Updated data sets and update description No. 2026.1

Updated data sets

*For data sets in the list, new data are available. If the updated data set name is indicated in brackets after a territory or country name it refers to "Special data set". Where no data set name is mentioned it refers to "Standard data set". Please refer to "Universal POST*CODE® DataBase – Description of files" document, page 1.*

ALA	Åland Islands	
ASM	American Samoa	
AUS	Australia	Standard data set, (PCF)
AUT	Austria	
BDI	Burundi	**New:** First level administrative division, locality and sub-locality listings updated.
BEL	Belgium	(Road65)
BLM	Saint Barthélemy	
BOL	Bolivia	**New:** First level administrative division, locality and sub-locality listings updated. Post office information added.
CAN	Canada	(Address Lookup File (CPC))
CHE	Switzerland	
CHL	Chile	
COL	Colombia	
CPT	Clipperton Island	
CUW	Curaçao	**New:** Locality listing updated. Sub-locality information added.
CYP	Cyprus	
CZE	Czech Republic	
DEU	Germany	(Datafactory Streetcode), (Datafactory Basic)
DNK	Denmark	
EST	Estonia	
FIN	Finland	
FRA	France	Standard data set, (Cedexa + Hexavia), (Cedexa + Hexaposte), (Hexaposte), (Hexacle + Hexaligne), (Hexavia)
FRO	Faröe Islands	
GBR	United Kingdom	Standard data set, (PAF Premise level with Aliases), (PAF Premise level), (PAF Thoroughfare level)
GLP	Guadeloupe	
GRC	Greece	Standard data set, (GREEK STREET DATABASE)
GRL	Greenland	
GUF	French Guiana	
GUM	Guam	
HKG	Hong Kong	
HRV	Croatia	
HUN	Hungary	**New:** New transliteration rules applied. SYNONYM file, that included simplified transliteration rules, no longer needed.
IDN	Indonesia	**New:** Post office information updated
ISL	Iceland	
ITA	Italy	(CAP Street), (CAP Professional)

JPN	Japan	
KEN	Kenya	**New:** First level administrative division, locality, post office and PO Box information updated.
KOR	Korea (Rep.)	
LIE	Liechtenstein	
LTU	Lithuania	
LUX	Luxembourg	
LVA	Latvia	
MAF	Saint Martin (FR)	
MAR	Morocco	
MEX	Mexico	
MNP	N. Mariana Islands	
MTQ	Martinique	
MYT	Mayotte	
NCL	New Caledonia	
NLD	Netherlands	Standard data set, (Cendris Postcodetabel Series Level)
NOR	Norway	Standard data set, (Adresseregister), (Gateregister)
NZL	New Zealand	Standard data set, (PAF)
POL	Poland	Standard data set, (Polish Address Directory)
PRI	Puerto Rico	
PYF	French Polynesia	
REU	Réunion	
ROU	Romania	
SGP	Singapore	(6D PCD)
SJM	Svalbard and Jan Mayen	
SPM	Saint Pierre and Miquelon	
SRB	Serbia	
SVK	Slovakia	
SVN	Slovenia	
SWE	Sweden	
UKR	Ukraine	
URY	Uruguay	
USA	USA	Standard data set, (ZIP+4)
VIR	Virgin Islands, U.S.	
ZAF	South Africa	

Corrigenda

ISR	Israel	Entrance numbers added.
TCA	Turks and Caicos Is.	Postcode properly assigned. Duplicated sub-locality deleted.
TUR	Türkiye	Links connecting streets and locality subdivisions to their parent localities have been corrected.

Summary

In the current 2026.1 release	
New data sets added	0
Total updated data sets	86
Total corrected data sets (ISR, TCA)	3
Data sets completely modified (BDI, BOL, CUW, KEN)	4
Counts of data sets in Territories' folder	46
Counts of data sets in Universal *POST*CODE*® DataBase	276

Datasets Additions and Removals

The table below lists all data files that were added or removed in the current update.

ISO3 code	Country	Change type	File name(s)	Notes
BDI	Burundi	Added	BDI_002.dat	Changes within existing datasets
BDI	Burundi	Deleted	BDI_004.dat	Changes within existing datasets
BOL	Bolivia	Added	BOL_002.dat	Changes within existing datasets
BOL	Bolivia	Added	BOL_004.dat	Changes within existing datasets
CUW	Curaçao	Added	CUW_002.dat	Changes within existing datasets
KEN	Kenya	Deleted	KEN_005.dat	Changes within existing datasets
HUN	Hungary	Deleted	HUN_005.dat	Changes within existing datasets

NEWS: Update 2026_1

As of the 2026.1 release, this document includes detailed information on changes introduced in the data files. It specifies which country-level dataset files have been added and which have been removed as part of the release. This information will be presented in a table as illustrated above.

Bolivia

In the 2026.1 release, Bolivia provides updated addressing data for the first and second administrative divisions. The datasets include 416 localities, 413 sub-localities and nine post offices.

Curaçao

In the 2026.1 release, Curaçao provides updated data, including 56 localities and a more detailed structure of sub-localities (representing 310 sub-localities).

Kenya

In the 2026.1 release, Kenya now provides updated addressing data. The Universal *POST*CODE* DataBase includes 47 provinces, 237 localities, 404 post offices, and 392 postcode and post office box numerical ranges.

Burundi

Following an administrative division reform implemented in September 2025, Burundi's data in the 2026.1 release reflects the updated structure of five provinces (Buhumuza, Bujumbura, Burunga, Butanyerera and Gitega), 42 communes and 2,992 sub-localities. An updated post office list reflecting the new administrative division will be published in a subsequent release.
