may arrange to be represented by the delegation of another member country, provided that notice in writing is given to the Chairman of the meeting concerned. However, a delegation may represent only a single country other than its own.

7 The delegates of member countries which are not parties to an Agreement may take part in the debates of Congress concerning that Agreement, without the right to vote.

Article 4
Order of seating

1 At Congress and Committee meetings, delegations shall be seated in the French alphabetical order of the member countries represented.

2 The Chairman of the Council of Administration shall draw lots, in due course, for the name of the country to be placed foremost before the rostrum at Congress and Committee meetings.

Article 5
Observers and ad hoc observers

1 The observers referred to in article 105.1 of the General Regulations shall be invited to participate in the plenary sessions and Committee meetings of Congress.

2 The ad hoc observers referred to in article 105.2 of the General Regulations may be invited to attend specific meetings of Congress and its committees when it is in the interest of the Union or the work of Congress.

3 The observers and ad hoc observers shall not be entitled to vote, but may take the floor with the permission of the Chairman of the meeting.

4 In exceptional circumstances, the right of observers and ad hoc observers to participate in certain meetings, or parts of meetings, may be restricted if the confidentiality of the subject dealt with so requires. They shall be so informed as quickly as possible. This restriction may be decided on a case-by-case basis by any body concerned or its Chairman. Such decisions shall be reviewed by the Bureau of Congress, which shall have the authority to confirm or reverse such decisions by a simple majority vote.

Article 6
Chairmanships and vice-chairmanships of Congress and Committees

1 At its first plenary meeting, Congress shall elect, on the proposal of the host member country of the Congress, the Chairman of Congress and then approve, on the proposal of the Council of Administration, the appointment of the member countries which are to assume the vice-chairmanships of Congress and the
chairmanships and vice-chairmanships of the Committees. These posts will be assigned taking as much account as possible of the equitable geographical distribution of the member countries.

2. The Chairmen shall open and close the meetings over which they preside, direct the debates, give speakers the floor, put proposals to the vote and announce what majority is required for their adoption, announce decisions and, subject to the approval of Congress, interpret such decisions if necessary.

3. The Chairmen shall see that the present Rules are observed and that order is maintained at meetings.

4. Any delegation may appeal to Congress or the Committee against a decision taken by the Chairman on the basis of a provision or interpretation of the Rules. The Chairman's decision shall nevertheless hold good unless rescinded by a majority of the members present and voting.

5. Should the member country appointed to the chairmanship be no longer able to exercise this function, one of the Vice-Chairmen shall be appointed by Congress or the Committee to replace it.

Article 7
Bureau of Congress

1. The Bureau shall be the central body responsible for directing the work of Congress. It shall consist of the Chairman and Vice-Chairmen of Congress and the Chairmen of the Committees. It shall meet periodically to review the progress of the work of Congress and its Committees and to make recommendations designed to facilitate such progress. It shall assist the Chairman in drawing up the agenda of each plenary meeting and in coordinating the work of the Committees. It shall make recommendations relating to the closing of Congress.

2. The Secretary General of Congress and the Assistant Secretary General, mentioned in article 10.1, shall attend the meetings of the Bureau.

Article 8
Membership of Committees

1. The member countries represented in Congress shall, as of right, be members of the Committees responsible for studying proposals relating to the Constitution, the General Regulations and the Convention.

2. Member countries represented in Congress which are parties to one or more of the optional Agreements shall, as of right, be members of the Committee and/or Committees responsible for the revision of these Agreements. The right to vote of members of the Committee or Committees shall be confined to the Agreement or Agreements to which they are parties.

3. Delegations which are not members of Committees dealing with the Agreements may attend meetings of those Committees and take part in the debates without the right to vote.

Article 9
Working parties

1. Congress and each Committee may set up working parties to study special questions.
Article 10
Secretariat of Congress and of Committees

1. The Director General and the Deputy Director General of the International Bureau shall act as Secretary General and Assistant Secretary General of Congress, respectively.

2. The Secretary General and the Assistant Secretary General shall attend the meetings of Congress and of the Bureau of Congress and take part in the debates without the right to vote. They may also attend, under the same conditions, Committee meetings or be represented thereat by a senior official of the International Bureau.

3. The work of the Secretariat of Congress, the Bureau of Congress and the Committees shall be performed by the staff of the International Bureau in conjunction with the host member country.

4. Senior officials of the International Bureau shall act as Secretaries of Congress, of the Bureau of Congress and of the Committees. They shall assist the Chairman during meetings and shall be responsible for writing the reports.

5. The Secretaries of Congress and of the Committees shall be assisted by Assistant Secretaries.

Article 11
Languages of debates

1. Subject to paragraph 2, French, English, Spanish and Russian may be used for debates, by means of a system of simultaneous or consecutive interpretation.

2. The debates of the Drafting Committee shall be held in French.

3. Other languages may also be used for the debates mentioned in paragraph 1. The language of the host country shall have priority in this connection. Delegations using other languages shall arrange for simultaneous interpretation into one of the languages mentioned in paragraph 1, either by means of the simultaneous interpretation system, when the necessary technical alterations can be made, or by special interpreters.

4. The cost of installing and maintaining the technical equipment shall be borne by the Union.

5. The cost of the interpretation services shall be divided among the member countries using the same language in proportion to their contributions to the expenses of the Union.

Article 12
Languages used for drafting Congress documents

1. Documents prepared during Congress including draft decisions submitted to Congress for approval shall be published in French by the Secretariat of Congress.

2. To this end, documents produced by delegations of member countries shall be submitted in French, either direct or through the intermediary of the translation services attached to the Congress Secretariat.

3. The above services, organized at their own expense by the language groups set up in accordance with the relevant provisions of the General Regulations, may also translate Congress documents into their respective languages.
Article 13
Proposals

1 All questions brought before Congress shall be the subject of proposals.

2 All proposals published by the International Bureau before Congress shall be regarded as being submitted to Congress.

3 Two months before Congress opens, no proposal shall be considered except those amending earlier proposals.

4 In the specific case of proposals from the Council of Administration or Postal Operations Council, amendments shall be received by the International Bureau at least two months before the opening of Congress. Beyond this point, member countries may present their amendments at sessions.

5 The following shall be regarded as amendments: any proposal which, without altering the substance of the original proposal, involves a deletion from, addition to or revision of a part of the original proposal. No proposed change shall be regarded as an amendment if it is inconsistent with the meaning or intent of the original proposal. In case of doubt, Congress or the Committee shall decide the matter.

6 Amendments submitted at Congress to proposals already made shall be handed in to the Secretariat in writing, in French, before noon on the day but one before the day on which they will be discussed, so that they can be distributed to delegates the same day. This time limit shall not apply to amendments arising directly from the debates in Congress or in a Committee. In the latter case, if so requested, the author of the amendment shall submit a written version in French, or in case of difficulty, in any other language used for debates. The Chairman concerned shall read it out or have it read out.

7 The procedure laid down in paragraph 5 shall also apply to the submission of proposals that are not designed to amend the text of the Acts (draft resolutions, draft recommendations, draft formal opinions, etc.) where these proposals result from the work of Congress.

8 Any proposal or amendment shall give the final form of the text which is to be inserted in the Acts of the Union, subject, of course to revision by the Drafting Committee.

Article 14
Consideration of proposals in Congress and in Committees

1 Drafting proposals (the number of which shall be followed by the letter R) shall be assigned to the Drafting Committee either direct, if the International Bureau has no doubt as to their nature (a list of such proposals shall be drawn up for the Drafting Committee by the International Bureau), or, if the International Bureau is in doubt as to their nature, after the other Committees have confirmed that they are purely of a drafting nature (a list of such proposals shall likewise be drawn up for the Committees concerned). If, however, such proposals are linked with other proposals of substance to be considered by Congress or by other Committees, the Drafting Committee shall postpone consideration of them until after Congress or the other Committees have taken a decision on the corresponding proposals of substance. Proposals whose numbers are not followed by the letter R but which, in the opinion of the International Bureau, are of a drafting nature, shall be referred direct to the Committees concerned with the corresponding proposals of substance. When these Committees begin work, they shall decide which of the proposals shall be assigned direct to the Drafting Committee. A list of these proposals shall be drawn up by the International Bureau for the Committees concerned.

2 If the same question is the subject of several proposals, the Chairman shall decide the order in which they are to be discussed, starting as a rule with the proposal which departs most from the basic text and entails the most significant change in relation to the status quo.
3. If a proposal can be subdivided into several parts, each part may, if the originator of the proposal or the assembly so agrees, be considered and voted upon separately.

4. Any proposal withdrawn in Congress or in Committee by its originator may be resubmitted by the delegation of another member country. Similarly, if an amendment to a proposal is accepted by the originator of the proposal, another delegation may resubmit the original, unamended proposal.

5. Any amendment to a proposal which is accepted by the delegation submitting the proposal shall be immediately included in the text thereof. If the originator of the original proposal does not accept an amendment, the Chairman shall decide whether the amendment or the proposal shall be voted upon first, starting with whichever departs furthest from the meaning or intent of the basic text and entails the most significant change in relation to the status quo.

6. The procedure described in paragraph 5 shall also apply where more than one amendment to a proposal is submitted.

7. The Chairman of Congress and the Chairmen of Committees shall arrange for the text of the proposals, amendments or decisions adopted to be passed to the Drafting Committee, in writing, after each meeting.

Article 15
Debates

1. Delegates may not take the floor until they have been given permission to do so by the Chairman of the meeting. They shall be urged to speak slowly and distinctly. The Chairman shall afford delegates the possibility of freely and fully expressing their views on the subject discussed, so long as that is compatible with the normal course of the debate.

2. Unless a majority of the members present and voting decides otherwise, speeches shall not exceed five minutes. The Chairman shall be authorized to interrupt any speaker who exceeds the said authorized time. He may also ask the delegate not to depart from the subject.

3. During a debate, the Chairman may, with the agreement of the majority of the members present and voting, declare the list of speakers closed after reading it out. When the list is exhausted, he shall declare the debate closed, although even after the closing of the list he may grant the originator of the proposal under discussion the right to reply to any of the speeches delivered.

4. The Chairman may also, with the agreement of the majority of the members present and voting, limit the number of speeches by any one delegation on a proposal or a certain group of proposals; but the originator of the proposal shall be given the opportunity of introducing it and speaking subsequently if he asks to do so in order to make new points in reply to the speeches of other delegations, so that he may, if he wishes, be the last speaker.

5. With the agreement of the majority of the members present and voting, the Chairman may limit the number of speeches on a proposal or a certain group of proposals; but this limit may not be less than five for and five against the proposal under discussion.

Article 16
Motions on points of order and procedural motions

1. During the discussion of any question and even, where appropriate, after the closure of the debate, a delegation may submit a motion on a point of order for the purpose of requesting:

1.1 clarification on the conduct of the debates;

1.2 observance of the Rules of Procedure;
1.3 a change in the order of discussion of proposals suggested by the Chairman.

The motion on a point of order shall take precedence over all questions, including the procedural motions set forth in paragraph 3.

2 The Chairman shall immediately give the desired clarifications or take the decision which he considers advisable on the subject of the motion on a point of order. In the event of an objection, the Chairman’s decision shall be put to the vote forthwith.

3 In addition, during discussion of a question, a delegation may introduce a procedural motion with a view to proposing:

3.1 the suspension of the meeting;
3.2 the closure of the meeting;
3.3 the adjournment of the debate on the question under discussion;
3.4 the closure of the debate on the question under discussion.

Procedural motions shall take precedence, in the order set out above, over all other proposals except the motions on points of order referred to in paragraph 1.

4 Motions for the suspension or closure of the meeting shall not be discussed, but shall be put to the vote immediately.

5 When a delegation proposes adjournment or closure of the debate on a question under discussion, only two speakers against the adjournment or the closure of the debate may speak, after which the motion shall be put to the vote.

6 The delegation which submits a motion on a point of order or a procedural motion may not, in its submission, deal with the substance of the question under discussion. The proposer of a procedural motion may withdraw it before it has been put to the vote, and any motion of this kind, whether amended or not, which is withdrawn may be reintroduced by another delegation.

Article 17
Quorum

1 Subject to paragraphs 2 and 3, the quorum necessary for the opening of the meetings and for voting shall be half the member countries represented in Congress and having the right to vote.

2 For votes on amending the Constitution and the General Regulations, the quorum required shall be two thirds of the Union member countries having the right to vote.

3 In the case of the Agreements, the quorum required for the opening of the meetings and for voting shall be half the member countries represented at Congress which are parties to the Agreement concerned and have the right to vote.

4 Delegations which are present but do not take part in a given vote, or which state that they do not wish to take part therein, shall not be considered absent for the purpose of establishing the quorums required under paragraphs 1, 2 and 3.

Article 18
Voting principle and procedure

1 Questions which cannot be settled by common consent shall be decided by vote.
Votes shall be taken by the traditional system or by the electronic voting system. They shall normally be taken by the electronic system when that system is available to the assembly. However, in the case of a secret ballot, the traditional system may be used if one delegation, supported by a majority of the delegations present and voting, so requests.

For the traditional system, the methods of voting shall be as follows:

- by show of hands. If there is doubt about the result of such a vote, the Chairman, if he so wishes or if a delegation so requests, may arrange for an immediate roll-call vote on the same question;
- by roll-call, at the request of a delegation or if so decided by the Chairman; the roll shall be called according to the French alphabetical order of the countries represented, beginning with the country whose name is drawn by lot by the Chairman; the result of the vote, together with a list of the countries grouped according to the way they voted, shall be included in the report of the meeting;
- by secret ballot, using ballot papers, if requested by two delegations; in this case, the Chairman of the meeting shall appoint three tellers, having regard to equitable geographical representation and the level of economic development of the member countries, and make the necessary arrangements for the holding of a secret ballot.

For the electronic system, the methods of voting shall be as follows:

- non-recorded vote: it replaces a vote by show of hands;
- recorded vote: it replaces a roll-call vote; however, the names of the countries shall not be called unless one delegation, supported by a majority of the delegations present and voting, so requests;
- secret ballot: it replaces the secret ballot by ballot papers.

Regardless of the system of voting used, the secret ballot shall take precedence over any other voting procedure.

Once the voting has begun, no delegation may interrupt it, except to raise a point of order relating to the way in which the vote is being taken.

After the vote, the Chairman may permit delegates to explain why they voted as they did.

Article 19
Conditions of approval of proposals

To be adopted, proposals involving amendments to the Acts must:

- in the case of the Constitution, be approved by at least two thirds of the member countries of the Union having the right to vote;
- in the case of the General Regulations, be approved by a majority of the member countries represented in Congress and having the right to vote;
- in the case of the Convention, be approved by a majority of the member countries present and voting which have the right to vote;
- in the case of the Agreements, be approved by a majority of the member countries present and voting which are parties to the Agreements and have the right to vote.

Procedural matters which cannot be settled by common consent shall be decided by a majority of the member countries present and voting which have the right to vote. The same shall apply to decisions not concerning changes in the Acts, unless Congress decides otherwise by a majority of the member countries present and voting which have the right to vote.

Subject to paragraph 5, "member countries present and voting" shall mean member countries which have the right to vote voting "for" or "against", abstentions being disregarded in counting the votes.
required to constitute a majority, and similarly blank or null and void ballot papers in the case of a secret ballot.

4 In the event of a tie, a proposal shall be regarded as rejected.

5 When the number of abstentions and blank or null and void ballot papers exceeds half the number of votes cast (for, against and abstentions), consideration of the matter shall be deferred until a subsequent meeting, at which abstentions and blank or null and void ballot papers shall be disregarded.

Article 20
Election of the members of the Council of Administration or the Postal Operations Council

1 In order to decide between countries which have obtained the same number of votes in elections of members of the Council of Administration or the Postal Operations Council, the Chairman shall draw lots.

Article 21
Election of the Director General and the Deputy Director General of the International Bureau

1 The elections of the Director General of the International Bureau and of the Deputy Director General shall take place by secret ballot successively at one or more meetings held on the same day. The candidate who obtains a majority of the votes cast by the member countries present and voting shall be elected. As many ballots shall be held as are necessary for a candidate to obtain this majority.

2 "Member countries present and voting" shall mean member countries voting for one of the candidates whose applications have been announced in due and proper form, abstentions and blank or null and void ballot papers being ignored in counting the votes required to constitute a majority.

3 If the number of abstentions and blank or null and void ballot papers exceeds half the number of votes cast in accordance with paragraph 2, the election shall be deferred to a later meeting, at which abstentions and blank or null and void ballot papers shall no longer be taken into account.

4 The candidate who obtains the least number of votes in any one ballot shall be eliminated.

5 In the event of a tie, an additional ballot, and if necessary a second additional ballot, shall be held in an attempt to decide between the tying candidates, the vote relating only to these candidates. If the result is inconclusive, the election shall be decided by drawing lots. The lots shall be drawn by the Chairman.

6 The candidates for Director General and Deputy Director General of the International Bureau may, at their request, be represented at the counting of the votes.

Article 22
Reports

1 The reports of the plenary meetings of Congress shall record the course of the meetings, briefly summarize speeches, and mention proposals and the outcome of the debates.

2 The debates of Committee meetings shall be the subject of reports to Congress. As a general rule, Working Parties shall prepare a report for the body that set them up.

3 Each delegate, however, shall be entitled to ask for any statement made by him to be included in the reports either verbatim or in summary form, provided the French or English text is handed to the Secretariat not later than two hours after the end of the meeting.
4 Delegates shall be allowed a period of twenty-four hours, from the moment when the draft reports are distributed, in which to make their comments to the Secretariat, which, if necessary, shall act as an intermediary between the party concerned and the Chairman of the meeting in question.

5 As a general rule and subject to the provisions of paragraph 4, at the beginning of each meeting of Congress, the Chairman shall submit the report of a previous meeting for approval. The same shall apply in regard to Committee reports. The reports of the last meetings which it has not been possible to approve in Congress or in a Committee shall be approved by the respective Chairmen of the meetings. The International Bureau shall also take account of any comments received from delegates of member countries within forty days of the dispatch of the reports to them.

6 The International Bureau shall be authorized to correct in the reports of meetings of Congress and Committees any clerical errors which were not brought to light when the minutes were approved in accordance with paragraph 5.

Article 23
Appeal against decisions taken by the Committees and by Congress

1 Any delegation may appeal against a decision concerning proposals (Acts, resolutions, etc.) which have been approved or rejected in Committee. Notice of the appeal must be given to the Chairman of Congress, in writing, within 48 hours from the adjournment of the Committee meeting at which the proposal was approved or rejected. The appeal shall be considered during the next plenary meeting.

2 When a proposal has been adopted or rejected by Congress, it can be reconsidered by the same Congress only if the appeal has been supported by at least 10 delegations. Such an appeal must be approved by a two-thirds majority of the members present and voting which have the right to vote. This possibility shall be limited to proposals submitted direct to plenary meetings, it being understood that a single question cannot give rise to more than one appeal.

Article 24
Approval by Congress of draft decisions (Acts, resolutions, etc.)

1 As a general rule, each draft Act submitted by the Drafting Committee shall be studied article by article. The Chairman may, with the agreement of the majority, use a faster procedure, for instance chapter by chapter. Each Act can only be regarded as adopted after an overall favourable vote. Article 19.1, shall apply to such a vote.

2 The International Bureau shall be authorized to correct in the final Acts any clerical errors which have not come to light during the study of the draft Acts, the numbering of articles and paragraphs and references.

3 The drafts of decisions other than those amending the Acts, submitted by the Drafting Committee, shall as a general rule be considered en bloc. The provisions of paragraph 2 shall also apply to the drafts of these decisions.

Article 25
Assignment of studies to the Council of Administration and the Postal Operations Council

1 On the recommendation of its Bureau, Congress shall assign studies to the Council of Administration and the Postal Operations Council, in accordance with the respective compositions and responsibilities of these two bodies as they are set forth in articles 106, 107, 112 and 113 of the General Regulations.
Article 26
Reservations to Acts

1 Reservations must be submitted in the form of a proposal to the Secretariat in writing in one of the working languages of the International Bureau (proposals concerning the Final Protocol) as soon as possible after adoption of the proposal concerning the article to which the reservation refers.

2 To enable it to distribute proposals concerning reservations to all member countries before adoption of the Final Protocol by Congress, the Congress Secretariat shall set a deadline for the submission of reservations and notify member countries of it.

3 Reservations to the Acts of the Union submitted after the deadline set by the Secretariat shall not be considered by the Secretariat or by Congress.

Article 27
Signature of Acts

1 Acts finally approved by Congress shall be submitted to the plenipotentiaries for signature.

Article 28
Amendment of the Rules

1 Each Congress may amend the Rules of Procedure. In order to be accepted for discussion, proposals to amend the present Rules, unless submitted by a UPU body empowered to put forward proposals, shall be supported in Congress by at least 10 delegations.

2 To be adopted, proposals for amendments to the present Rules must be approved by at least two thirds of the member countries represented in Congress and having the right to vote.

**Article 2**

**Designation of the entity or entities responsible for fulfilling the obligations arising from adherence to the Convention**

1 Member countries shall notify the International Bureau, within six months of the end of Congress, of the name and address of the governmental body responsible for overseeing postal affairs. Within six months of the end of Congress, member countries shall also provide the International Bureau with the name and address of the operator or operators officially designated to operate postal services and to fulfil the obligations arising from the Acts of the Union on their territory. Between Congresses, any changes with regard to the officially designated operators shall also be notified to the International Bureau as soon as possible, and preferably at least three months prior to the entry into force of the change.

2 When a member country officially designates a new operator, it shall indicate the scope of the postal services that the latter will provide under the Acts of the Union, as well as the operator’s geographical coverage on its territory.

**Article 3**

**Universal postal service**

1 In order to support the concept of the single postal territory of the Union, member countries shall ensure that all users/customers enjoy the right to a universal postal service involving the permanent provision of quality basic postal services at all points in their territory, at affordable prices.

2 With this aim in view, member countries shall set forth, within the framework of their national postal legislation or by other customary means, the scope of the postal services offered and the requirement for quality and affordable prices, taking into account both the needs of the population and their national conditions.
3 Member countries shall ensure that the offers of postal services and quality standards will be achieved by the operators responsible for providing the universal postal service.

4 Member countries shall ensure that the universal postal service is provided on a viable basis, thus guaranteeing its sustainability.

Article 4 Freedom of transit

1 The principle of the freedom of transit is set forth in article 1 of the Constitution. It shall carry with it the obligation for each member country to ensure that its designated operators forward, always by the quickest routes and the most secure means which they use for their own items, closed mails and à découvert letter-post items which are passed to them by another designated operator. This principle shall also apply to missent items and misrouted mails.

2 Member countries which do not participate in the exchange of postal items containing infectious substances or radioactive substances shall have the option of not admitting these items in transit à découvert through their territory. The same shall also apply to printed papers, periodicals, magazines, small packets and M bags the content of which does not satisfy the legal requirements governing the conditions of their publication or circulation in the country crossed.

3 Freedom of transit for parcels shall be guaranteed throughout the territory of the Union.

4 If a member country fails to observe the provisions regarding freedom of transit, other member countries may discontinue their provision of postal services with that member country.

1 A postal item shall remain the property of the sender until it is delivered to the rightful owner, except when the item has been seized in pursuance of the national legislation of the country of origin or destination and, in case of application of article 19.2.1.1 or 19.3, in accordance with the national legislation of the country of transit.

2 The sender of a postal item may have it withdrawn from the post or have its address and/or the name of the addressee (name of the legal person, or family name, given name or patronymic (if any)) altered or corrected. The charges and other conditions are laid down in the Regulations.

3 Member countries shall ensure that their designated operators redirect postal items if an addressee has changed his address, and return undeliverable items to the sender. The charges and other conditions are laid down in the Regulations.

Article 6 Postage stamps

1 The term "postage stamp" shall be protected under the present Convention and shall be reserved exclusively for stamps which comply with the conditions of this article and of the Regulations.

2 Postage stamps:

2.1 shall be issued and put into circulation solely under the authority of the member country or territory, in conformity with the Acts of the Union;

The International Bureau shall inform the other member countries and their designated operators accordingly.

Article 7
Sustainable development
1 Member countries and/or their designated operators shall adopt and implement a proactive sustainable development strategy focusing on environmental, social and economic action at all levels of postal operations and promote sustainable development awareness.

¹ An exception shall be granted to the United Kingdom of Great Britain and Northern Ireland, the country which invented the postage stamp.
Article 8
Postal security

1 Member countries and their designated operators shall observe the security requirements defined in the UPU security standards and shall adopt and implement a proactive security strategy at all levels of postal operations to maintain and enhance the confidence of the general public in the postal services provided by designated operators, in the interests of all officials involved. This strategy shall include the objectives defined in the Regulations, as well as the principle of complying with requirements for providing electronic advance data on postal items identified in implementing provisions (including the type of, and criteria for, postal items) adopted by the Council of Administration and Postal Operations Council, in accordance with UPU technical messaging standards. The strategy shall also include the exchange of information on maintaining the safe and secure transport and transit of mails between member countries and their designated operators.

2 Any security measures applied in the international postal transport chain must be commensurate with the risks or threats that they seek to address, and must be implemented without hampering worldwide mail flows or trade by taking into consideration the specificities of the mail network. Security measures that have a potential global impact on postal operations must be implemented in an internationally coordinated and balanced manner, with the involvement of the relevant stakeholders.

2.2.4 any attempt to commit any of these violations.

3 Reciprocity

3.1 As regards sanctions, no distinction shall be made between the acts outlined in 2, irrespective of whether national or foreign means of postal prepayment are involved; this provision shall not be subject to any legal or conventional condition of reciprocity.

Article 10
Processing of personal data

1 Personal data on users may be employed only for the purposes for which they were gathered in accordance with applicable national legislation.

2 Personal data on users shall be disclosed only to third parties authorized by applicable national legislation to access them.

3 Member countries and their designated operators shall ensure the confidentiality and security of personal data on users, in accordance with their national legislation.

4 Designated operators shall inform their customers of the use that is made of their personal data, and of the purpose for which they have been gathered.

5 Without prejudice to the foregoing, designated operators may transfer electronically personal data to the designated operators of destination or transit countries that need these data in order to fulfil the service.

Article 11
Exchange of closed mails with military units

1 Closed letter-post mails may be exchanged through the intermediary of the land, sea or air services of other countries:

1.1 between the post offices of any member country and the commanding officers of military units placed at the disposal of the United Nations;

1.2 between the commanding officers of such military units;

1.3 between the post offices of any member country and the commanding officers of naval, air or army units, warships or military aircraft of the same country stationed abroad;

1.4 between the commanding officers of naval, air or army units, warships or military aircraft of the same country.

2 Letter-post items enclosed in the mails referred to under 1 shall be confined to items addressed to or sent by members of military units or the officers and crews of the ships or aircraft to or from which the mails are forwarded. The rates and conditions of dispatch applicable to them shall be fixed, according to its regulations, by the designated operator of the member country which has made the military unit available or to which the ships or aircraft belong.

3 In the absence of special agreement, the designated operator of the member country which has made the military unit available or to which the warships or military aircraft belong shall be liable to the designated operators concerned for the transit charges for the mails, the terminal dues and the air conveyance dues.
Article 12
Posting abroad of letter-post items

1 A designated operator shall not be bound to forward or deliver to the addressee letter-post items which senders residing in the territory of its member country post or cause to be posted in a foreign country with the object of profiting by the more favourable rate conditions there.

2 The provisions set out under 1 shall be applied without distinction both to letter-post items made up in the sender's country of residence and then carried across the frontier and to letter-post items made up in a foreign country.

3 The designated operator of destination may claim from the designated operator of posting, payment of the internal rates. If the designated operator of posting does not agree to pay these rates within a time limit set by the designated operator of destination, the latter may either return the items to the designated operator of posting and shall be entitled to claim reimbursement of the redirection costs, or handle them in accordance with its national legislation.

4 A designated operator shall not be bound to forward or deliver to the addressees letter-post items which senders post or cause to be posted in large quantities in a country other than the country where they reside if the amount of terminal dues to be received is lower than the sum that would have been received if the mail had been posted in the country where the senders reside. The designated operator of destination may claim from the designated operator of posting payment commensurate with the costs incurred and which may not exceed the higher of the following two amounts: either 80% of the domestic tariff for equivalent items, or the rates applicable pursuant to articles 29.5 to 29.11, 29.12 to 29.15, or 30.9, as appropriate. If the designated operator of posting does not agree to pay the amount claimed within a time limit set by the designated operator of destination, the designated operator of destination may either return the items to the designated operator of posting and shall be entitled to claim reimbursement of the redirection costs, or handle them in accordance with its national legislation.

Article 13
Use of UPU forms

1 Unless otherwise provided by the Acts of the Union, only designated operators shall use UPU forms and documentation for the operation of postal services and exchange of postal items in accordance with the Acts of the Union.

2 Designated operators may use UPU forms and documentation for the operation of extraterritorial offices of exchange (ETOEs), as well as international mail processing centres (IMPCs) established by designated operators outside their respective national territory, as further defined in paragraph 6, in order to facilitate the operation of the aforementioned postal services and exchange of postal items.

3 The exercise of the possibility outlined in paragraph 2 shall be subject to the national legislation or policy of the member country or territory in which the ETOE or IMPC is established. In this regard, and without prejudice to the designation obligations contained in article 2, designated operators shall guarantee the continued fulfilment of their obligations under the Convention and be fully responsible for all their relations with other designated operators and with the International Bureau.

4 The requirement set forth in paragraph 3 shall equally apply to the destination member country for the acceptance of postal items from such ETOEs and IMPCs.

5 Member countries shall inform the International Bureau on their policies with regard to postal items transmitted and/or received from ETOEs or IMPCs. Such information shall be made available on the Union's website.

6 Strictly for the purposes of this article, ETOEs shall be defined as offices or facilities established for commercial purposes and operated by designated operators or under the responsibility of
designated operators on the territory of a member country or territory other than their own, with the objective of drawing business in markets outside their respective national territory. IMPCs shall be defined as international mail processing facilities for the processing of international mail exchanged either in order to generate or receive mail dispatches, or to act as transit centres for international mail exchanged between other designated operators.

7 Nothing in this article shall be construed to imply that ETOEs or IMPCs (including the designated operators responsible for their establishment and operation outside their respective national territory) are in the same situation under the Acts of the Union as designated operators of the host country, nor impose a legal obligation on other member countries to recognize such ETOEs or IMPCs as designated operators on the territory where they are established and operated.

Section II
Quality of service standards and targets

Article 14
Quality of service standards and targets

1 Member countries or their designated operators shall establish and publish delivery standards and targets for their inward letter-post items and parcels.

2 These standards and targets, increased by the time normally required for customs clearance, shall be no less favourable than those applied to comparable items in their domestic service.

3 Member countries or their designated operators of origin shall also establish and publish end-to-end standards for priority and airmail letter-post items as well as for parcels and economy/surface parcels.

4 Member countries or their designated operators shall measure the application of quality of service standards.

Section III

Article 15

They shall in principle be related to the costs of providing these services.

2 The member country of origin or its designated operator, depending on national legislation, shall fix the postage charges for the conveyance of letter- and parcel-post items. The postage charges shall cover delivery of the items to the place of address provided that this delivery service is operated in the country of destination for the items in question.

3 The charges collected, including those laid down for guideline purposes in the Acts, shall be at least equal to those collected on internal service items presenting the same characteristics (category, quantity, handling time, etc.).

4 Member countries or their designated operators, depending on national legislation, shall be authorized to exceed any guideline charges appearing in the Acts.
Convention

5 Above the minimum level of charges laid down in 3, member countries or their designated operators may allow reduced charges based on their national legislation for letter-post items and parcels posted in the territory of the member country. They may, for instance, give preferential rates to major users of the Post.

6 No postal charge of any kind may be collected from customers other than those provided for in the Acts.

7 Except where otherwise provided in the Acts, each designated operator shall retain the charges which it has collected.

Article 16
Exemption from postal charges

1 Principle

1.1 Cases of exemption from postal charges, as meaning exemption from postal prepayment, shall be expressly laid down by the Convention. Nonetheless, the Regulations may provide for exemption from postal prepayment, transit charges, terminal dues and inward rates for letter-post items and postal parcels sent by member countries, designated operators and Restricted Unions and relating to the postal services. Furthermore, letter-post items and postal parcels sent by the UPU International Bureau to Restricted Unions, member countries and designated operators shall be exempted from all postal charges. However, the member country of origin or its designated operator shall have the option of collecting air surcharges on the latter items.

2 Prisoners of war and civilian internees

2.1 Letter-post items, postal parcels and postal payment services items addressed to or sent by prisoners of war, either direct or through the offices mentioned in the Regulations of the Convention and of the Postal Payment Services Agreement, shall be exempt from all postal charges, with the exception of air surcharges. Belligerents apprehended and interned in a neutral country shall be classed with prisoners of war proper so far as the application of the foregoing provisions is concerned.

2.3 The offices mentioned in the Regulations of the Convention and of the Postal Payment Services Agreement shall also enjoy exemption from postal charges in respect of letter-post items, postal parcels and postal payment services items which concern the persons referred to under 2.1 and 2.2, which they send or receive, either direct or as intermediaries.

2.4 Parcels shall be admitted free of postage up to a weight of 5 kilogrammes. The weight limit shall be increased to 10 kilogrammes in the case of parcels the contents of which cannot be split up and of parcels addressed to a camp or the prisoners’ representatives there (“hommes de confiance”) for distribution to the prisoners.

2.5 In the accounting between designated operators, rates shall not be allocated for service parcels and for prisoner-of-war and civilian internee parcels, apart from the air conveyance dues applicable to air parcels.

3 Items for the blind

3.1 Any item for the blind sent to or by an organization for the blind or sent to or by a blind person shall be exempt from all postal charges, with the exception of air surcharges, to the extent that these items are admissible as such in the internal service of the sending designated operator.

3.2 In this article:
3.2.1 a blind person means a person who is registered as blind or partially sighted in his or her country or
who meets the World Health Organization's definition of a blind person or a person with low vision;
3.2.2 an organization for the blind means an institution or association serving or officially representing

4 Designated operators shall be authorized to collect from the senders or addressees of items, as the case may be, the customs duty and all other fees which may be due.

Section VI
Liability

Article 21

1 Each designated operator shall be bound to accept inquiries relating to parcels or registered or insured items posted in its own service or that of any other designated operator, provided that the inquiries are presented by customers within a period of six months from the day after that on which the item was posted. The transmission and processing of inquiries between designated operators shall be made under the conditions laid down in the Regulations. The period of six months shall concern relations between claimants and designated operators and shall not include the transmission of inquiries between designated operators.

2 Inquiries shall be free of charge. However, additional costs caused by a request for transmission by EMS shall, in principle, be borne by the person making the request.

Article 22
Liability of designated operators. Indemnities

1 General

1.1 Except for the cases provided for in article 23, designated operators shall be liable for:

1.1.1 the loss of, theft from or damage to registered items, ordinary parcels (with the exception of parcels in the e-commerce delivery category ("ECOMPRO parcels"), whose specifications are further defined in the Regulations) and insured items;

1.1.2 the return of registered items, insured items and ordinary parcels on which the reason for non-delivery is not given.

1.2 Designated operators shall not be liable for items other than those mentioned in 1.1.1 and 1.1.2, nor for ECOMPRO parcels.

1.3 In any other case not provided for in this Convention, designated operators shall not be liable.

1.4 When the loss of or total damage to registered items, ordinary parcels and insured items is due to a case of force majeure for which indemnity is not payable, the sender shall be entitled to repayment of the charges paid for posting the item, with the exception of the insurance charge.

1.5 The amounts of indemnity to be paid shall not exceed the amounts mentioned in the Regulations.

1.6 In cases of liability, consequential losses, loss of profits or moral damage shall not be taken into account in the indemnity to be paid.

1.7 All provisions regarding liability of designated operators shall be strict, binding and complete. Designated operators shall in no case, even in case of severe fault, be liable above the limits provided for in the Convention and the Regulations.

2 Registered items

2.1 If a registered item is lost, totally rifled or totally damaged, the sender shall be entitled to an indemnity set in the Regulations. If the sender has claimed an amount less than the amount set in the
2.2 If a registered item is partially rifled or partially damaged, the sender is entitled to an indemnity corresponding, in principle, to the actual value of the theft or damage.

3 Ordinary parcels

3.1 If a parcel is lost, totally rifled or totally damaged, the sender shall be entitled to an indemnity of an amount set in the Regulations. If the sender has claimed an amount less than the amount set in the Regulations, designated operators may pay that lower amount and shall receive reimbursement on this basis from any other designated operators involved.

3.2 If a parcel is partially rifled or partially damaged, the sender shall be entitled to an indemnity corresponding, in principle, to the actual value of the theft or damage.

3.3 Designated operators may agree to apply, in their reciprocal relations, the amount per parcel set in the Regulations, regardless of the weight.

4 Insured items

4.1 If an insured item is lost, totally rifled or totally damaged, the sender shall be entitled to an indemnity corresponding, in principle, to the insured value in SDRs.

4.2 If an insured item is partially rifled or partially damaged, the sender shall be entitled to an indemnity corresponding, in principle, to the actual value of the theft or damage. It may, however, in no case exceed the amount of the insured value in SDRs.

5 If a registered or insured letter-post item is returned and the reason for non-delivery is not given, the sender shall be entitled to a refund of the charges paid for posting the item only.

6 If a parcel is returned and the reason for non-delivery is not given, the sender shall be entitled to a refund of the charges paid by the sender for posting the parcel in the country of origin and the expenses occasioned by the return of the parcel from the country of destination.

7 In the cases mentioned in 2, 3 and 4, the indemnity shall be calculated according to the current price, converted into SDRs, of articles or goods of the same kind at the place and time at which the item was accepted for conveyance. Failing a current price, the indemnity shall be calculated according to the ordinary value of articles or goods whose value is assessed on the same basis.

8 When an indemnity is due for the loss of, total theft from or total damage to a registered item, ordinary parcel or insured item, the sender, or the addressee, as the case may be, shall also be entitled to repayment of the charges and fees paid for posting the item with the exception of the registration or insurance charge. The same shall apply to registered items, ordinary parcels or insured items refused by the addressee because of their bad condition if that is attributable to the designated operator and involves its liability.

9 Notwithstanding the provisions set out under 2, 3 and 4, the addressee shall be entitled to the indemnity for a rifled, damaged or lost registered item, ordinary parcel or insured item if the sender waives his rights in writing in favour of the addressee. This waiver shall not be necessary in cases where the sender and the addressee are the same.

10 The designated operator of origin shall have the option of paying senders in its country the indemnities prescribed by its national legislation for registered items and uninsured parcels, provided that they are not lower than those laid down in 2.1 and 3.1. The same shall apply to the designated operator of destination when the indemnity is paid to the addressee. However, the amounts laid down in 2.1 and 3.1 shall remain applicable:

10.1 in the event of recourse against the designated operator liable; or

10.2 if the sender waives his rights in favour of the addressee.
Reservations concerning the exceeding of deadlines for inquiries and payment of indemnity to designated operators, including the periods and conditions fixed in the Regulations, shall not be made, except in the event of bilateral agreement.

Article 23
Non-liability of member countries and designated operators

1 Designated operators shall cease to be liable for registered items, parcels and insured items which they have delivered according to the conditions laid down in their regulations for items of the same kind. Liability shall, however, be maintained:

1.1 when theft or damage is discovered either prior to or at the time of delivery of the item;
1.2 when, national regulations permitting, the addressee, or the sender if it is returned to origin, makes reservations on taking delivery of a rifled or damaged item;
1.3 when, national regulations permitting, the registered item was delivered to a private mail-box and the addressee declares that he did not receive the item;
1.4 when the addressee or, in the case of return to origin, the sender of a parcel or of an insured item, although having given a proper discharge, notifies the designated operator that delivered the item without delay that he has found theft or damage. He shall furnish proof that such theft or damage did not occur after delivery. The term "without delay" shall be interpreted according to national law.

2 Member countries and designated operators shall not be liable:

2.1 in cases of force majeure, subject to article 18.5.9;
2.2 when they cannot account for items owing to the destruction of official records by force majeure, provided that proof of their liability has not been otherwise produced;
2.3 when such loss or damage has been caused by the fault or negligence of the sender or arises from the nature of the contents;
2.4 in the case of items that fall within the prohibitions specified in article 19;
2.5 when the items have been seized under the national legislation of the country of destination, as notified by the member country or designated operator of that country;
2.6 in the case of insured items which have been fraudulently insured for a sum greater than the actual value of the contents;
2.7 when the sender has made no inquiry within six months from the day after that on which the item was posted;
2.8 in the case of prisoner-of-war or civilian internee parcels;
2.9 when the sender's actions may be suspected of fraudulent intent, aimed at receiving compensation.

3 Member countries and designated operators shall accept no liability for customs declarations in whatever form these are made or for decisions taken by the Customs on examination of items submitted to customs control.

Article 24
Sender's liability

1 The sender of an item shall be liable for injuries caused to postal officials and for any damage caused to other postal items and postal equipment, as a result of the dispatch of articles not acceptable for conveyance or the non-observance of the conditions of acceptance.
2 In the case of damage to other postal items, the sender shall be liable for each item damaged within the same limits as designated operators.

3 The sender shall remain liable even if the office of posting accepts such an item.

4 However, where the conditions of acceptance have been observed by the sender, the sender shall not be liable, in so far as there has been fault or negligence in handling the item on the part of designated operators or carriers, after acceptance.

Article 25
Payment of indemnity

1 Subject to the right of recourse against the designated operator which is liable, the obligation to pay the indemnity and to refund the charges and fees shall rest either with the designated operator of origin or with the designated operator of destination.

2 The sender may waive his rights to the indemnity in favour of the addressee. The sender, or the addressee in the case of a waiver, may authorize a third party to receive the indemnity if national legislation allows this.

Article 26
Possible recovery of the indemnity from the sender or the addressee

1 If, after payment of the indemnity, a registered item, a parcel or an insured item or part of the contents previously considered as lost is found, the sender or the addressee, as the case may be, shall be advised that the item is being held at his disposal for a period of three months on repayment of the amount of the indemnity paid. At the same time he shall be asked to whom the item is to be delivered. In the event of refusal or failure to reply within the prescribed period, the same approach shall be made to the addressee or the sender as the case may be, granting that person the same period to reply.

2 If the sender and the addressee refuse to take delivery of the item or do not reply within the period provided for in paragraph 1, it shall become the property of the designated operator or, where appropriate, designated operators which bore the loss.

3 In the case of subsequent discovery of an insured item the contents of which are found to be of less value than the amount of the indemnity paid, the sender or the addressee, as the case may be, shall repay the amount of this indemnity against return of the item, without prejudice to the consequences of fraudulent insurance.

Section VII
Remuneration

A. Transit charges

Article 27
Transit charges

1 Closed mails and à découvert transit items exchanged between two designated operators or between two offices of the same member country by means of the services of one or more other designated operators (third party services) shall be subject to the payment of transit charges. The latter shall constitute remuneration for the services rendered in respect of land transit, sea transit and air transit. This principle shall also apply to missent items and misrouted mails.
B. Terminal dues

Article 28
Terminal dues. General provisions

1 Subject to exemptions provided in the Regulations, each designated operator which receives letter-post items from another designated operator shall have the right to collect from the dispatching designated operator a payment for the costs incurred for the international mail received.

2 For the application of the provisions concerning the payment of terminal dues by their designated operators, countries and territories shall be classified in accordance with the lists drawn up for this purpose by Congress in its resolution C 7/2016, as follows:

2.1 countries and territories in the target system prior to 2010 (group I);
2.2 countries and territories in the target system as of 2010 and 2012 (group II);
2.3 countries and territories in the target system as from 2016 (group III);
2.4 countries and territories in the transitional system (group IV).

3 The provisions of the present Convention concerning the payment of terminal dues are transitional arrangements, moving towards a country-specific payment system at the end of the transition period.

4 Access to domestic services. Direct access

4.1 In principle, each designated operator of a country that was in the target system prior to 2010 shall make available to the other designated operators all the rates, terms and conditions offered in its domestic service on conditions identical to those proposed to its national customers. It shall be up to the designated operator of destination to decide whether the terms and conditions of direct access have been met by the designated operator of origin.

4.2 Designated operators of countries in the target system prior to 2010 shall make available to other designated operators of countries that were in the target system prior to 2010 the rates, terms and conditions offered in their domestic service, on conditions identical to those proposed to their national customers.

4.3 Designated operators of countries that joined the target system from 2010 may opt to make available to a limited number of designated operators the application of domestic conditions, on a reciprocal basis, for a trial period of two years. After that period, they must choose either to cease making available the application of domestic conditions or to continue to make their own domestic conditions available to all designated operators. However, if designated operators of countries that joined the target system from 2010 ask designated operators of countries that were in the target system prior to 2010 for the application of domestic conditions, they must make available to all designated operators the rates, terms and conditions offered in their domestic service on conditions identical to those proposed to their national customers.

4.4 Designated operators of countries in the transitional system may opt not to make available to other designated operators the application of domestic conditions. They may, however, opt to make available to a limited number of designated operators the application of domestic conditions, on a reciprocal basis, for a trial period of two years. After that period, they must choose either to cease making available the application of domestic conditions or to continue to make their own domestic conditions available to all designated operators.

5 Terminal dues remuneration shall be based on quality of service performance in the country of destination. The Postal Operations Council shall therefore be authorized to supplement the remuneration in articles 29 and 30 to encourage participation in monitoring systems and to reward designated operators for reaching their quality targets. The Postal Operations Council may also fix penalties in case of insufficient quality, but the remuneration shall not be less than the minimum remuneration according to articles 29 and 30.
Any designated operator may waive wholly or in part the payment provided for under 1.

M bags weighing less than 5 kilogrammes shall be considered as weighing 5 kilogrammes for terminal dues payment purposes. The terminal dues rates to be applied for M bags shall be:

- for the year 2018, 0.909 SDR per kilogramme;
- for the year 2019, 0.935 SDR per kilogramme;
- for the year 2020, 0.961 SDR per kilogramme;
- for the year 2021, 0.988 SDR per kilogramme.

For registered items there shall be an additional payment of 1.100 SDR per item for 2018, 1.200 SDR per item for 2019, 1.300 SDR per item for 2020 and 1.400 SDR for 2021. For insured items, there shall be an additional payment of 1.400 SDR per item for 2018, 1.500 SDR per item for 2019, 1.600 SDR per item for 2020 and 1.700 SDR for 2021. The Postal Operations Council shall be authorized to supplement remuneration for these and other supplementary services where the services provided contain additional features to be specified in the Regulations.

For registered and insured items not carrying a barcoded identifier or carrying a barcoded identifier that is not compliant with UPU Technical Standard S10, there shall be a further additional payment of 0.5 SDR per item unless otherwise bilaterally agreed.

For terminal dues payment purposes, letter-post items posted in bulk by the same sender and received in the same dispatch or in separate dispatches in accordance with the conditions specified in the Regulations shall be referred to as "bulk mail". The payment for bulk mail shall be established as provided for in articles 29 and 30.

Any designated operator may, by bilateral or multilateral agreement, apply other payment systems for the settlement of terminal dues accounts.

Designated operators may exchange non-priority mail on an optional basis by applying a 10% discount to the priority terminal dues rate.

The provisions applicable between designated operators of countries in the target system shall apply to any designated operator of a country in the transitional system which declares that it wishes to join the target system. The Postal Operations Council may set transitional measures in the Regulations. The full provisions of the target system may apply to any new target designated operator that declares that it wishes to apply such full provisions without transitional measures.

Article 9
Technological neutrality

1 The exchange of data necessary for the provision of the services defined in this Agreement shall be governed by the principle of technological neutrality, which means that the provision of these services does not depend on the use of a particular technology.

2 The procedures for executing postal payment orders, including the conditions for depositing, entering, dispatching, paying and reimbursing orders and for processing inquiries, and the time limit for making the funds available to the payee, may vary according to the technology used for transmitting the order.

3 Postal payment services may be provided on the basis of a combination of different technologies.

Chapter II
General principles and quality of service

Article 10
General principles

1 Accessibility via the network and financial inclusion

1.1 The postal payment services shall be provided by the designated operators via their network(s) and/or via any other partner network in order to ensure accessibility to these services for the greatest number, and with a view to ensuring access to, and use of, a wide range of affordably priced postal payment services.

1.2 All users shall have access to postal payment services regardless of any contractual or commercial relationship existing with the designated operator.
2 Separation of funds

2.1 Users’ funds shall be ring-fenced. These funds and the flows that they generate shall be separate from operators' other funds and flows, particularly their own funds.

2.2 Settlements relating to remuneration between designated operators are separate from settlements relating to users’ funds.

3 Currency of issue and currency of payment in respect of postal payment orders

3.1 The amount of the postal payment order shall be expressed and paid in the currency of the destination country or in any other currency authorized by the destination country.

4 Non-repudiability

4.1 The transmission of postal payment orders by electronic means shall be subject to the principle of non-repudiability, in the sense that the issuing designated operator shall not question the existence of these orders and the paying designated operator shall not deny receipt of the orders, insofar as the message conforms to the applicable technical standards.

4.2 The non-repudiability of electronic postal payment orders shall be ensured by technological means, regardless of the system used by the designated operators.

5 Execution of postal payment orders

5.1 Postal payment orders transmitted between designated operators must be executed, subject to the provisions of the present Agreement and the national legislation.

5.2 In the designated operators’ network, if both member countries use the same currency, the sum delivered to the issuing designated operator by the sender shall be the same as the sum paid to the payee by the paying designated operator. If the currency is not the same, the sum shall be converted on the basis of an established exchange rate upon issue and/or payment, as appropriate.

5.3 Payment in cash to the payee shall not be conditional on receipt by the paying designated operator of the corresponding funds from the sender. It shall be made subject to the fulfilment by the issuing designated operator of its obligations towards the paying designated operator regarding instalments, the regular settlement of accounts, the provision of a liaison account or settlement via the centralized clearing and settlement system.

5.4 Payment into the payee's account by the paying designated operator shall be conditional on receipt of the corresponding funds from the sender, to be made available by the issuing designated operator to the paying designated operator. These funds may come from the liaison account of the issuing designated operator or from a centralized clearing and settlement system.

6 Setting of rates

6.1 The issuing designated operator shall set the price of postal payment services.

6.2 Charges may be added to this price for any optional or supplementary service required by the sender.

7 Exemption from charges

7.1 The provisions of the Universal Postal Convention concerning exemption from postal charges on postal items intended for prisoners of war and civil internees shall apply to the postal payment service items for this category of payee.

8 Remuneration of the paying designated operator

8.1 The paying designated operator shall be remunerated by the issuing designated operator for the execution of postal payment orders.
9 Intervals for settlement between designated operators

9.1 The frequency of settlement between designated operators of sums paid or credited to a payee on behalf of a sender may be different from that in respect of the settlement of remuneration between designated operators. Sums paid or credited shall be settled at least once a month.

10 Obligation to inform users

10.1 Users shall be entitled to the following information, which shall be published and made available to all senders: conditions covering the provision of postal payment services, prices, charges, exchange rates and arrangements, conditions of implementation of liability, and the addresses of information and inquiry services.

10.2 Access to this information shall be provided free of charge.

Article 11
Quality of service

1 Designated operators may decide to identify postal payment services by means of a collective brand.

2 The Postal Operations Council shall define the quality of service objectives, elements and standards for postal payment orders transmitted electronically.

3 Designated operators must apply a minimum number of quality of service elements and standards for postal payment orders transmitted electronically.

Chapter III
Principles for electronic data interchange

Article 12
Interoperability

1 Networks

1.1 In order to exchange the data needed to execute postal payment services between all designated operators, and to monitor quality of service, designated operators shall use the Union's electronic data (EDI) exchange system or any other system ensuring the interoperability of the postal payment services in accordance with this Agreement.

Article 13
Ensuring the security of electronic exchanges

1 Designated operators shall be responsible for the proper functioning of their equipment.

2 The electronic transmission of data shall be made secure in order to ensure the authenticity and integrity of the data transmitted.

3 Designated operators shall make transactions secure, in accordance with international standards.
Article 14
Track and trace

1 The systems used by designated operators shall permit the monitoring of the processing of the order and its revocation by the sender, until such time as the corresponding amount is paid to the payee or credited to the payee's account, or, if appropriate, reimbursed to the sender.

Part II
Rules governing the postal payment services

Chapter I
Processing of postal payment orders

Article 15
Deposit, entry and transmission of postal payment orders

1 The conditions for depositing, entering and transmitting postal payment orders are set out in the Regulations.

2 The period of validity for postal payment orders may not be extended and is set in the Regulations.

Article 16
Checking and release of funds

1 After confirming the payee's identity in accordance with national legislation and the accuracy of the information he has provided, the designated operator shall make the payment in cash. For an inpayment order or a transfer, this payment shall be credited to the payee's account.

2 The time limits for release of the funds shall be established in the bilateral and multilateral agreements between designated operators.

Article 17
Maximum amount

1 Designated operators shall inform the International Bureau of the Universal Postal Union of the maximum amounts for sending or receipt set according to their national legislation.

Article 18
Reimbursement

1 Extent of reimbursement

1.1 Reimbursement within the framework of the postal payment services shall cover the full amount of the postal payment order in the currency of the issuing country. The amount to be reimbursed shall be equal to the amount paid by the sender or to the amount charged to his account. The price of the postal payment service shall be added to the amount reimbursed in the event of an error made by a designated operator.

1.2 There shall be no reimbursement of a COD money order.
Chapter II
Inquiries and liability

Article 19
Inquiries

1 Inquiries shall be entertained within a period of six months from the day after that on which the postal payment order was accepted.

2 Designated operators, subject to their national legislation, shall have the right to collect from customers charges on inquiries in regard to postal payment orders.

Article 20
Liability of designated operators with regard to users

1 Treatment of funds

1.1 Except in the case of COD money orders, the issuing designated operator shall be accountable to the sender for the sums handed over at the counter or debited to the sender's account until:

1.1.1 the postal payment order has been duly paid; or

1.1.2 the payee's account has been credited; or

1.1.3 the funds have been reimbursed to the sender in the form of cash or as a credit to his account.

1.2 For COD money orders, the issuing designated operator shall be accountable to the payee for the sums handed over at the counter or debited to the sender's account until the COD money order has been duly paid or the payee's account has been duly credited.

Article 21
Obligations and liability of designated operators to each other

1 Each designated operator shall be liable for its own errors.

2 The conditions and extent of liability are set out in the Regulations.

Article 22
Non-liability of designated operators

1 Designated operators shall not be liable:

1.1 in cases of delay in the execution of the service;

1.2 when they cannot account for the execution of a postal payment order owing to the destruction of postal payment service data by force majeure, unless proof of their liability is otherwise produced;

1.3 when the damage has been caused by the fault or negligence of the sender, particularly concerning his responsibility to provide correct information in support of his postal payment order, including the fact that the funds remitted are from a legitimate source and that the postal payment order is for a legitimate purpose;

1.4 if the funds remitted are seized;

1.5 in the case of prisoner-of-war or civilian internee funds;

1.6 when the user has made no inquiry within the period set in the present Agreement;

1.7 when the time allowed for recourse in respect of postal payment services in the issuing country has expired.
Article 23
Reservations regarding liability

1. No reservations may be made to the provisions regarding liability prescribed in articles 20 to 22, other than in case of a bilateral agreement.

Chapter III
Financial relations

Article 24
Accounting and financial rules

1. Accounting rules
   1.1. Designated operators shall comply with the accounting rules defined in the Regulations.

2. Preparation of monthly and general accounts
   2.1. The paying designated operator shall prepare for each issuing designated operator a monthly account showing the sums paid for postal payment orders. The monthly accounts shall be incorporated, at the same intervals, in a general offset account including instalments and giving rise to a balance.

3. Instalment
   3.1. In case of an imbalance in exchanges between designated operators, an instalment shall be paid by the issuing designated operator to the paying designated operator, at least once a month, at the beginning of the settlement period. In cases where increasing the frequency of settlement of exchanges reduces the period to less than a week, operators can agree to waive this instalment.

4. Concentration account
   4.1. In principle, each designated operator shall have one concentration account for users' funds. These funds shall be used solely for settling postal payments paid to the payees or for reimbursing non-executed postal payment orders to senders.
   4.2. Any instalments paid by the issuing designated operator shall be credited to the concentration account for the paying designated operator. These instalments shall be used exclusively for payments to payees.

5. Security deposit
   5.1. The payment of a security deposit may be required in accordance with the conditions provided for in the Regulations.

Article 25
Settlement and clearing

1. Centralized settlement
   1.1. Settlements between designated operators may pass through a central clearing house, in accordance with the procedures set out in the Regulations and shall be carried out from the designated operators' concentration accounts.
Postal Payment Services Agreement

2 Bilateral settlement

2.1 Billing on the basis of the general account balance

2.1.1 In general, designated operators that are not members of a centralized clearing system shall settle accounts on the basis of the balance of the general account.

2.2 Liaison account

2.2.1 Where designated operators have a giro institution, they may each open a liaison account by means of which shall be settled their mutual debts and claims resulting from postal payment services.

2.2.2 Where the paying designated operator does not have a giro system, the liaison account may be opened with another financial institution.

2.3 Currency of settlement

2.3.1 Settlements shall be carried out in the currency of the destination country or in a third currency agreed between the designated operators.

Part III
Transitional and final provisions

Article 26
Reservations at Congress

1 Any reservation which is incompatible with the object and purpose of the Union shall not be permitted.

2 As a general rule, any member country whose views are not shared by other member countries should endeavour, as far as possible, to conform to the opinion of the majority. Reservations shall be made only in cases of absolute necessity, and shall be duly justified.

3 Any reservation to an article of the present Agreement shall be submitted to Congress as a Congress proposal written in one of the working languages of the International Bureau and in accordance with the relevant provisions of the Rules of Procedure of Congresses.

4 To become effective, any proposal concerning reservations must be approved by whatever majority is required for amendment of the article to which the reservation relates.

5 In principle, reservations shall be applied on a reciprocal basis between the reserving member country and the other member countries.

6 Reservations to the present Agreement shall be inserted in its Final Protocol on the basis of proposals approved by Congress.

Article 27
Final provisions

1 The Convention shall be applicable, where appropriate, by analogy, in all cases not expressly governed by this Agreement.

2 Article 4 of the Constitution shall not apply to this Agreement.

3 Conditions for approval of proposals concerning this Agreement and the Regulations
3.1 To become effective, proposals submitted to Congress relating to this Agreement must be approved by a majority of the member countries present and voting which are parties to the Agreement and which have the right to vote. At least half of these member countries represented at Congress and having the right to vote shall be present at the time of voting.

3.2 To become effective, proposals relating to the Regulations of the present Agreement must be approved by a majority of the members of the Postal Operations Council which are present and voting, which have the right to vote, and which are signatories or have acceded to the Agreement.

3.3 To become effective, proposals introduced between two Congresses relating to this Agreement must obtain:

3.3.1 two thirds of the votes, with at least one half of the member countries which are parties to the Agreement and have the right to vote having taken part in the vote, if they involve the addition of new provisions;

3.3.2 a majority of the votes, with at least one half of the member countries which are parties to the Agreement and have the right to vote having taken part in the vote, if they involve amendments to the provisions of this Agreement;

3.3.3 a majority of the votes, if they involve interpretation of the provisions of this Agreement.

3.4 Notwithstanding the provisions under 3.3.1, any member country whose national legislation is as yet incompatible with the proposed addition may, within 90 days from the date of notification of the latter, make a written declaration to the Director General of the International Bureau stating that it is unable to accept this addition.

Article 28
Entry into force and duration of the Postal Payment Services Agreement

1 This Agreement shall come into force on 1 January 2018 and shall remain in operation until the entry into force of the Acts of the next Congress.

In witness whereof, the plenipotentiaries of the governments of the contracting countries have signed this Agreement in a single original which shall be deposited with the Director General of the International Bureau. Final Protocol to the Postal Payment Services Agreement

At the moment of proceeding to signature of the Postal Payment Services Agreement concluded this day, the undersigned plenipotentiary has agreed the following:

Article I
Operational functions

1 With reference to article 5.4 and in application of articles 3 and 4 of the Postal Payment Services Agreement, any operator designated by France shall open postal payment services only with operators of member countries that are signatories to the Agreement.

2 In cases where one of these operators is not a designated operator, it shall only be able to pay orders received from the French designated operator. To conclude an exchange contract with a French designated operator, this operator shall first provide a copy of the declaration of its participation in the exclusive execution of postal payment service orders, made to the competent authorities of the member country concerned, which may, at its discretion, combine it with an authorization.

3 These same provisions shall apply reciprocally on the national territory of France to any operator in France wishing to enter into a partnership exclusively with designated operators of other member countries that are signatories to the Postal Payment Services Agreement.

In witness whereof, the plenipotentiaries below have drawn up this Protocol which shall have the same force and the same validity as if its provisions were inserted in the text of the Convention itself, and they have signed it in a single original which shall be deposited with the Director General of the International Bureau. A copy thereof shall be delivered to each party by the International Bureau of the Universal Postal Union.

Decision C 3/2016
General revision of the Universal Postal Convention

Congress,

In view of resolution C 24/2012 of the Doha Congress regarding general revision of the Convention and its Regulations,

Having noted with satisfaction the results of the CA study on the general revision of the Convention and the presentation in a single volume of the rules applicable to letter post and parcel post,

Considering that during the consultations arranged by the CA, all Union member countries had the opportunity to comment on the draft revised Convention and its Regulations,

Noting that the new texts take into account the comments from member countries,

Decides
- to approve the recast Convention, which served as the basis for the preparation of amendment proposals submitted to the Istanbul Congress;
- to approve the recast Regulations to the Convention, presented as a single volume, to serve as the basis of the deliberations by the first session of the POC after Congress.

(Proposal 01.Rev 1, Committee 3, 1st meeting)
Resolution C 4/2016

EMS Cooperative

Congress,

Recognizing
- that EMS is offered, on the basis of article 16 of the Universal Postal Convention, and the EMS Standard Agreement, by the great majority of designated operators of member countries and territories as an integral element of the postal offer, effectively complementing the traditional range of letter-post and parcel-post services;
- that EMS has considerable commercial and strategic importance for postal services and for their customers;
- that in most member countries and territories EMS is the only practical and affordable means of providing universal access to international express services for the private customer and many small enterprises;

Noting
the progress and achievements of the EMS Cooperative, as a structure within the POC, providing a global focus to allow the worldwide EMS network to better meet the needs of postal customers, as set out in Congress–Doc 10,

Affirming
the need for the UPU to continue to support ongoing EMS activities, particularly for those UPU members that are not members of the EMS Cooperative,

Acknowledgeing
that the EMS Cooperative is financed by its members and that it pays for all EMS programmes and activities for members and non-members, including all direct staff costs, from its own budget,

Also acknowledging
that the EMS Cooperative programmes and activities benefit the UPU by sharing information and experience and by leading new efforts which are emulated by other groups in the areas of quality of service measurement, customer service approaches, and the use of technology and training,

Decides

to continue to finance, through the UPU budget, the institutional and other support costs of maintaining the EMS Unit as an integral part of the International Bureau. The costs to be supported will include those for the accommodation of the EMS Unit; its office and IT services; logistical support, including production and distribution of documents; translation and interpretation for UPU meetings; personnel and financial management support; legal advice, and any other costs incurred by the International Bureau in respect of the EMS Unit that are not currently allocated to the EMS chapters of the UPU Programme and Budget. Actual consumed office maintenance costs (building maintenance, electricity, water, telecommunications, printers, computers and publications) shall, however, be charged by the Union to the EMS Cooperative budget,

Charges
- the EMS Cooperative, under the POC, with:
  - maintaining, within the framework of the UPU strategy, its responsibilities for all operational, commercial, technical and economic matters concerning EMS, having authority to make and amend EMS recommendations and establish EMS standards in all these areas, taking into account directives from the UPU bodies;
  - presenting an annual report to the POC and, where appropriate, to the CA;
- the POC with presenting a report to the next Congress on the progress of EMS activities and their financing,
**Instructs**

the International Bureau to:

- continue to provide support to the EMS Cooperative by covering all its institutional and other support costs as specified in this resolution, without cost to the Cooperative;
- ensure that designated operators that are not members of the EMS Cooperative continue to benefit from UPU EMS programmes and publications;
- continue to promote EMS activities for those designated operators which are not members of the Cooperative.

**Invites**

member countries and territories whose designated operators are not EMS Cooperative members to join the Cooperative, in the light of the excellent results achieved.

(Proposal 06, Committee 4, 1st meeting)

**Resolution C 5/2016**

**Future strategy of the Telematics Cooperative and financing of its activities**

Congress,

Recalling

- the success of telematics activities since 1994, and in particular the large and steadily growing number of designated operators of member countries that have willingly joined the Telematics Cooperative;
- the widespread adoption of UPU software among all member countries, from the least developed countries to the industrialized countries,

Aware

- of the strategic importance of UPU telematics activities for all Union member countries;
- of the fact that the telematics network infrastructure and activities are crucial for further improving postal products and services, for maintaining a quality universal service obligation, for further postal developments in the information society, for reducing the digital divide between Union member countries and for helping to solve some important problems such as the future of the universal service and the question of remittances for migrant workers, at both a domestic and an international level,

Noting

- the establishment, through the efforts of the Telematics Cooperative, of an interconnected worldwide network linking all players in the logistical chain: designated operators, Customs and airlines, as well as other international organizations;
- that this electronic network infrastructure and the state-of-the-art IT solutions owned by the UPU and made affordable to all Union member countries ensure electronic exchange capability between those countries and the automation of important postal operational processes irrespective of their postal development status, and hence provide the opportunity for further quality and service improvements to postal services that would not otherwise be possible;
that the Telematics Cooperative carries out significant work to support Union member countries not only in areas closely related to the adoption and deployment of UPU information and communication technology (ICT) solutions, but also in the field of operational consulting and monitoring activities, so as to encourage them to adopt best practices for the improvement of postal operational processes and related electronic infrastructures, particularly in the developing and least developed countries;

– the work done in the area of advanced electronic services, geared towards developing and/or hosting UPU ICT systems in support of secure Internet-based postal services such as postal registered electronic mail, and other systems related to radio frequency identification standards, e-shopping, postal identification, the postal electronic mailbox and the .post platform;

– the support provided by the Telematics Cooperative to other UPU bodies in the strategic area of electronic data interchange standards, and through its active participation in other projects not directly linked to UPU ICT solutions, from which all Union member countries stand to benefit,

Noting also

– the inability of the Telematics Cooperative to finance tasks not directly related to development, deployment, operation and support of UPU ICT solutions from fees received for product maintenance, network services, assistance missions, product development or member contributions;

– that the required funds to enable research, development and commercialization of new high-potential postal products and services may need to come from external resources,

Considering the digital divide in terms of operational development and differences in the level of development of member countries,

Recognizing

– the achievements of the Telematics Cooperative to date and its efforts aimed at improving and developing ICT solutions in support of postal services (Congress–Doc 10);

– that the strategy of the Telematics Cooperative (POC 2016.1–Doc 19c.Rev 1) and its activities must not only support the Istanbul World Postal Strategy but also be deemed essential to its implementation;

– the need to continuously improve UPU ICT solutions and meet customers’ requirements for both maintenance and support within a reasonable timeframe;

– the considerable added value offered by the Telematics Cooperative in maintaining a universal service at the cutting edge of technology, allowing all designated operators to provide their customers with modern postal services,

Convinced that the development gap can be reduced by technical cooperation activities aimed at:

– making the same state-of-the-art information and communication technology solutions and infrastructure usable by, and affordable to, all Union member countries;

– providing ongoing support and advice on business and operational matters;

– supporting the provision of a worldwide electronic infrastructure such as .post, in order to give every citizen and small, medium or large business the opportunity to participate in global trade exchanges in a trusted environment verified by Union member countries’ designated operators,

Noting with satisfaction the strategy approved by the Telematics Cooperative and endorsed by the POC for the 2017–2020 period (POC 2016.1–Doc 19c.Rev 1),
Instructs

the Council of Administration to:

– continue to cover, through the Union's regular budget, those institutional support costs associated with maintaining the Postal Technology Centre (or an equivalent structure) as a unit of the International Bureau which do not appear in the latter's internal budget covered by the Telematics Cooperative, particularly in order to maintain the affordability of UPU information and communication technology solutions for developing and least developed Union member countries; consumed office maintenance costs (building maintenance, electricity, water, telecommunications, printing machines, publications) shall, however, be charged by the Union to the Telematics Cooperative budget;

– maintain funds from the Union's regular budget to cover recurrent support actions by the Postal Technology Centre within the framework of technical cooperation assistance and/or for supporting other International Bureau directorates and programmes, to the extent that the latter are not closely linked to the development and use of standard UPU information and communication technology solutions and insofar as such actions are formally authorized and consistent with the respective mandates and objectives of the Telematics Cooperative and UPU projects, as defined by the permanent bodies of the Union;

– supervise Telematics Cooperative finances through the examination and approval of the International Bureau's budget and annual accounts (also comprising detailed financial information on revenues and expenses for each UPU ICT solution), and the presentation of a detailed report to the next Congress on the financing of the Telematics Cooperative;

– continue to exercise its competency in all matters of principle and governance concerning the functioning of the Telematics Cooperative, including the supervision of any aspects related to the implementation of the Istanbul World Postal Strategy, insofar as they are specifically linked to Telematics Cooperative activities,

Also instructs

the Postal Operations Council to:

– continue to exercise its competency for all strategic matters concerning Telematics Cooperative activities;

– present a report to the next Congress on the progress of telematics activities;

– continue to supervise and approve the Telematics Cooperative's specific operating rules, in order to ensure that they are consistent with the relevant matters of principle and governance adopted by the Council of Administration,

Further instructs

the International Bureau to:

– provide for and maintain any internal structures (such as the Postal Technology Centre or an equivalent structure) deemed necessary for the implementation of strategies approved by the Telematics Cooperative, giving due regard, to the extent possible, to the organizational flexibility needs of such a structure in the light of information and communication technology market conditions, without prejudice to the relevant functions of the Council of Administration and Director General of the International Bureau on matters of administration and human resources management;

– continue to promote the activities of the Telematics Cooperative and encourage designated operators of Union member countries to join it and to contribute actively to its activities.

(Proposal 17.Rev 1, Committee 4, 1st meeting)
Resolution C 6/2016

E-commerce services as key to a vibrant and effective postal service

Congress,

Taking note of the activities in recent years aimed at the development of e-commerce in the developing and least developed countries,

Considering that the current century is the information society era, in which various forms of Internet-based economic activities are developing at unprecedented speed,

Also considering that the development of e-commerce is changing people's lifestyle,

Recognizing that e-commerce as a catalyst has created opportunities for businesses to develop their markets,

Aware that Posts are actively exploring new and innovative e-commerce solutions,

Decides to mark the four-year cycle ending with the 2020 UPU Congress by highlighting the theme "E-commerce services as key to a vibrant and effective postal service",

Invites member countries:

– to continue their activities aimed at introducing new and innovative e-services based on customer expectations;
– to foster a culture of making use of e-commerce solutions in all aspects of their postal operations.

(Proposal 23, Committee 4, 1st meeting)

Resolution C 7/2016

Classification of countries and territories for terminal dues and Quality of Service Fund (QSF) purposes for the 2018–2021 period

Congress,

Having adopted the provisions of the Union's new terminal dues system,

Considering that Congress resolution C 18/2008 approved the methodology for the classification of countries and territories for terminal dues and QSF purposes for the 2010–2013 period,

Considering also that the 25th Congress (i) reiterated the position of the previous Congress that the need for preferential terminal dues rates decreases with the country-specific potential to self-finance postal development and increases with the country-specific difficulties in serving the postal territory and with the postal service level provided; (ii) noted that the gross national income per capita reflects the potential to self-finance postal
Recognizing that Congress resolution C 77/2012 approved the update to the aforementioned methodology and its application for the 2014–2017 period,

Bearing in mind that Congress resolution C 57/2012 instructed the Council of Administration to continue the process of gradually applying country-specific, cost-based principles for the remuneration of letter-post exchanges at the worldwide level, as well as to propose a timetable or a transition principle for the full application of target system provisions by all countries and territories, taking into account the possible impacts of the transition to the target system,

Noting that Congress resolution C 77/2012 allowed the United Arab Emirates to apply the same terminal dues rates as countries in group 3 for the 2014–2017 period, with that country applying the provisions pertaining to countries in group 1.2 for the purposes of the QSF and the quality of service link to terminal dues.

Noting also the Council of Administration decisions on requests for temporary downward classification in the 2014–2017 period lodged by the Maldives, Tunisia and Libya, as well as on the request by the Netherlands to separately classify the Caribbean part of the Netherlands,

Taking into account that four sets of terminal dues provisions are applicable to the six groups of countries and territories (i.e. group 1, groups 1.2 and 2, group 3, and groups 4 and 5), with the only exception being that the level of QSF contributions paid to countries in group 4 differs from that paid to countries in group 5, recognizing the special needs of least developed countries for preferential treatment,

Bearing in mind that the request of a country to apply provisions other than those pertaining to the group in which it is classified falls under the provisions of Annex 1 concerning appeals,

Decides

- to update the grouping of countries for the 2018–2021 period by reducing the number of groups from six to four, in order to align the number of groups with the respective terminal dues provisions applicable thereto, except as pertains to the level of contributions to the QSF originally paid to countries in groups 4 and 5 in the 2014–2017 period;
- to approve the classification of countries and territories in the groups shown in Annex 2 for terminal dues and QSF purposes in the 2018–2021 period, in accordance with the relevant provisions specified in the Convention;
- to classify the Caribbean part of the Netherlands in the new group II (former groups 1.2 and 2), since it had not been classified by the 25th Congress;
- that least developed countries classified as such by the 25th Congress in the former group 5 (as of the date of adoption of Congress resolution C 77/2012) shall continue to benefit from higher QSF contributions than those received by other countries and territories classified in the new group IV,

Authorizes

the Council of Administration to:

- decide on the temporary downward reclassification of countries and territories owing to war or extremely severe economic crisis;
Decisions other than those amending the Acts

– decide on the classification of other countries and territories not originally classified by Congress;
– hear any appeals and issue decisions, following the process described in Annex 1,

**Instructs**

the International Bureau to:

– make technical assessments of appeals for temporary downward reclassification, owing to war or extremely severe economic crisis, or for the classification of countries and territories not classified by Congress, and report to the Council of Administration;
– implement Congress and Council of Administration decisions on issues concerning country classification;
– collect the relevant data from the countries and territories concerned for the technical assessment of their appeals,

**Urges**

member countries to:

– abide by the provisions related to their classification groups;
– provide the International Bureau with relevant data to enable the conduct of technical assessments of member country appeals.

(Proposal 21, Committee 4, 2nd meeting)

**Annex 1**

**Appeals on country classification for the terminal dues system in the 2018–2021 period**

**a Requests for reclassification owing to war or extremely severe economic conditions**

1 A country in group IV, but not in the ECOSOC list of least developed countries (LDCs) as of the date of adoption of Congress resolution C 77/2012, may request a temporary downward reclassification owing to war or extremely severe economic conditions, in order to benefit from higher QSF contributions applicable to those LDCs. The request shall substantiate the reason given for the reclassification request and be documented with verifiable supporting data and information.

2 Such requests may be received and examined by any CA session and shall be sent to the International Bureau two months before the beginning of the relevant CA session.

3 The International Bureau shall perform technical analyses of requests received and make them available to CA members no later than two weeks in advance of the beginning of the relevant CA session.

4 The temporary downward reclassification decided by the CA shall be valid for a maximum of two years, with a possible extension after that period upon a new decision by the CA, but not beyond the end of the 2018–2021 period.

**b Requests for classification**

5 Any country or territory not classified by Congress, and therefore not listed in Annex 2, will have the possibility to request classification at any CA session.

6 Such requests may be received and examined by any CA session. The two-month deadline specified above in § 2 shall equally apply.
7 The International Bureau's technical analysis of requests received shall be made available to CA members no later than two weeks in advance of the beginning of the relevant CA session.

8 The classification decided by the CA shall be valid for the whole period (2018–2021), but not beyond the end of that period.
### Classification of countries and territories for terminal dues and Quality of Service Fund (QSF) purposes

**Group I (formerly group 1.1)** – List of countries and territories that were in the target system prior to 2010 and shall apply the target system during the period from 2018 to 2021, and that contribute to the QSF as provided for in article 28 of the Convention

Resolution C 8/2016

Development of postal payment services (and possibly other postal financial services), and financial inclusion

Congress,

Considering resolution C 23/2012 on the development of postal financial services, which sets out the Doha Congress's broad guidelines for the 2013–2016 cycle, which are:

– to encourage member countries and designated operators to develop efficient, reliable, secure and affordable electronic postal payment services;
– to continue developing the multilateral framework for postal payment services;
– to strengthen and promote cooperation with partners from the public and private sectors with a view to developing the UPU worldwide electronic postal payment network (WEPPN) and promoting its connection to other networks;
– to promote the provision of financial services directly by designated operators or in partnership with banks, microfinance institutions or mobile telephone operators, with a view to promoting the financial inclusion of populations,

Also considering the proposed changes to postal payment services and the new postal payment services vision aimed at developing the WEPPN in the context of the work carried out by the Council of Administration and Postal Operations Council in response to Doha Congress resolution C 23/2012,

8 LDCs classified in former group 5 as of the date of adoption of Congress resolution C 77/2012 shall continue to benefit from higher QSF contributions than those received by other countries and territories classified in the new group IV.
9 These countries appealed against their classification and were reclassified from former group 3 to former group 4 by the CA in 2013 (Tunisia and the Maldives) and in 2015 (Libya) up to 2017.
Noting

– that the provision of basic postal payment services (and possibly other postal financial services) through the worldwide post office network can contribute to global economic and social development and play an important role in improving the standard of living and financial inclusion in rural areas;
– that the postal networks, with their worldwide coverage and the combination of electronic, financial and physical dimensions, can facilitate for all people of the world increased access to efficient, reliable, secure and affordable electronic payment services and financial services;
– that the UPU provides a unique regulatory framework for postal payment services as defined in the Postal Payment Services Agreement, and that the development of the WEPPN needs to be continued;
– that the development of electronic postal payment services (and possibly other postal financial services) should take place in a context of cooperation with international organizations and wider postal sector players (WPSPs);
– that postal financial services actively contribute to achieving the United Nations Sustainable Development Goals, notably combating poverty, particularly as a result of their presence in rural areas;
– that a 2005 United Nations General Assembly resolution (A/RES/60/1) reaffirmed "the need to adopt policies and undertake measures to reduce the cost of transferring migrant remittances to developing countries and [welcomed] efforts by Governments and stakeholders in this regard";
– that, in a number of countries, governments have already established a legal framework or national service agreement with designated operators in an effort to promote the development of public missions other than postal services owing to the capillarity of the national postal network, including in rural and disadvantaged areas, and that, accordingly, many designated operators have developed a full range of postal financial services, thus contributing to the achievement of the objective of social inclusion;
– that the development and implementation of the new postal payment services vision, guided by the UPU, is necessary in order to reach out to WPSPs in an effort to achieve social inclusion, and that, at the same time, the new vision should guarantee the current level of protection of designated operators in terms of the security of the network and contractual relations with other parties,

Recognizing

– that the positive impact of postal financial services on the business development of designated operators, particularly in the form of increased revenue, significantly contributes to the viability of the postal network;
– that the UPU needs to continue and reinforce its work on developing postal payment services (and possibly other postal financial services) worldwide;
– that today's world market has undergone rapid and profound changes and that users are demanding speedy, secure and high-quality services,
Instructs

the Council of Administration:

– to support the development of the WEPPN and promote financial inclusion;
– to strengthen and promote cooperation with WPSPs with a view to developing the WEPPN and promoting its connection to other networks;
– to support the development and implementation of the new postal payment services vision by facilitating the creation of the necessary regulatory framework to open the WEPPN to WPSPs;
– to ensure the availability of sufficient budgetary resources to implement the new postal payment services vision,

Also instructs

the Postal Operations Council:

– to encourage designated operators to carry out actions to market and promote electronic postal payment services;
– to adapt postal payment services regulations in order to facilitate implementation of the new postal payment services vision;
– to develop and implement the new postal payment services vision in order to open the WEPPN by:
  • selecting potential WPSPs;
  • connecting and opening postal payment services exchanges with WPSPs;
  • extending the WEPPN to WPSPs,

Further instructs

the International Bureau:

– to develop the interconnection platform in an effort to ensure interoperability between designated operators and WPSPs in order to facilitate financial inclusion through the postal network and respond appropriately to the emerging needs of clients;
– to develop and implement the new postal payment services vision in order to open the WEPPN to WPSPs,

Invites

Union member countries:

– to consider the potential advantages of diversifying operators’ activities to include postal payment services;
– to take the necessary action to ensure the efficient operational exchange of the international payments of designated operators with WPSPs through the UPU’s interconnection platform.

(Proposal 09, Committee 5, 2nd meeting)
Resolution C 9/2016

Quality of Service Fund

Congress,

Having examined
the document submitted by the Postal Operations Council on the progress of the Quality of Service Fund (Congress–Doc 17.Rev 1),

Noting
that in its 15 years of activity, the QSF has launched more than 800 projects, which have had a substantial impact in terms of improving the quality of the mail service in over 200 beneficiary designated operators,

Observing
that, through the volume of financial resources released, the Fund has become a vital component in the Union's development cooperation system,

Aware
that the Fund's structures and operating rules have enabled the Board of Trustees, with the support of the International Bureau and in collaboration with the restricted unions, to manage the Fund's financial resources effectively and foster close regional cooperation, as demonstrated by the regional and global projects,

Concerned
that, despite the changes in the method of calculating QSF contributions introduced by the 25th Congress, the revenues generated do not appear to adequately address the service quality investment costs of the least developed countries (LDCs) and certain countries in a special situation,

Bearing in mind
the need to rationalize and expedite the use of all the resources available, and the ongoing concern to ensure the overall coherence of the Union's activities, more specifically in the area of development of service quality for international mail with focus on performance measurement and evaluation and enhancement of network operations,

Persuaded
that the efforts made by the Board of Trustees and the Postal Operations Council, with the support of the International Bureau, to optimize and simplify the Fund's rules must be continued, as must the efforts to coordinate the formulation, monitoring and evaluation of QSF projects,

Confident
that extending the trust's duration and guaranteeing the funding for its activities for 2018 to 2021 would be fully consistent with Goal 1 of the Istanbul World Postal Strategy and would constitute a major source of funding for activities related to the fields described in article 7.2.1 of the QSF Deed of Trust,

Convinced
that, depending on the decisions taken on terminal dues and assuming that international mail flows remain stable, it would be desirable that the level of annual financing generated by the Fund between 2014 and 2017 be maintained, as far as possible, from 2018 to 2021,

Decides
that the date for dissolving the Trust, currently set at 31 December 2020, will be postponed until 31 December 2028, without prejudice to the relevant decisions concerning the Fund as may be adopted by future Congresses.

(Proposal 32, Committee 6, 2nd meeting)
Resolution C 10/2016

Policy on the access of wider postal sector players to UPU products and services

Congress,

Recognizing that the access of wider postal sector players to UPU products and services will help to advance the UPU mission, particularly in the areas of cooperation and interaction among stakeholders, and in ensuring the satisfaction of customers' changing needs,

Acknowledging that wider postal sector players may include customers, postal suppliers, supply chain service providers (e.g. Customs, airlines and other transporters), and non-designated operators that use or may wish to use UPU products, services and networks under predefined conditions,

Aware that today's postal world, with letter mail volumes in decline and e-commerce packet and parcel volumes rapidly increasing, requires designated operators to cooperate with wider postal sector players in order to meet customer demands,

Recalling the mandate of Doha Congress resolution C 6/2012 to conduct a study, with the aim of producing a definitive policy on the conditions of access for non-designated operators to international mail processing centre codes, as well as to other UPU products, such as International Postal System applications (IPS and IPS Light) and POST*Net, in order to manage these access conditions in a properly regulated manner and with due regard to transparency and efficiency,

Also recalling the mandate of Doha Congress resolution C 7/2012 to conduct a full audit of UPU product and service offerings, to assess the risks and benefits of allowing access to specific products and services to external stakeholders in the wider postal sector, and to develop the governing rules and principles applicable to each product and service that the UPU wishes to make available to wider postal sector players,

Considering the results of the October 2014 CA audit of UPU products and services, in which UPU products and services, as well as potential stakeholders, were identified; the risks and benefits of allowing access to specific products and services to external stakeholders in the wider postal sector were assessed; and potential rules and principles applicable to each product and service that the UPU might want to make available to wider postal sector players were developed,

Decides to adopt the general policy on the access of wider postal sector players to UPU products and services attached in Annex 1,

Instructs the Council of Administration to approve and oversee the implementation of the access policy.

(Proposal 20, Committee 3, 2nd meeting)
Policy on the access of wider postal sector players to UPU products and services

1 The UPU is the fundamental organization for the Post, intergovernmental in nature, with the concept of wider sector involvement embedded in its mission and strategy. The access of wider postal sector players to UPU products and services will help advance the UPU mission as laid out in the UPU Constitution. In particular, it will help advance the UPU mission in the areas of cooperation and interaction among stakeholders, as well as in ensuring the satisfaction of customers' changing needs. We have to recognize that today's postal world, with letter-mail volumes going down and e-commerce packet and parcel volumes growing fast, is very different from the postal world of five or ten years ago. In order to meet today's and tomorrow's customer demands and remain relevant, designated operators will increasingly have to cooperate with wider postal sector players. Wider postal sector players may include customs organizations, postal suppliers, supply chain service providers (e.g. Customs, transporters and airlines), as well as non-DOs.

   a General principles

2 The access policy should be based on several important principles:
   – maintaining the integrity and independence of the UPU;
   – no unfair advantage to any group or individual player;
   – clear delineation of the responsibilities and roles of all entities involved;
   – transparent management, control and integration of the postal supply chain;
   – reciprocity of interconnection with other stakeholder networks, as applicable;
   – wider postal sector payment for access to UPU products and services;
   – demonstrated need for wider postal sector access to specific UPU products and services;
   – proper security mechanisms in place to ensure data protection and privacy.

3 The policy targets access to UPU products, services and networks under predefined conditions for wider postal sector players involved or wishing to be involved in the international postal business. Of course, these stakeholders will be restricted in their area of participation.

4 In order to make the UPU's products and services available to wider postal sector players, it is imperative that the Council of Administration oversee the gradual, systematic opening up of access under a policy of fairness and equality consistent with the general principles in paragraph 2. At the same time, the responsibilities and obligations of UPU member countries must be preserved.

   b UPU mission and customers

5 In keeping with the UPU mission, one stakeholder group that the UPU should also take into consideration is the customer of the designated operator, in order to ensure the satisfaction of customers' changing needs. It may be possible to make some products available directly to those customers, either through the UPU itself or through UPU members. Licensing or conditions of sale must be carefully considered.

6 Other stakeholders include supply chain service providers, in particular Customs, airlines, transporters and security authorities, as well as non-DOs.

   c Target products and services

7 Considering the range of interests among the different stakeholders, the UPU may provide access to part(s) of the functionalities of IT-related products and services developed by the UPU International Bureau and some of the UPU technical standards (such as EDI messages). These should be offered on the basis of the demonstrated needs of players that can contribute to enhancing the quality of postal services.
8. Further, some or even all of the UPU’s IT-related products, developed to support seamless postal operations among designated operators, can be made available for sale or through a licence, taking into account the working relationship between the designated operator concerned and the third party (this may include non-designated operators).

9. UPU products and services are clearly of value to stakeholders other than UPU member countries and designated operators. Over the next cycle, the UPU should gradually review and open up categories of products and services most likely to be of interest to wider sector stakeholders. The first could be UPU standards.

10. Therefore, the UPU should begin with considering the conditions for access to EDI messaging standards and IT-related products, according to the conditions below.

d. General conditions

i. Eligibility and pricing

11. Different types of products and services may require different criteria for eligibility. Each product and service should be reviewed in terms of the utility to UPU members and other stakeholders, and the advantages and disadvantages of availability.

12. Prices should be set according to the costs of the products and services, so that the UPU can recover costs, potentially including development costs. A rationale for providing a product or service below cost must be clearly communicated under the policy.

13. The elements of the policy concerning eligibility, as well as a pricing structure, should, in principle, be uniform for all wider postal sector stakeholders. All products and services currently available should be reviewed.

ii. Contracts for sale, licensing, etc.

14. Currently, many UPU products and services are available through contracts which include general terms and conditions. These documents must be thoroughly reviewed so that the conditions are in compliance with the new policy, and to ensure harmonized conditions of use, disclosure, etc. Licences for use of products and services should also be reviewed in order to ensure that the conditions are uniform and in compliance with UPU policy.

15. Once the conditions have been reviewed and harmonized, a set of guidelines for the sale, licensing, etc., of new products and services should be established. A best practice is to establish model contracts for new products and services.

e. Implementation

16. The International Bureau will open up access to the products and services identified following the consultant's audit, prioritizing according to the perceived interest of wider postal sector players. Each category has been reviewed and potential stakeholders identified. The current conditions will be examined and harmonized following the principles of cost recovery, transparency, fairness and openness.

f. Monitoring and reporting

17. Once a schedule for access has been established, the International Bureau will monitor the gradual opening up of access, and will report on progress at each session of the Council of Administration and its project groups in the next cycle.
Resolution C 11/2016

Inclusion of postal trends and developments in the UPU postal statistics

Congress,

Aware of the United Nations' recognition of postal e-commerce in its Trade and Development plan as a potential opportunity for developing countries,

Acknowledging that postal statistics are required to cover all the indicators related to the major postal services, including new e-services prescribed in the UPU Regulations, in line with modern technologies,

Considering that the data indicated in the UPU postal statistics are considered a valid source for member countries and their designated operators in their studies and research,

Taking into account the development of e-services in the postal industry as well as the need to be aware of related e-services data and statistics,

Recognizing the effort and achievements of the Postal Operations Council Committee 2 Applied Economics and Markets Research Group in ensuring that recent developments in postal services are reflected in the UPU postal statistics,

Instructs the Postal Operations Council, with the support of the International Bureau, to conduct a study on a possible expansion of the contents of the UPU postal statistics to include the development of postal e-services.

Resolution C 12/2016

Integration of the Postal Carbon Fund® within the Universal Postal Union’s structure

Congress,

Recognizing that the fight against climate change is one of the key objectives approved by the United Nations within the framework of the Sustainable Development Goals (SDGs) and the post-2015 development agenda,

Considering the importance of the United Nations Framework Convention on Climate Change, and in particular the first universal agreement adopted during COP21 in Paris reinforcing the need to finance the transformation of the economy to limit global warming to well below 2 °C above pre-industrial levels and pursuing efforts to limit the temperature increase to 1.5 °C,

Also considering that the Paris agreement recognizes the importance of carbon pricing to encourage the implementation of low-carbon technologies and practices,
Also recognizing that the aforementioned framework encourages other voluntary actions implemented in parallel, in particular through the Non-State Actor Zone for Climate Action (NAZCA) and the Lima-Paris Action Agenda (LPAA),

In the light of the adoption of resolutions C 66/2012 (Work on sustainable development) and C 76/2012 (Establishment of a voluntary carbon offset system for designated operators of UPU member countries) by the 25th Congress in Doha,

Recalling the creation, in April 2014, of the Postal Carbon Fund® as an association under Swiss law, outside the scope of the UPU bodies, by the designated operators of Costa Rica, Ecuador, Finland, France, Ireland, Senegal, Switzerland, Thailand and Togo, with the aim of providing the postal sector with an efficient tool to offset, on a voluntary basis, greenhouse gas emissions linked to postal activities,

Also recalling that the Postal Carbon Fund® was created to benefit all postal operators, whether willing to offset their emissions or to develop and finance low-carbon, climate-resilient offsetting projects linked to the reduction of emissions through energy efficiency, renewable energy and alternative transportation that could not otherwise be carried out,

Further recalling the many potential benefits for the postal sector of expanding participation in the Postal Carbon Fund®, particularly in terms of positioning the sector as a committed player in the fight against climate change, responding to the need to anticipate and align its development with new regulations on carbon performance and climate mitigation and adaptation,

Welcoming the efforts of the International Bureau of the Universal Postal Union to measure the carbon footprint of the postal sector and help designated operators of the Union's member countries reduce their impact on the environment and on climate change, especially through its calculation and reporting tool OSCAR,

Taking into account the pilot activities launched by the Postal Carbon Fund® to train postal operators on carbon offsetting procedures and activities for project identification in five countries,

Further considering that the Postal Carbon Fund® is the first carbon fund in the world aimed at providing an efficient funding system for low-carbon development and climate solidarity at sector level,

Convinced that, as the United Nations agency in charge of the postal sector, the Universal Postal Union should play a more active role in the governance of the Postal Carbon Fund®,

Observing that the current role given to the UPU vis-à-vis the Postal Carbon Fund® is limited to its promotion among UPU member countries, and that including the Postal Carbon Fund® in the UPU structures would make it possible to reinforce the fund's institutional image and visibility, in particular within the United Nations community, to the benefit of UPU member countries through an innovative financing mechanism for low-carbon postal projects in developing countries,

**Instructs**

- the relevant UPU bodies to study the legal, financial and structural conditions under which the Postal Carbon Fund® could be integrated into the UPU's activities;
- the relevant UPU council(s) to proceed with the integration of the Postal Carbon Fund® within the structure of the UPU during the Istanbul cycle, should the study demonstrate the feasibility of this inte-
Decisions other than those amending the Acts

Encourages

UPU members to join in the Postal Carbon Fund® and participate in related studies on a voluntary basis.

Recommendation C 13/2016

Philatelic Code of Ethics for the use of UPU member countries

Congress,

Referring to:

– article 8 of the Universal Postal Convention, which establishes the status of the postage stamp;
– article RL 115 of the Letter Post Regulations, which specifies the characteristics of postage stamps and postal prepayment impressions; and
– the Philatelic Code of Ethics adopted by the 24th Congress under recommendation C 26/2008,

Recognizing that postage stamps continue to have a commercial value when used for philatelic purposes,

Also recognizing that the Philatelic Code of Ethics as adopted by the Bucharest Congress has provided valuable guidance to the issuing postal authorities of UPU member countries in maximizing the value of postage stamps to collectors and issuing postal authorities,

Reaffirms its commitment to the production of high quality, ethical stamps, and to a vibrant philatelic market,

Recommends that all issuing postal authorities observe the procedures set out in the annexed revised Philatelic Code of Ethics when issuing and supplying postage stamps and philatelic products.

(Proposal 07, Committee 4, 3rd meeting)

Annex 1

Philatelic Code of Ethics for the use of UPU member countries

The Philatelic Code of Ethics for the use of member countries comprises the following recommendations:

1. Issuing postal authorities creating philatelic products shall ensure that the use of the postage stamps and other means of denoting payment of postage does not lead to the creation of such postal products as would not result from the exercise of proper postal procedures.

1.1 Philatelic products within the scope of this code include, but are not limited to:

– postage stamps, as defined in article 8 of the Universal Postal Convention;
– cards and first day covers;
– presentation packs and albums;
– stamp yearbooks;
– envelopes with embossed or pre-cancelled/pre-printed stamps;
– cachets for special occasions and events and related products;
– stamps with surcharges.

1.2 Other means of indicating payment (e.g. franking marks, postage paid indicia and other labels) are permitted in accordance with article 8 of the Universal Postal Convention, but are not considered to be postage stamps.

2 Issuing postal authorities shall not authorize such use of cancellation dies, hand stamps or other official informative or operational markings as would not result from the exercise of proper postal procedures.

2.1 Issuing postal authorities shall not permit the use of such cancelling or marking devices by persons other than their own employees.

2.2 In certain exceptional cases, and provided that direct supervision is exercised by their employees, issuing postal authorities may authorize the use of these cancelling or marking devices by persons other than their own employees.

2.3 Where issuing postal authorities contract out part of their operational activity and in particular cancellation, the contract shall specify that the cancelling and marking devices shall be used for operational purposes only and in strict accord with the proper postal procedures of the issuing postal authority concerned, which shall ensure that this rule is strictly observed.

3 In the sale of products for philatelic purposes incorporating postage stamps, issuing postal authorities shall ensure that the handling of the postage stamp itself and the use of cancellation dies, hand stamps, cachets and other marking devices is in conformity with their respective postal procedures.

4 For each issue of postage stamps, issuing postal authorities shall ensure that these are printed in sufficient quantity to meet potential operational requirements and foreseeable philatelic needs. In employing cancellation dies, hand stamps and cachets for special occasions or events, issuing postal authorities shall ensure that a sufficient quantity of philatelic products is available to meet requirements. Although issuing postal authorities may not be able to make every stamp issue available from every outlet, they must nonetheless make sure that their customers and philatelists are well-informed at all times where each postage stamp issue is available for postal and philatelic purposes.

4.1 Issues of postage stamps depicting particular regions of a country or territory may be produced, so long as they comply with the requirements of this Code of Ethics and that customers and philatelists are well-informed at all times of their availability for postal purposes.

4.2 Issuing postal authorities shall take care to ensure that they issue stamps which help meet market demands. They shall ensure that the number of stamps issued each year is limited to that which their market will accept. If policies are still to be decided, issuing postal authorities should respond cautiously to market demand to avoid oversupply. They shall not saturate the market and thus drive philatelists and collectors away from the hobby.

5 In choosing themes, logos, emblems and other design elements for their issues of postage stamps, issuing postal authorities shall, at all times, respect intellectual property rights.

6 If issuing postal authorities offer their customers personalized stamps, they shall establish a legal framework to protect the latter’s status, in accordance with their national law.

7 Whilst issuing postal authorities have no control over the use of postage stamps or articles entrusted to the postal service for postal purposes once they have been sold, they shall nevertheless:

7.1 Not support or acquiesce in any artifice intended to enhance sales of their postage stamps or products incorporating postage stamps by suggesting a potential scarcity of these products.

7.2 Avoid any action which might be taken as declaring approval of or conferring official status on products of unofficial origin incorporating postage stamps.
7.3 In the event that they appoint agents to market their philatelic products, instruct such agents to observe the same procedures and practices as those of the issuing postal authorities themselves, and to respect the provisions of the Philatelic Code of Ethics and of the issuing postal authority’s national postal legislation. Issuing postal authorities shall not permit agents to operate or alter their proper postal procedures nor to control philatelic procedures.

7.4 Specifically prohibit the sale or disposal by their agents of their postage stamps or products incorporating postage stamps below face value. In remunerating their agents, issuing postal authorities shall obviate as far as possible any need for agents to sell postage stamps or philatelic products incorporating postage stamps above face value. Due allowance may be made for national or local variations in sales and other taxes which may be pertinent, including at international philatelic exhibitions.

7.5 Retain full responsibility for the printing and delivery of postage stamps and related philatelic products, either directly, or by making sure that all contractual obligations are fully respected and fulfilled by the agent, in order to avoid any misunderstanding between partners.

7.6 Establish separate contractual provisions for the printers entrusted with producing the stamps and the agents responsible for marketing them.

7.7 Award the printing of postage stamps only to security printers that have signed up to the Code of Ethics for postage stamp security printers and that have achieved or undertaken to achieve certification as a security printer, while abiding by public procurement practices (where applicable).

8 Issuing postal authorities shall not produce postage stamps or philatelic products that are intended to exploit customers.

8.1 In this spirit, issuing postal authorities shall not produce any abusive issues of postage stamps or philatelic products. Any issue that has one or more of the following features shall be regarded as abusive:

- A philatelic issue whose theme is a subject totally contrary to article 8, paragraph 5, of the definition of a postage stamp, i.e. alien to the culture of the issuing member country or territory, and which cannot be considered as contributing to "the dissemination of culture or to maintaining peace".

- A programme and issue whose quantity far exceeds the acceptable limits for philatelic issues as defined in point 4 of this Code of Ethics, particularly 4.2. That is, where the number of annual issues is unrelated to the actual market capacity, whether for postal prepayment or for stamp collection, of the member country or territory concerned.

8.2 On the proposal of the International Bureau, and with the approval of the relevant Union body, abusive issues may be reported on the WNS website. These incidents should be reported in a form proposed by the International Bureau and approved by the relevant Union body following the Istanbul Congress.

9 Issuing postal authorities shall acknowledge in all their philatelic activities that, while their stamps represent symbols of national identity and culture, such stamps retain a secondary value beyond face value only because philatelists and collectors choose to purchase them. Issuing postal authorities pledge to abide by this code of conduct in order to ensure the long-term survival of the philatelic market in each country.

Recommendation C 14/2016

Promotion of disaster risk management measures in the field of development cooperation

Congress,

Recalling recommendation C 27/2008 entitled "Initiatives for the sustainable reduction of the negative environmental impact of the postal sector" and resolution C 34/2008 entitled "Work on sustainable development", adopted at the 2008 Congress held in Geneva,
Also recalling recommendation C 64/2012 entitled "Initiatives for the study of sustainable development and development cooperation measures to make postal organizations more resistant to major disasters", adopted at the 2012 Doha Congress, and the Universal Postal Union’s emphasis on the importance of enhancing measures for postal sector resilience,

Recognizing the United Nations Plan of Action on Disaster Risk Reduction for Resilience adopted by the United Nations Chief Executives Board in 2013, which committed to making disaster risk reduction a priority for the UN system and organizations within,

Considering the recommendation adopted at the Third UN World Conference on Disaster Risk Reduction to take action to substantially reduce global disaster mortality and economic loss caused by natural disasters by 2030 and enhance international cooperation for developing countries for this purpose, as set out in the Sendai Framework for Disaster Risk Reduction 2015–2030,

Stressing the positive results achieved by the ad hoc group on disaster risk management, part of the Council of Administration (CA) Committee 4 (Cooperation and Development) Sustainable Development Project Group, in increasing awareness of disaster risk management in the postal sector and sharing best practices through multiple channels, including several regional seminars held during the 2013–2016 cycle,

Greatly appreciating the efforts of the International Bureau in developing and implementing projects and tools for member countries through the formulation of a UPU framework for disaster management, a disaster management guide, and other works,

Confirming that building disaster-resilient postal services on a global scale is consistent with the UPU’s aim to develop communication between peoples and thereby contribute to international cooperation in cultural, societal and economic fields,

Also considering the adoption of resolution CA 2/2010 entitled "Creation of a UPU emergency solidarity fund for countries affected by natural disasters and/or in special situations" and resolution CA 1/2011.1 entitled "Rules for the administrative management of the UPU Emergency and Solidarity Fund",

Strongly believing that it is very useful for UPU disaster risk management to take advantage of the valuable lessons learned from the catastrophic damage of natural disasters to member countries,

Emphasizing the importance of disaster risk management activities in developing countries as well as the need to take measures to guarantee the continuation of postal services in times of disaster,

Recommends that the relevant bodies of the UPU:

– design and implement a technical assistance approach in developing countries, especially least developed countries, in order to provide the best level of assistance to designated operators and relevant authorities in the implementation or improvement of disaster risk management policies and business continuity planning. This approach would combine, in an effective manner, the three elements of development cooperation (assistance from experts, training, and supply of equipment/material);
– study the possibility of a specific certification process which would allow postal operators to improve their disaster risk management approaches and benchmark their level of implementation in the framework of the UPU disaster risk management guide;

– develop strategies to address the identified challenges and resource allocation plans as part of development cooperation, while maximizing the knowledge and experience of member countries;

– enhance cooperation and partnerships with relevant organizations related to disaster risk management at the international, national, regional and local levels in order to be in line with disaster risk management frameworks such as the Sendai Framework for Disaster Risk Reduction 2015–2030;

– promote the integration of the disaster risk management efforts of the postal sector into the overall social and economic activities at all levels,

Also recommends

that the International Bureau, in coordination with the restricted unions, support and cooperate with efforts for the smooth and concrete implementation of the measures above.

(Proposal 08.Rev 1, Committee 6, 3rd meeting)

Resolution C 15/2016

Integrated Product Plan implementation

Congress,

Taking note of the work carried out by POC Committee 3 (Physical Services) in 2015 and 2016 to develop the Integrated Product Plan (IPP) in response to directions given by the 2012 Congress through various resolutions, and also in direct response to POC resolution CEP 3/2015.1 (Accelerating actions to modernize and integrate the UPU's international postal network),

Fully supporting the implementation of all of the recommendations contained in the IPP presented in Congress—Doc 39,

Considering that, with an expected worldwide growth of more than 10% a year, cross-border e-commerce represents an untapped potential for the postal sector,

Also considering that Posts are best placed to exploit the potential of e-commerce, but they must deliver reliably and continue to innovate in order to match the changing needs of consumers and e-sellers to be able to successfully compete in the market,

Noting that competition in the postal market, especially for e-commerce delivery, is fierce and rapidly evolving,

Convinced of the growth opportunities for postal operators in business generated through e-commerce,

Recognizing that growth and growth opportunities are applicable worldwide,

Also recognizing however that the ongoing development and growth of alternative networks is a clear signal that the UPU network is not meeting needs and that if the UPU does not adapt there will be a continuing increase in the number of designated operators moving traffic outside the UPU network,
Acknowledging that one of the challenges faced by the UPU in relation to customer needs and product features is how to satisfy market requirements by rationalizing, modernizing and integrating the existing framework of products,

**Instructs**

the Postal Operations Council to ensure that the UPU keeps pace with change by modernizing letter post, parcel post and EMS using an integrated approach (both to product development and to remuneration systems), and ensuring speedier decision making in response to market needs by implementing all of the recommendations contained in the IPP presented in Congress–Doc 39, namely:

- step 1 to be implemented following the 26th Congress, from 1 January 2018, with a target for transitioning to implementation of step 2 from 1 January 2020;
- a comprehensive review to be carried out on optional and mandatory supplementary services, with recommendations made to the 2018 mini-Congress or designated body and implemented immediately afterwards in order to modernize them in line with market requirements and objectives of the IPP;
- a comprehensive operational and accounting impact study to be completed in advance of the implementation of step 2;
- the development activities and timelines (outlined in the table in Congress–Doc 39, § 28) to be respected in order to ensure that implementation of the IPP is in line with the wishes of the UPU member countries,

**Also instructs**

the Postal Operations Council to:

- develop and implement POC activities (including remuneration, quality measurement, standards, accounting and operations) that are driven by product definition and development while at the same time recognizing customer, market and supply chain needs;
- ensure continued close coordination between the UPU body responsible for providing the roadmap for the implementation of electronic advance data and the body responsible for the implementation of the IPP;
- ensure the development of a system of integrated remuneration driven by the requirements of the IPP;
- ensure the continuous review of the IPP with the aim of submitting an updated version to the 27th Congress in 2020,

**Further instructs**

the Postal Operations Council to:

- incorporate into its 2017–2020 programmes a range of activities to ensure that the opportunities created by physical product development are realized for the entire UPU membership, with the activities to focus on providing customers with access to simple, affordable and reliable international postal services;
- take an integrated approach to product development, including remuneration aspects and research activities across the full range of physical services (letter post, parcel post and EMS) with a view to modernizing these services in the light of identified customer needs and expectations;
- develop services to meet customer needs in terms of speed, dimensions, reliability, price, etc., with the aim of modernizing the UPU’s physical service portfolio to cover the different needs of each customer segment;
- establish an integrated approach to issues related to the supply chain, including customs, security, aviation, transport, and operating standards, as the UPU network is vulnerable to external threats in this area and requires a globally coordinated UPU response,
Invites

the Postal Operations Council to set up a single body to assume overall responsibility for coordinating all aspects related to the future integrated development of letter post, parcel post and EMS, namely: product development, remuneration, supply chain, quality of service, etc.,

Also invites

member countries and their designated operators to:
– take measures enabling designated operators to provide quality physical products as part of the universal service, to stimulate the economy and reinforce social cohesion;
– acknowledge the role of UPU physical product development activities in enhancing the quality of the services for their citizens and businesses, particularly small and medium-sized businesses;
– take steps to ensure that their designated operators better manage relationships with their customers in order to become commercial, competitive and efficient;
– ensure that their designated operators focus not only on the challenges facing the development of international physical products, but also on the strategies needed to meet those challenges;
– participate actively in the UPU physical product development process;
– undertake activities aimed at increasing business by exploiting e-commerce opportunities,

Further invites

the restricted unions to lend their support to the development of e-commerce within their regions.

(Proposal 13, Committee 3, 3rd meeting)

Resolution C 16/2016

Application of geographic information systems to postal address development

Congress,

Considering

that research and experience has demonstrated that address systems are necessary, fundamental tools which are employed by literally every governmental function and public service, and every business, social, and economic unit worldwide, and are a necessary component of economic development,

In view of

the increasing recognition that the availability and effective use of address information can alleviate many of the developmental challenges faced by countries, such as urban development, social inclusion, provision of basic services, and preparedness for natural disasters, pandemics and population displacement,

Recognizing

that a significant portion of the population of many countries lives in unplanned settlements, informal housing areas or rural areas which do not have systematic addressing,

Recognizing also

that addresses are a critical component of the mail and parcel delivery infrastructure, and the full development of this business, including that of e-commerce, cannot be achieved efficiently without sound addressing systems and available address data,
Further recognizing that the traditional means of developing and allocating addresses involve a complex, burdensome, time-consuming and technically demanding process,

Noting that the development of information and communication technologies (ICTs) and geographic information systems (GIS) have increased dramatically in recent years, resulting in the invention of numerous new means for geo-locating businesses and residences more quickly and at a much lower cost than previously possible,

Bearing in mind the measures adopted by previous Congresses, and the considerable efforts made at international, regional and national levels to underscore the importance of quality addressing and develop and implement effective addressing systems in various countries using the most advanced technology, and particularly GIS,

**Instructs**

the Council of Administration, in consultation with the Postal Operations Council, and with the support of the International Bureau, to:

- conduct a study, with the aim of producing guidelines on the integration of GIS, and more particularly geocodes and mapping, to existing and emerging addressing systems in order to identify possible postal applications for tackling the lack of a comprehensive address system, strengthening operational efficiency and stimulating commercial activity, and more particularly e-commerce and parcel delivery;

- organize advocacy activities on the importance of developing address systems, using the most advanced technology for the effective implementation of the UN's 2030 Agenda and Sustainable Development Goals, including conferences and meetings;

- take appropriate measures to ensure capacity building of member countries in the field of addressing integrating GIS, including gathering in a unique online platform (library) materials and resources on address-related issues, such as address infrastructure development, best practices and success stories, benchmark studies, address standards and guidelines, integration of technology, etc.;

- identify actual and potential financing sources for addressing system development, including non-traditional sources;

**Also instructs**

the Postal Operations Council to:

- support the Council of Administration and the International Bureau in producing and promoting the study;

- study all operational recommendations resulting from the study on the implications of introducing GIS, such as geocodes, mapping or geo-marketing by DOs, and prepare an impact analysis;

- establish and implement a concrete action plan and roll out a roadmap for the effective implementation by DOs of the practical recommendations stemming from the study, particularly with countries willing to improve their postal markets and develop geo and predictive marketing;

- continue developing and promoting international address references and standards, such as S42, to allow for integration of the GIS technology, particularly geocodes and mapping;

**Further instructs**

the International Bureau to:

- support and advise member countries in their efforts to provide an address for everyone using the most advanced ICTs, with special focus on the most vulnerable populations;
Decisions other than those amending the Acts

– coordinate address-related technical assistance activities and the formation and management of a network of experts in that connection,

Urges

Union member countries to make address development, especially in unplanned settlements, a key element of their policy and national development plans in the upcoming cycle, as one of the bases for national and international communication (messages) and trade (goods),

Also urges

the Consultative Committee to assist the Council of Administration and the International Bureau in the task of developing an interactive list of professionals, universities, companies and non-profit organizations with expertise in address-related services and products integrating GIS, and particularly geocodes and mapping.

(Proposal 27, Committee 4, 5th meeting)

Resolution C 17/2016

Strengthening information technology security

Congress,

Acknowledging that designated operators are increasingly reliant on information technology systems to support efficient operations and offer convenient services to their customers, and to provide important information to other operators,

Observing that the dependence of mail operations and mail automation on information technologies has grown and will continue at an accelerated pace,

Recognizing the growing interdependence of member countries’ information technology to provide data across borders and around the world,

Aware that goal 1 of the Istanbul World Postal Strategy places emphasis, among other things, on security as well as the use of information and communication technologies,

Conscious of the global nature of security threats and their impact on member countries and customers,

Noting that information technology security has been increasingly viewed as essential in recent information technology development efforts of the UPU committees and projects,

Also acknowledging the need for guidance appropriate for member countries’ information technology departments to safeguard data and system access,

Also aware that information technology is ever changing, and therefore security measures will also have to keep pace,
Instructs

the Postal Operations Council:

– to conduct a study to identify relevant information technology security best practices, strategies and other measures, to promote a secure information technology environment for UPU member countries;
– to create an information technology security work item with the primary focus of monitoring information technology security trends to enable development of future requirements, as well as keeping UPU member countries abreast of the continually changing cybersecurity landscape, and to assign the work item to the group responsible for security for the UPU.

(Proposal 31, Committee 4, 5th meeting)

Resolution C 18/2016

Broadcasting of sessions of the Council of Administration and the Postal Operations Council through the Universal Postal Union website, for full access by registered users

Congress,

Considering:

– that the use of new technologies to broadcast the meetings of international organizations encourages transparency and participation from member countries, and saves on human, logistical and financial resources;
– that the UN has already established a live broadcasting system and meetings database incorporating sessions held during the Doha Congress,

Recognizing:

– the efforts made by the International Bureau in developing an Internet streaming channel, into which meetings held during the 2015 Geneva Strategy Conference have already been incorporated;
– that the UPU has an operating system for broadcasting meetings held in Berne; and that its website can broadcast such sessions via the "Web TV" section,

Aware:

– of the continuous efforts of the International Bureau to demonstrate transparency in all its activities, especially in meetings held at UPU headquarters in Berne;
– that the technical capability already exists to facilitate the broadcasting of meetings, in respect of which the application of this proposal would not incur any additional costs;
– that the broadcasting of meeting sessions may result in significant financial and logistical savings for member countries and the UPU itself,

Instructs

the International Bureau to:

– enable direct broadcasting of the CA and POC plenary and committee sessions (or those of the equivalent new bodies that may be created should UPU reform be adopted) to member countries and authorized observers, starting with the new cycle (1 January 2017);
– develop a virtual library where meeting videos can be accessed on demand;
Decisions other than those amending the Acts

- develop clear rules for the council(s) on this issue, taking into consideration the possible need to restrict access owing to confidentiality issues (in the light of the relevant provisions contained in the UPU General Regulations as well as the respective Rules of Procedure of the aforementioned bodies), and present the updated rules to such bodies at their first 2016 session for approval;
- study the financial, legal and technical viability of extending such broadcasting facilities to include interactive participation, interpretation and voting, with a view to potentially considering them for future implementation within the UPU;
- present the results of the aforementioned study to the relevant bodies of the Union for decision by the end of 2018.

(Proposal 26.Rev 2, Committee 3, 3rd meeting)

Resolution C 19/2016

Report on the consolidated accounts of the Universal Postal Union for the 2012–2015 period

Congress,

In view of:

a the report on the finances of the Union (Congress–Doc 26);
b the report of its Finance Committee (Congress–Doc 29),

Notes

the consolidated accounts of the Universal Postal Union for the 2012–2015 period, and gives final discharge to the bodies responsible.

Resolution C 20/2016

Aid provided by the Government of the Swiss Confederation in the field of the Union’s finances

Congress,

Having examined
the report on the finances of the Union (Congress–Doc 26),

Expresses

its gratitude to the Government of the Swiss Confederation for:

- the generous aid it provides to the Union in the field of finance by supervising the keeping of the International Bureau accounts and by acting as external auditor of the Union’s accounts;
- its willingness to cover temporary financing shortfalls by making the necessary short-term advances, on conditions which are to be fixed by mutual agreement.

(Congress–Doc 26.Annex 3, Committee 2, 4th meeting)
Resolution C 21/2016

Further strengthening the activities of the Union in the area of postal regulation

Congress,

Considering
that, in accordance with article 1 of the Constitution of the Universal Postal Union, the aim of the Union is to secure the organization and improvement of the postal services and to promote in this sphere the development of international collaboration,

Also considering
that, in recent years, in the context of a fast-changing internal and external environment, there has been an increasing separation of regulatory and operational functions, with more postal regulators being established, so that postal regulation has become an important issue for the UPU and its member countries,

Recognizing
that, through resolutions C 41/2008 and C 13/2012, the 24th and 25th Congresses called for the creation of postal regulation forums and conferences within the Council of Administration to promote best practice experiences in providing the universal service and organizing postal markets in member countries, and to discuss and exchange views on issues of common interest related to postal regulation,

Also recognizing
that, over the past few years within the sphere of the UPU, the integrated postal reform and development plans (IPDPs) and the regional development plans (RDPs), with a focus on reinforcing and developing postal regulation, have proven to be effective tools in addressing postal sector reform,

Convinced
that the aforementioned valuable UPU initiatives taken in the area of postal regulation have attracted great attention and interest among member countries, and could be a good reference for the development of their postal regulation activities,

Realizing
that member countries have various needs with respect to postal regulation in an era of electronic substitution and market liberalization,

Also realizing
that, in full exercise of their sovereignty, only member countries can establish their public policies, define institutional structures, and determine their use of resources according to what they deem is the best model to reach their social and economic development goals,

Also convinced
that, to meet the needs of member countries in terms of knowledge and awareness of the range of reforms conducted in the postal sector, the good practices adopted, and the evolving markets and players, it is necessary for the UPU to continue its activities in this area,

Instructs

the Council of Administration to:

– identify and describe the main aspects of postal regulation, to serve as a reference for member countries in their reform processes, and work in conjunction with restricted unions in line with these objectives;
– continue to organize the UPU Conference on Postal Regulation during the annual sessions of the Council of Administration, as a forum for exchanging experiences and disseminating information and best practices in the field;
– support reform and regulatory processes in member countries,
Also instructs

the International Bureau to:

– collect information on postal regulation from member countries and publish this information in a database on the UPU website;
– analyze the structures, models, best practices, and case studies;
– disseminate the research results to the relevant parties through publications, workshops, and conferences.

Resolution C 22/2016

Incorporation of designated operators into the account settlement system administered by the International Bureau

Congress,

Having noted

– that, in certain cases, the official means of recovery prove ineffective in debtor countries, even when the general or detailed accounts have been duly accepted by the designated operators;
– that the Acts of the Union and their Regulations do not provide for any specific mechanism to resolve such situations,

Recognizing

– that the Council of Administration has examined in detail the Acts and their articles to identify a way to incorporate a sanction mechanism into the provisions;
– that this examination revealed that any sanction mechanism would be wholly incompatible with the principles of a single postal territory and freedom of transit of the Universal Postal Union, set out in articles 1 and 1bis of the Constitution,

Aware

– that there exist bilateral best practices available to designated operators or governments wishing to resolve such situations between designated operators, including:
  • encouraging debt recovery agreements, by proposing long-term payment plans for debtor countries;
  • promoting recovery by means of a third party country, with the three parties in agreement as to the procedure;
  • approaching the International Bureau to help find a solution between the debtor designated operator and the creditor designated operator, recognizing that the International Bureau can play no regulatory or enforcement role in such cases;
  • referring the matter to the governmental authorities;
  • confirming the accounting information between designated operators;
– that these best practices do not guarantee a solution to bad debts, and that designated operators are required to make considerable additional efforts to resolve these situations,
Instructs

the Postal Operations Council to define a mechanism that makes the UPU*Clearing system the preferential method for settling international accounts, inviting the UPU*Clearing User Group to present a proposal to the 2018 Postal Operations Council aimed at encouraging designated operators that are not members of the Group to join this multilateral clearing system.

(Proposal 12.Rev 1, Committee 3, 6th meeting)

Resolution C 23/2016

Istanbul World Postal Strategy

Congress,

Taking account of:
– the fruitful and intensive discussions which took place during the UPU World Strategy Conference in Geneva in April 2015;
– the work of the Council of Administration and the Postal Operations Council in the area of strategic planning;
– the conclusions and views expressed during a series of regional strategy conferences, held throughout 2015, which provided over 150 countries with the opportunity to discuss the draft Istanbul World Postal Strategy while outlining their own regional priorities;
– the results of the questionnaire on the draft Istanbul World Postal Strategy and the prioritization of UPU activities;
– the lessons learned from the implementation of the Doha Postal Strategy;
– the results of the work of Congress as a whole,

Also taking account of
the draft Istanbul World Postal Strategy (Congress–Doc 13), prepared collaboratively by the CA, the POC and the International Bureau, which takes into consideration the views expressed during a general consultation of the chairmen of the CA and POC committees, Consultative Committee and project groups, as well as all Union member countries and the restricted unions,

Aware
of the continuing need to adapt the provision of postal services to developments in the postal environment and the changing needs of customers,

Approves

the Istanbul World Postal Strategy,

Invites

member countries to integrate the relevant elements of the Istanbul World Postal Strategy into their respective priorities and action programmes,

Also invites

restricted unions to integrate the relevant elements of the Istanbul World Postal Strategy into their respective priorities and action programmes,
Instructs

the permanent bodies of the Union, in accordance with the provisions set out in its General Regulations:

– to implement the goals and programmes defined in the Istanbul World Postal Strategy;
– to take without delay, within the framework of their respective competencies, all appropriate measures to attain the objectives set and, to this end, determine means of implementing the strategy to achieve the expected results;
– to regularly examine the state of implementation of the Istanbul World Postal Strategy through active and ongoing measurement and evaluation and, following this examination, to:
  • make whatever changes in direction and adjustments that are necessary;
  • reassign available resources, while noting that the degree of implementation of the Istanbul World Postal Strategy will be subject to the ceiling of expenses set and approved by Congress as well as to the budget established and approved by the newly elected Council of Administration;
– to regularly disseminate the results achieved to Union member countries;
– to report to the next Congress on the results achieved and the experiences recorded;
– to engage in a consultative process with member countries to prepare and present the future strategy for 2021–2024 for the approval of the 2020 Congress.

(Proposal 24, Committee 3, 6th meeting)

Resolution C 24/2016

Draft Istanbul Business Plan

Congress,

Noting that, in accordance with article 107.1.3 of the General Regulations of the Union, the Council of Administration examines the draft quadrennial UPU business plan approved by the Congress, and finalizes it by bringing the activities set out in the draft plan for the four-year period into line with the actual resources available,

Recognizing that the finalized version of the quadrennial business plan, completed and approved by the CA, will then form the basis for the preparation of the annual UPU Programme and Budget, as well as the operating plans to be drawn up and implemented by the CA and POC,

Noting also that Congress proposals of a general nature that have financial implications and provide instructions to the permanent bodies of the Union are included in the draft quadrennial UPU business plan to be adopted at the 26th Congress,

Approves

the draft Istanbul Business Plan, including all the work proposals contained therein,

Instructs

the Council of Administration to carry out regular updates to the draft Istanbul Business Plan in the 2017–2020 cycle in line with the decisions taken by Congress,
Also instructs

the Council of Administration, with the support of the International Bureau, to prepare and present the draft Business Plan for 2021–2024 to the 2020 Congress.

(Proposal 28, Committee 3, 6th meeting)

Resolution C 25/2016

Results of the study on the definition of a sanctions mechanism for non-payment of ongoing, long-term debts related to general accounts (CN 52) between designated operators

Congress,

Recognizing
– that the official collection methods do not necessarily produce the desired results among countries with long-standing debts, despite the fact that the CN 52 accounts were duly accepted by the designated operators;
– that certain designated operators have debts in arrears dating back over 25 years on international accounts,

Considering
that neither the Acts of the Union nor the Regulations provide for a specific mechanism to address this situation,

Noting
that Congress resolution C 58/2012 instructed that a study of designated operators with long-term debts be carried out with a view to including in the Regulations a sanctions mechanism to address the situation, and that the mechanism be presented during the 2013–2016 cycle with a view to a rapid implementation,

Recalling
that during the 2009–2012 cycle the Postal Operations Council studied the possibility of resolving these situations by means of sanctions,

Recalling also
that during the 2009–2012 cycle the Postal Operations Council stressed that many of these financial situations were between countries that did not have political relations with each other, which was why funds were not being exchanged,

Recognizing also
that the Council of Administration (CA) reviewed the Acts in depth in an effort to identify a means of incorporating an appropriate mechanism in the Regulations, and that it emerged from the CA's review that any sanctions mechanism runs completely counter to the Universal Postal Union principle regarding the single postal territory and freedom of transit set forth in articles 1 and 1bis of the Constitution,

Convinced
that there are a number of bilateral best practices that can be used by designated operators and governments to resolve these situations, including the following:
– Promoting payment agreement mechanisms for the settlement of long-term debts by debtor countries;
– Promoting triangular collection methods – collecting debts via third countries, subject to the three parties agreeing on the terms;
– Consulting the International Bureau with a view to seeking a solution between the debtor designated operator and the creditor designated operator, but on the understanding that the International Bureau does not perform a regulatory role in these cases;
Decisions other than those amending the Acts

– Taking the matter to government level;
– Facilitating the provision of accounting information between designated operators,

*Instructs*

– the International Bureau to inform the member countries of the best practices for recovering debts in arrears;
– the Postal Operations Council to continue to identify a mechanism for incentivizing countries to join the UPU*Clearing system, in collaboration with the UPU*Clearing User Group, which could define and revise the mechanism,

*Invites*

Member countries, through their designated operators, to consider these best practices for resolving financial situations with countries with long-term debts.

(Proposal 04, Committee 3, 6th meeting)

Resolution C 26/2016

*Period covered by the financial decisions taken by the 26th Congress*

Congress,

Having examined the draft Istanbul Business Plan for 2017 to 2020 (Congress–Doc 14) and Congress–Doc 30.Rev 1,

In view of the fact that the financial resources for the future must be allocated on the basis of the Programme and Budget stemming from the Istanbul World Postal Strategy covering the period from 2017 to 2020,

*Decides*

that the financial system shall cover the period of execution of the Strategy (2017–2020),

*Also decides*

that, in strict accordance with the solidarity rule contained in article 21.3 of the UPU Constitution (and taking into account both the ceiling of expenditure determined by Congress and the finalized version of the quadrennial UPU Business Plan), the amount of the contributory unit shall be calculated solely on the basis of the annual Programme and Budget approved by the Council of Administration, as well as the number of contributory units announced at the time when the Council of Administration approves the aforementioned Programme and Budget,

*Further decides*

that, consistent with the above, under no circumstances shall the amount of the contributory unit be subject to any freezing measure during the entire period covered by the Istanbul Congress cycle (from 2017 to 2020), as well as all future Congress cycles.

(Congress–Doc 30.Rev 1.Annex 1, Committee 2, 4th meeting)
Resolution C 27/2016

Management of the work of the Union – Reform of the UPU

Congress,

Fully recognizing and appreciating the work on UPU reform accomplished by:

– the Council of Administration, presented in Congress–Doc 38 (“Reform of the Union. Proposals concerning structural changes to the Union and faster decision making”);

– Germany and France, the authors of proposals 11 and 25, both entitled "Management of the work of the Union – Reform of the Union", which drew support from 21 countries,

Recognizing
that the postal environment is undergoing profound and rapid change, meaning that the UPU needs to adapt its operations, decision-making process, work methods and activities,

Confirming
that there was a consensus at Congress on the imperative need for the Union to enhance its relevance and speed up its decision-making processes, and also to ensure cost-effectiveness in view of the financial constraints and the rising expectations of member countries,

Bearing in mind
that the UPU is an organization of an intergovernmental nature and a specialized agency of the United Nations, whose mission is to stimulate the lasting development of efficient and accessible universal postal services of quality in order to facilitate communication between the inhabitants of the world,

Taking into consideration
the mandate of Congress resolution C 26/2012, which reaffirmed the above considerations, as well as "the need to continue to evaluate the organization, structure and running of various UPU bodies […] in order to draw a clearer distinction between their respective roles",

Stressing
the need to secure the future of the Union by strengthening a consensual decision-making approach as well as solidarity principles amongst member countries,

Noting
the desire for fair geographical representation and wider participation in the work of the Union,

Decides

– to defer examination of reform issues to an Extraordinary Congress to be convened in 2018,

– to instruct the Council of Administration and the Postal Operations Council to apply the following principles as a basis for their respective structures and decision-making processes:

   i   the concept of standing groups will be implemented, but they will be kept limited in number and be created to address ongoing and cycle-long business;

   ii  the concept of task forces, to be given specific mandates, objectives, deliverables and timeframes, in line with the Union's strategy and business plan and relevant Congress resolutions, will likewise be implemented;

   iii task forces will be disbanded once the assignment is completed or suspended by the respective councils;

   iv  participation in task forces will be open to all UPU member countries;

   v  in principle, participation of observers may be allowed, subject to the relevant rules of procedure of the respective councils;
Decisions other than those amending the Acts

vi information on the task forces’ activities, responsiveness, mandates and progress will be made available on the UPU website;
vii the work of task forces and standing groups may, in principle, be conducted by electronic means (e.g., teleconferences and electronic mail) between council sessions; when necessary, they may hold physical meetings at UPU headquarters in Berne, with final deliverables to be submitted to the relevant Council within the timeframe given; and

– that each Council shall meet twice a year, for a maximum total period of 10 working days, with the two councils meeting consecutively,

Also decides

to establish an ad hoc group charged with studying and advising on the reform of the Union and submitting its conclusions to the Council of Administration before further consideration by the Extraordinary Congress in 2018.

(Proposal 36, 2nd plenary meeting)

Resolution C 28/2016

Organization of an Extraordinary Congress in 2018

Congress,

Recognizing
that one of the key expectations of the reform was faster, timely decision making within the Union in order to cope with rapidly changing needs in the postal environment,

Considering
that since 2001, the Union has held a Strategy Conference at the midway point between Congresses, to assess the progress made in achieving the World Postal Strategy, address the challenges facing the postal sector, and discuss the development of a more dynamic, competitive, customer-focused postal network,

Decides

to hold an Extraordinary Congress midway between the Istanbul Congress and the 2020 Congress, which would mean a plenary Congress in 2018, to address various issues relating to the current and future World Postal Strategy, as well as any urgent postal sector issues, for five working days at the maximum,

Instructs

the Council of Administration, with the full support of the International Bureau, to take all the necessary measures to organize the Extraordinary Congress (e.g. timetable, agenda, host country, designation of the Chair if applicable),

Further instructs

the Council of Administration, with the full support of the International Bureau, to assess the need as to whether a mid-term Congress should take place on a permanent basis and therefore be defined in the Acts of the Union, and to submit proposals to the 2020 Congress as appropriate.

(Proposal 16, 2nd plenary meeting)
Resolution C 29/2016

Reform of the system applied to contributions by Union member countries

Congress,

Considering
that, in accordance with article 21 of the UPU Constitution, the Union's expenses shall be jointly borne by its member countries, and that in accordance with the UPU General Regulations, each member country shall, on a voluntary basis, choose the contribution class to which it intends to belong,

Also considering
that, since the 2012 Doha Congress, the number of units contributed by Union member countries has decreased significantly and that the current contribution model can no longer ensure the Union's financial stability,

Recognizing
that, through its Director General, the International Bureau has taken a number of steps over the past few years to actively encourage member countries to increase the number of units during the Doha cycle (2013–2016), despite which only two member countries agreed to make such additional contributions towards the Union's budget,

Also recognizing
that, in addition to the above measures, the International Bureau, through its Director General, was compelled to implement several ad hoc measures with the aim of stabilizing the Union's short-term funding, including the freezing of staff recruitment processes and general cost-cutting actions in response to existing financial constraints,

Noting
that, in view of the aforementioned financial constraints, the Council of Administration (CA) decided to abolish several International Bureau posts,

Noting also
that the development of a sustainable contribution model constitutes both a priority and a cornerstone within the context of the reform of the Union, for which an ad hoc working group was created by decision of the 2014 CA, in order to seek innovative funding sources through dialogue with member country governments, regulators and designated operators, including, without limitation, the subject of fair compensation for use of the various solutions and tools created and managed by the Union,

Acknowledging
the aforementioned initiatives undertaken in the area of sustainable financing of the Union,

Realizing
the Union's fundamental needs with respect to financial stability, and that due re-engineering of the contribution model by splitting it into fixed mandatory and variable usage-based components has become a necessity in order to secure the Union's financial stability,

Also realizing
that in full exercise of their sovereignty, member countries, particularly through the CA, should recommend possible fair and sustainable financing models aimed at ensuring the achievement of the Union's constitutional mission, scope and objectives,

Convinced
that, in order to meet the Union's needs with regard to its long-term financial sustainability, the prevailing practice adopted within the United Nations (UN) system, mainly based on assessed contributions based on the relative capacity of each member country to pay (gross national income, while taking into account other
Decisions other than those amending the Acts

elements such as external debt and development levels), should be used as a basis for any future Congress proposals,

Instructs

the Council of Administration to

prepare, for submission to the next Congress (regular or extraordinary), an alternative contribution model proposal in order to guarantee the Union's long-term financial sustainability,

Also instructs

the International Bureau to identify and describe the main issues pertaining to the Union's long-term financial sustainability (including, without limitation, an analysis of the various contribution models applied in the UN system) with a view to assisting the CA in preparing the aforementioned Congress proposal.

(Proposal 22, Committee 2, 4th meeting)

Decision C 30/2016

Venue of the 27th Universal Postal Congress

Congress,

Decides

to accept the invitation of the Government of the Republic of Côte d'Ivoire to host the 27th Congress in that country in 2020.

(Congress–Doc 31, 2nd plenary meeting)

Resolution C 31/2016

Future sustainability of the Union's Provident Scheme

Congress,

Considering

the work done by the task force created by the Council of Administration in February 2016 at the proposal of the Provident Scheme Secretariat to study and develop, for consideration by the Istanbul Congress, any possible solutions to cover the shortage in the statutory funding rate,

Also considering

that Congress resolution C 81/2004, entitled "Measures proposed for safeguarding the UPU Provident Scheme's ability to meet its future obligations", authorized the Council of Administration – in the event of an emergency – to implement measures with a view to contributing temporarily to the indexation of Provident Scheme periodic benefits paid since 1 January 1992 and to enter the relevant amounts in the Union's regular budget,

In view of

the structural stabilization measures taken by the Management Board of the UPU Provident Scheme on the basis of the actuarial valuation at 31 December 2010 (CA C 2 2013.2–Doc 16), measures which were intended to have a long-term impact and which were aimed at remedying the imbalance associated with the increase in the average age of the UPU Provident Scheme's participants,
Taking into account the decision taken by the Council of Administration in 2012, based on the recommendations of the UPU Provident Scheme's consultant actuary, to distribute the amount required under the guarantees over a 10-year period, with the payments into the Scheme ending once the minimum coverage requirement of 85% had been satisfied, and that these measures improved the Provident Scheme's financial health in 2013, although its accounts continued to show a slight shortfall,

Recognizing that the UPU Provident Scheme Management Board took a number of structural stabilization measures in 2014 on the basis of updated actuarial assumptions, and noting the conclusion from the Management Board's 2015 report to the Council of Administration that the updated assumptions were no longer in step with the current economic environment, together with a number of temporary measures,

Also recognizing that article 8.2 of the UPU Provident Scheme Regulations explicitly states that appropriate payments aimed at supplementing the assets of the UPU Provident Scheme and stabilizing in the medium term its degree of coverage (to a minimum level of 85%) may be one-off or periodical,

Further recognizing that the member countries could have decided in 2015 whether they wished to make a one-off payment of 4,781,343.69 CHF to absorb the shortfall in one go in 2015, or preferred to schedule their payments,

Acknowledging that, given the risk of further deterioration in the Scheme's financial situation (attributable to the lowering of performance expectations, the cut in the technical interest rate for the purpose of the actuarial balance sheet, increasing longevity, and the unfavourable demographic ratio), the consultant actuary recommended in 2015 that the appropriate payments required to stabilize the degree of coverage of 85% should be made in the short term, and over the next five years at the most (rather than 10 years as previously stated in document CA C 2 2014.1–Doc 14),

Convinced that reform measures may be envisaged to prevent these guarantees from being called upon in the near future,

Noting that the UPU Provident Scheme's ability to meet its future obligations has diminished as a result of the downturn in the financial market in 2007 and beyond, and that since 2014 the Scheme has been operating under the aforementioned 85% threshold,

Also noting that the UPU previously undertook reforms of its pension management when it closed the Pension Fund to new entrants in 1963, and any subsequent members were brought under the Provident Scheme,

Acknowledging that the UPU Provident Scheme has reached the minimum level requiring application of the statutory guarantees introduced by Vienna Congress resolution C 9/1964, which charges the Director General of the International Bureau if need be to provide in the ordinary budget of the Union, after taking the advice of the Executive Council (current Council of Administration), for the sums that would be required in order to amortize in an appropriate way any technical deficit in the Provident Scheme,

Also acknowledging that article 4 § b of the UPU Provident Scheme Regulations provides for appropriate payments if the degree of coverage falls below the minimum rate of 85%,

Bearing in mind that the decision to guarantee UPU Provident Scheme shortfalls with the ordinary budget of the Union was taken before the constitution of the subsidiary bodies that manage extrabudgetary activities (like the Quality of Service Fund, EMS Cooperative and Telematics Cooperative), and that these bodies have their own budget that covers salaries but not pension costs,
Instructs
the Council of Administration, with the support of the International Bureau, to:
– conduct a study on how to ensure the continued stability and sustainability of the UPU Provident Scheme in order to prevent the recurrence of the current situation, with the primary aim of examining potential options for future reform of the UPU Provident Scheme, so that it is less expensive to maintain in the future;
– take into consideration in this study potential structural measures, including possible changes to the UPU Provident Scheme’s legal and/or governance frameworks; the possible transfer of the UPU Provident Scheme to the United Nations Joint Staff Pension Fund; the feasibility of borrowing money from banks to recapitalize the fund and repay the debt when the Union recovers the arrears; the implementation of additional measures to reduce the liabilities, for example, assessment of health insurance rationalization in line with common practice; increase of retirement age; correlation between contribution and benefits of an employee; setting up of a minimum contribution period; increase of contribution made to the Scheme by both employer and employee, subject to the legal obligations towards UPU Provident Scheme beneficiaries and their assignees and taking into account input from a range of Scheme stakeholders, including the Provident Scheme Management Board and the International Bureau’s Staff Association;
– present the results of the aforementioned study in 2018 to the appropriate body of the Union, either an extraordinary Congress (if so decided) or the Council of Administration;
– take note of the latest audit reports concerning the UPU Provident Scheme (without prejudice to the remit of its Management Board and supervisory authority),

Also instructs
the International Bureau to continue to provide for the necessary sums that would be required to amortize any technical deficit in the UPU Provident Scheme, implementing structural and temporary measures to stabilize the fund until the result of the study is presented,

Decides
to take note of the information included in Congress–Doc 28, as well as the member countries’ rejection of the payment options and request for a full study outlined therein, with a view to making an informed decision on the potential options for the future sustainability of the UPU Provident Scheme.

(Proposal 37.Rev 1, 3rd plenary meeting)
