# List of data sets and database volume 2026.1

Data level:
A++ = address directory
A+ = street directory
A = postcodes for localities and streets
B+ = postcodes for localities and districts
B = postcodes for localities
C = names of localities only

**SORTING BY REGION AND COUNTRY/TERRITORY NAME**

Data volume:
approx 26 GB
(specific countries not included)

| Data set code ("ISO 3 CODE") | Data set identifier XY | Country/territory name | Geographical region | Data level | Last updated | Supplement to data level | Number of records per data set in the final database on 28 February 2026 | | | | | Script used in the synonym file AAA_XY5 | | Encoding used in the ISO 8859 folder (UTF-8 if not available) | Data sets with specific conditions on 28 February 2026 | Download the sample from www.upu.int or ask for your sample CD |
|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|
| | | | | | | | Records in the LOCALITY file AAA_XY1 | Records in the LOCALITY SUBDIVISION file AAA_XY2 | Records in the STREET (roadnet) file AAA_XY3 | Records in the ORGANIZATION file AAA_XY4 | Records in the SYNONYM file AAA_XY5 | Non-Latin scripts supported | ISO code of language in the SYN_LNG fileld for non Latin script | | | |
