

# MADE IN BELGIUM

Belgians like to do everything their own way. No wonder that our country was the breeding ground for surrealism, for example. Our stamps are also surprisingly unique. They put distinctive subjects with a strong story in the spotlight that are food for wonder, perhaps even amazement. Just as Belgium is praised for its idiosyncrasy, our stamp collection radiates authenticity, originality, and a bit of unruliness. We invite you to discover some of Belgium's finest stamp issues.

# Digital Arts & Entertainment

The best game design course in the world? You can go to Kortrijk for this. Howest's DAE course has been awarded several times by third parties as the best game design and development course in the world. All the more reason to give the upcoming talent a chance to develop their DAE stamp.

# East Belgium

One hundred years ago, in March 1925, the law ratifying the final annexation of Eupen-Malmedy by Belgium was approved. The cantons of Eupen, Malmedy and Sankt-Vith were included within the arrondissement of Verviers and the province of Liège. We would like to put the East Belgium region in the spotlight in all their beauty on 5 stamps.

Issue date: 07/04/2025
