

Netherlands

Postcode

Postcode type and position

6 alphanumeric characters (4 digits and 2 letters, with a space between the digits and the letters) to the left of the locality name.

Coding method

Position of the address on the envelope

Centred

Alignment of address lines

Left-aligned

Address format

In localities with fewer than 15,000 inhabitants, the 3rd and 4th digits represent the locality. A space shall be printed between the numerical part of the postcode and the alphabetical part. Two spaces shall be printed between the alphabetical part of the postcode and the locality name. The alphabetical part of the postcode shall be printed in capital letters.
