Problems to solve

High transaction costs

- Commissions up to 40%
- Postage, customs, insurance
- Required travel

Lack of centralized marketplace

- No source for traded reference prices
- Geographically limited access
- Millennials and younger not reached
- E-commerce is limited to low quality – scams

Authenticity & Security

- Intransparent provenance
- Authentication and certification required multiple times
- Physical risk in handling, packing & storage

Lack of customer experience

- Processes are cumbersome
- Collections are complex to maintain
- Long wait times for a sale

Our value proposition: Enabling the secondary market

Slash transaction costs

- Reduce transaction costs to a fraction
- No need to postage & customs
- Remote sales fully enabled

Lack of centralized marketplace

- Single platform with publicly available transaction
- Globally and technologically accessible
- Robust and trustworthy information

Authenticity & Security

- Full provenance chain
- Philatelic work done once only
- Collectors have no handling or storage risk

Lack of customer experience

- Straightforward process
- Collecting made easy
- Buy and sell anytime
- Avoid CO₂ through full digital experience

Our solution is a digital business model

**Acquisition/
commission**

In insured safe

- Stored and accounted for

Digital twin

- Background and trivia
- Provenance
- Multimedia metadata
- Right of ownership

Primary sale

User benefits

- Can claim physical
- Can view digital and use in collections
- Real marked-to-market valuation

Secondary transactions
