

23 September 2025

To the CC Secretariat

I am hereby submitting my candidacy for a position on the Management Committee in line with the email notification from CC Secretariat (on September 11th) in accordance with Article 9.1 of the CC Rules of Procedure (CC RoP).

I have forty years of experience from customs and trade, having worked in executive positions as well as operationally in Government, International Institutions and the last thirteen years - in executive positions in private sector.

I am today running the customs and trade business in Maersk and I have previously held executive positions in KGH, World Customs Organization and Swedish Customs. As a widely acknowledged expert in my field of customs, border management and international trade policy, I also have gained extensive experience from initiating, designing and running public-private sector partnership and cooperation forums and consultative committees.

With this in mind I believe that I have the professional skills and experience to carry out the required functions within the Committee in an appropriate manner, including in particular the availability to travel and to participate in meetings of the Committee, as well as sufficient technical knowledge of matters pertaining to the activities of the Committee.

Yours sincerely

Lars Karlsson
