

Universal *POST*CODE*® DataBase

Update 2025.1

Dear Reader,

In order to keep you up-to-date about changes in member countries' addressing data and addressing systems, we created this newsletter.

Happy reading!

In the current 2025.1 release:

65 countries and territories have updated their data.

1 data sets have been completely modified.

46 data sets in total are in the "Territories" folder.

275 data sets in total are in Universal *POST*CODE*® DataBase.

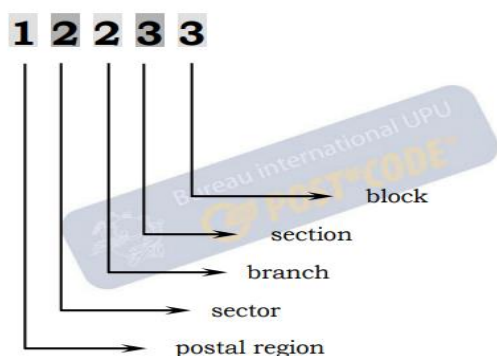

Saudi Arabia – new dataset at premises level

The 2025.1 release of the Universal *POST*CODE* DataBase provides a new dataset for Saudi Arabia, containing street names and house numbers.

We wish to remind you that Saudi Arabia uses two postcode systems, depending on the type of delivery:

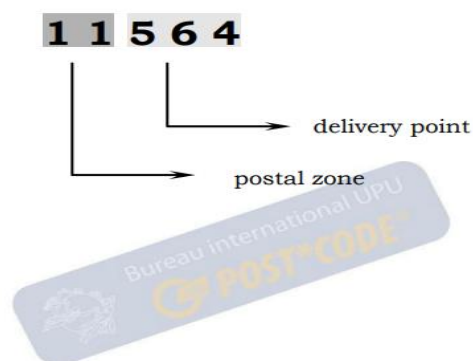

Coding method for home Delivery

5 digits above the locality name

Coding method for PO Box delivery

5 digits above the locality name

Further details regarding Saudi Arabia's postcode and addressing system can be found at:
